The Government of the Republic of Korea (Korea) and the Government of the United States of America (United States) (the Parties):

Seeking to establish clear and mutually advantageous rules governing their trade and investment and to reduce or eliminate the barriers to trade and investment between their territories;

Desiring to strengthen the development and enforcement of labor and environmental laws and policies, promote basic workers' rights and sustainable development, and implement this Agreement in a manner consistent with environmental protection and conservation;

Building on their respective rights and obligations under the *Marrakesh Agreement Establishing the World Trade Organization* and other multilateral, regional, and bilateral agreements and arrangements to which they are both parties; and

- 4. In the event that a Party adopts or maintains a prohibition or restriction on the importation from or exportation to a non-Party of a good, no provision of this Agreement shall be construed to prevent the Party from:
 - (a) limiting or prohibiting the importation of the good of the non-Party from the territory of the other Party; or
 - (b) requiring as a condition for exporting the good of the Party to the territory of the other Party, that the good not be re-exported to the non-Party, directly or indirectly, without being consumed in the territory of the other Party.
- 5. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good from a non-Party, the Parties, on the request of either Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing, or distribution arrangements in the territory of the other Party.
- 6. Neither Party may, as a condition for engaging in importation or for the importation of a good, require a person of the other Party to establish or maintain a contractual or other relationship with a distributor in its territory.
- 7. For greater certainty, paragraph 6 does not prevent a Party from requiring a person referred to in that paragraph to designate an agent for the purpose of facilitating communications between its regulatory authorities and that person.
- 8. For purposes of paragraph 6, **distributor** means a person of a Party who is responsible for the commercial distribution, agency, concession, or representation in the territory of that Party of goods of the other Party.

2. Neither Party may require consular transactions, including related fees and charges, in connection with the importation of any good of the other Party.
3. Each Party shall make available and maintain through the Internet a current list of the fees and charges it imposes in connection with importation or exportation.

CHAPTER THREE AGRICULTURE

ARTICLE 3.1: SCOPE AND COVERAGE

1. This Chapter applies to measures adopted or maintained by a Party relating to trade in agricultural goods.¹
2. In addition, Article 3.2 shall apply with respect to all goods included in Appendix 2-B-1 of a Party's Schedule to Annex 2-B (Tariff Elimination), whether or not those goods are agricultural goods.

ARTICLE 3.2: ADMINISTRATION AND IMPLEMENTATION OF TARIFF-RATE QUOTAS

1. Each Party shall implement and administer the tariff-rate quotas set out in Appendix 2-B-1 of its Schedule to Annex 2-B (Tariff Elimination) (TRQs) in accordance with Article XIII of GATT 1994, including its interpretive notes, and the Import Licensing Agreement.
2. Each Party shall ensure that:
 - (a) its procedures for administering its TRQs are transparent, made available to the public, timely, non-discriminatory, responsive to market conditions, minimally burdensome to trade, and reflect end-user preferences;
 - (b) any person of a Party that fulfills the importing Party's legal and administrative requirements shall be eligible to apply and to be considered for a quota allocation under the Party's TRQs. Unless the Parties otherwise agree, any processor, retailer, restaurant, hotel, food service distributor or institution, or other person is eligible to apply and to be considered to receive a quota allocation. Any fees charged for services related to an application for a quota allocation shall be limited to the actual cost of the service rendered;
 - (c) except as specified in Appendix 2-B-1 of its Schedule to Annex 2-B, it does not allocate any portion of a quota to a producer group, condition access to a quota allocation on the purchase of domestic production, or limit access to a quota allocation to processors; and
 - (d) it allocates quotas in commercially viable shipping quantities and, to the maximum extent possible, in the amounts that importers request. Except as otherwise provided in each TRQ provision and the applicable tariff line in Appendix 2-B-1 of a Party's Schedule to Annex 2-B, each quota allocation shall be valid for any item or mixture of items subject to a particular TRQ, regardless of the item's or mixture's specification or grade,

¹ For greater clarity, Article 3.1 is subject to paragraph 3(l) of the General Notes accompanying Korea's Schedule to Annex 2-B.

and shall not be conditioned on the item's or mixture's intended end-use or package size.

3. Each Party shall identify the entities responsible for administering its TRQs.
4. Each Party shall make every effort to administer its TRQs in a manner that allows importers to fully utilize quota quantities.
5. Neither Party may condition application for, or utilization of, quota allocations under a TRQ on the re-export of a good.
6. On the written request of either Party, the Parties shall consult regarding a Party's administration of its TRQs.
7. Except as otherwise provided in Appendix 2-B-1 of its Schedule to Annex 2-B, each Party shall make the entire quota quantity established in that Appendix available to quota applicants beginning on the date the Agreement enters into force during the first year, and on the first business day of each year thereafter. Over the course of each year, the importing Party's administering authority shall publish, in a timely fashion on its designated publicly available Internet site, utilization rates and remaining available quantities for each TRQ.

ARTICLE 3.3: AGRICULTURAL SAFEGUARD MEASURES

1. Notwithstanding Article 2.3 (Elimination of Customs Duties), a Party may apply a measure in the form of a higher import duty on an originating agricultural good listed in that Party's Schedule to Annex 3-A, consistent with paragraphs 2 through 8 if the aggregate volume of imports of that good in any year exceeds a trigger level as set out in its Schedule to Annex 3-A (trigger level).
2. The duty under paragraph 1 shall not exceed the lesser of the prevailing most-favored-nation (MFN) applied rate, or the MFN applied rate of duty in effect on the day immediately preceding the date this Agreement enters into force, or the tariff rate set out in its Schedule to Annex 3-A.
3. The duties each Party applies under paragraph 1 shall be set according to its Schedule to Annex 3-A.
4. Neither Party may apply or maintain an agricultural safeguard measure under this Article and at the same time apply or maintain, with respect to the same good:
 - (a) a safeguard measure under Chapter Ten (Trade Remedies); or
 - (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.
5. A Party shall implement any agricultural safeguard measure in a transparent manner. Within 60 days after imposing an agricultural safeguard measure, the Party applying the measure shall notify the other Party in writing and provide the other Party

with relevant data concerning the measure. On the written request of the exporting Party, the Parties shall consult regarding application of the measure.

6. The Joint Committee or the Committee on Agricultural Trade established under Article 3.4 may review and discuss the implementation and operation of this Article.

7. Neither Party may apply or maintain an agricultural safeguard measure on an originating agricultural good:

- (a) if the period specified in the agricultural safeguard provisions of the Party's Schedule to Annex 3-A has expired; or
- (b) if the measure increases the in-quota duty on a good subject to a TRQ set out in Appendix 2-B-1 of its Schedule to Annex 2-B.

8. Originating agricultural goods from either Party shall not be subject to any duties applied pursuant to any agricultural safeguard measure taken under the Agriculture Agreement.

ARTICLE 3.4: COMMITTEE ON AGRICULTURAL TRADE

1. Not later than 90 days after the date this Agreement enters into force, the Parties shall establish a Committee on Agricultural Trade, comprising representatives of each Party.

2. The Committee shall provide a forum for:

- (a) monitoring and promoting cooperation on the implementation and administration of this Chapter;
- (b) consulting on matters related to this Chapter in coordination with other committees, subcommittees, working groups, or other bodies established under this Agreement; and
- (c) undertaking any additional work that the Joint Committee may assign.

3. The Committee shall meet at least once a year unless the Parties otherwise agree. Meetings of the Committee shall be chaired by the representatives of the Party hosting the meeting.

CHAPTER FOUR
TEXTILES AND APPAREL

ARTICLE 4.1: BILATERAL EMERGENCY ACTIONS

1. If, as a result of the reduction or elimination of a duty under this Agreement, a textile or apparel good benefiting from preferential tariff treatment under this Agreement is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good, the importing Party may, to the extent and for such time as may be necessary to prevent or remedy such damage and to facilitate adjustment by the domestic industry:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of
 - (i) the most-favored-nation (MFN) applied rate of duty on the good in effect at the time the action is taken; and
 - (ii) the MFN applied rate of duty on the good in effect on the date this Agreement enters into force.

2. In determining serious damage, or actual threat thereof, the importing Party:

- (a) shall examine the effect of increased imports of the good from the exporting Party on the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which is necessarily decisive; and
- (b) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.

3. The importing Party may take an emergency action under this Article only following an investigation. The importing Party shall:

- (a) carry out any investigation under this Article in accordance with procedures it has established; and
- (b) transmit its procedures to the other Party on the date this Agreement enters into force or before it initiates an investigation under this Article.

4. The importing Party shall deliver to the exporting Party, without delay, written notice of its intent to take emergency action and, on the request of the exporting Party, shall enter into consultations with that Party regarding the matter.

5. An importing Party:
- (a) may not maintain an emergency action for a period exceeding two years except that the period may be extended by up to two years;
 - (b) may not take or maintain an emergency action against a good beyond ten years after the date the Party must eliminate its customs duties on that good pursuant to this Agreement;
 - (c) may not take an emergency action more than once against the same good of the other Party; and
 - (d) shall, on termination of the emergency action, apply to the good that was subject to the emergency action the rate of customs duty that would have been in effect but for the action.

6. The Party taking an emergency action under this Article shall provide to the exporting Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the emergency action. Such concessions shall be limited to textile or apparel goods, unless the Parties otherwise agree. If the Parties are unable to agree on compensation within 30 days of the application of an emergency action, the Party against whose good the emergency action is taken may take tariff action having trade effects substantially equivalent to the trade effects of the emergency action taken under this Article. The tariff action may be taken against any goods of the Party taking the emergency action. The Party taking the tariff action shall apply the tariff action only for the minimum period necessary to achieve the substantially equivalent trade effects. The importing Party's obligation to provide trade compensation and the exporting Party's right to take tariff action shall terminate on the date the emergency action terminates.

7. Neither Party may take or maintain, with respect to the same good at the same time, an emergency action under this Article and:

- (a) a safeguard measure under Chapter Ten (Trade Remedies); or
- (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

ARTICLE 4.2: RULES OF ORIGIN AND RELATED MATTERS

Application of Chapter Six

1. Except as provided in this Chapter, including Annexes 4-A and 4-B, Chapter Six (Rules of Origin and Origin Procedures) applies to textile or apparel goods.

2. The rules of origin set forth in this Agreement shall not apply in determining the country of origin of a textile or apparel good for non-preferential purposes.

Consultations

3. On the request of either Party, the Parties shall consult to consider whether the rules of origin applicable to a particular textile or apparel good should be revised to address issues of availability of supply of fibers, yarns, or fabrics in the territories of the Parties.

4. In the consultations referred to in paragraph 3, each Party shall consider all data presented by the other Party that demonstrate substantial production in its territory of a particular fiber, yarn, or fabric. The Parties shall consider that there is substantial production if a Party demonstrates that its domestic producers are capable of supplying commercial quantities of the fiber, yarn, or fabric in a timely manner.

5. The Parties shall endeavor to conclude consultations within 60 days after delivery of a request under paragraph 3. If the Parties agree in the consultations to revise a rule of origin, the revision shall supersede any prior rule of origin for such good when approved by the Parties in accordance with Article 24.2 (Amendments).

Transitional Procedures for Goods Containing Fibers, Yarns, and Fabrics Not Available in Commercial Quantities

6. Annex 4-B sets out provisions applicable to certain goods containing fibers, yarns, or fabrics that are not available in commercial quantities in a timely manner in a Party's territory.

De Minimis

7. A textile or apparel good that is not an originating good because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in Annex 4-A shall nonetheless be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding the preceding sentence, a good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed and finished in the territory of a Party.¹

Treatment of Sets

8. Notwithstanding the specific rules of origin set out in Annex 4-A, textile or apparel goods classifiable under General Rule of Interpretation 3 of the Harmonized System as goods put up in sets for retail sale shall not be regarded as originating goods unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed ten percent of the customs value of the set.

ARTICLE 4.3: CUSTOMS COOPERATION FOR TEXTILE OR APPAREL GOODS

1. The Parties shall cooperate for purposes of:

¹ For purposes of paragraph 7, **wholly formed and finished** means all production processes and finishing operations, beginning with the extrusion of filaments, strips, film, or sheet, and including drawing to fully orient a filament or slitting a film or sheet into strip, or the spinning of all fibers into yarn, or both, and ending with a finished yarn or plied yarn.

- (a) enforcing or assisting in the enforcement of their respective measures affecting trade in textile or apparel goods;
 - (b) verifying and ensuring the accuracy of claims of origin;
 - (c) enforcing, or assisting in the enforcement of, measures implementing international agreements affecting trade in textile or apparel goods; and
 - (d) preventing circumvention of international agreements affecting trade in textile or apparel goods.
2. (a) Except as provided in subparagraphs (b) and (c), Korea shall obtain and update annually, through its competent authority,² the following information concerning each person engaged in the production of textile or apparel goods in its territory:
- (i) the name and address of the person, including the location of all textile or apparel facilities owned or operated by that person in the territory of Korea;
 - (ii) the telephone number, facsimile number, and e-mail address of the person;
 - (iii) in the case of an enterprise, the names and nationalities of the owners, directors, and corporate officers, and their positions within the enterprise;
 - (iv) the number of employees the person employs and their occupations;
 - (v) a general description of the textile or apparel goods the person produces and the person's production capacity;
 - (vi) the number and type of machines the person uses to produce textile or apparel goods;
 - (vii) the approximate number of hours the machines operate per week;
 - (viii) the identity of any supplier to that person of textile or apparel goods, or fabrics, yarns, or fibers used in the production of those goods; and
 - (ix) the name of, and contact information for, each of the person's customers in the United States.

Korea shall provide this information to the United States annually, beginning within one year of the date this Agreement enters into force.

- (b) Korea shall not be required to obtain and provide to the United States the

² For purposes of paragraph 2, Korea's competent authority is the Ministry of Commerce, Industry and Energy or its successor.

information specified in subparagraph (a) with respect to any person that is engaged solely in the production of:

- (i) textile or apparel goods, or fibers, yarns, or fabrics used in the production of those goods, that are not exported to the United States; or
- (ii) with respect to goods classified under HS Chapter 61 or 62 that are exported to the United States, goods not used in the component that determines the tariff classification of the good, other than fabric used as visible lining material that satisfies the requirements of
 - (A) Chapter Rule 1 for Chapter 61 of Annex 4-A, in the case of a good classified under HS Chapter 61; or
 - (B) Chapter Rule 1 for Chapter 62 of Annex 4-A, in the case of a good classified under HS Chapter 62.
- (c) Korea shall not be required to obtain and provide to the United States the information specified in subparagraph (a)(vii) through (ix) with respect to any small- or medium-sized enterprise that does not contract directly for the sale of its goods with an importer in the United States.³
- (d) Korea may obtain the information required under subparagraph (a) from a representative industry association, provided that Korea takes appropriate steps to verify the accuracy of the information.
- (e) Article 7.6 (Confidentiality) shall apply to any information provided in accordance with this paragraph that Korea designates as confidential.

3. On the request of the importing Party, the exporting Party shall conduct a verification for purposes of enabling the importing Party to determine that a claim of origin for a textile or apparel good is accurate. The exporting Party shall conduct such a verification, regardless of whether an importer claims preferential tariff treatment for the good. The exporting Party also may conduct such a verification on its own initiative.

4. On the request of a Party, the other Party shall endeavor to examine transshipped textile or apparel goods.⁴

5. Where the importing Party has a reasonable suspicion that a person of the exporting Party is engaging in unlawful activity relating to trade in textile or apparel goods, the exporting Party shall conduct, on the request of the importing Party, a verification for purposes of enabling the importing Party to determine that the person is complying with

³ With respect to any small- or medium-sized enterprise, Korea may obtain the information required under subparagraph (a)(i) through (vi) from the producer of the end product in which the production of the small- or medium-sized enterprise is used.

⁴ Paragraph 4 does not require the exporting Party to take any action with regard to transshipped textile or apparel goods that are not subject to a claim of origin, and that do not undergo processing or manipulation in its territory, other than to share information about those goods with the importing Party.

applicable customs measures affecting trade in textile or apparel goods, including measures that the exporting Party adopts and maintains pursuant to this Agreement and measures of either Party implementing any other international agreement regarding trade in textile or apparel goods, or to determine that a claim of origin regarding a textile or apparel good exported or produced by that person is accurate. For purposes of this paragraph, **reasonable suspicion** means a suspicion based on relevant factual information of the type set forth in Article 7.5 (Cooperation) or factors that indicate:

- (a) circumvention by an enterprise of applicable customs measures affecting trade in textile or apparel goods, including measures adopted to implement this Agreement; or
- (b) the existence of conduct that would facilitate the violation of measures relating to other international agreements affecting trade in textile or apparel goods or that would otherwise facilitate the nullification or impairment of rights or benefits accruing to a Party under those agreements.

6. The exporting Party, through its competent authorities, shall permit the importing Party, through its competent authorities, to assist in a verification conducted pursuant to paragraph 3 or 5, including by conducting, along with the competent authorities of the exporting Party, visits in the territory of the exporting Party to the premises of an exporter, producer, or any other person that may have evidence that is relevant to the verification. Any such visit should occur without providing prior notification to the exporter, producer, or other person.⁵ The exporting Party shall seek permission to conduct the site visit from the person at the time of the visit. If an exporter, producer, or other person refuses to consent to a visit by the appropriate officials of the importing Party, the importing Party may consider that the verification cannot be completed and the determination described in paragraph 3 or 5 cannot be made and may take appropriate action as described in paragraph 10.

7. Each Party shall provide to the other Party, consistent with its law, production, trade, and transit documents, and other information necessary to conduct a verification under paragraph 3 or 5. Each Party shall consider any documents or information exchanged between the Parties in the course of such a verification to have been designated as confidential within the meaning of Article 7.6 (Confidentiality). Notwithstanding the preceding sentence and Article 7.6, a governmental entity of a Party may share information provided to it under this Article with other governmental entities of that Party for a purpose set forth in paragraph 1.

8. While a verification is being conducted, the importing Party may, consistent with its law, take appropriate action, which may include suspending the application of preferential tariff treatment to:

- (a) the textile or apparel good for which a claim of origin has been made, in the case of a verification under paragraph 3; or

⁵ In carrying out paragraph 6, Korea shall presume, due to the risk that the person would destroy or alter relevant evidence, that the purpose of the verification would not be achieved if its officials provided prior notice to the person.

- (b) any textile or apparel goods exported or produced by the person subject to a verification under paragraph 5, where the suspicion of unlawful activity relates to those goods.⁶

9. The Party conducting a verification under paragraph 3 or 5 shall provide the other Party with a written report on the results of the verification, which shall include all documents and facts supporting any conclusion that the Party reaches. Article 7.6 (Confidentiality) shall apply to any information contained in the report that the Party providing the report designates as confidential.

- 10. (a) If the importing Party is unable to make the determination described in paragraph 3 within 12 months after its request for a verification, or makes a negative determination, it may, consistent with its law, take appropriate action, including denying preferential tariff treatment to the textile or apparel good subject to the verification, and to similar goods exported or produced by the person that exported or produced the good.
- (b) If the importing Party is unable to make one of the determinations described in paragraph 5 within 12 months after its request for a verification, or makes a negative determination, it may, consistent with its law, take appropriate action, including denying preferential tariff treatment to any textile or apparel good exported or produced by the person subject to the verification.

11. Before taking any action under paragraph 10, the importing Party shall notify the exporting Party. The importing Party may continue to take action under paragraph 10 until it receives information sufficient to enable it to make the determination described in paragraph 3 or 5, as the case may be. A Party may, consistent with its law, make public the identity of a person that the Party has determined to be engaged in circumvention as provided under this Article or that has failed to demonstrate that it produces, or is capable of producing, textile or apparel goods.

12. On the request of either Party, the Parties shall consult to resolve any technical or interpretive difficulties that may arise under this Article or to discuss ways to improve the effectiveness of their cooperative efforts. In addition, either Party may request technical or other assistance from the other Party in implementing this Article. The Party receiving a request under this paragraph shall make every effort to respond favorably and promptly to it.

13. Any request for cooperation under this Article shall be made in writing and shall include a brief statement of the matter at issue and the cooperation requested.

ARTICLE 4.4: COMMITTEE ON TEXTILE AND APPAREL TRADE MATTERS

The Parties hereby establish a Committee on Textile and Apparel Trade Matters comprising representatives of each Party. The Committee shall meet on the request of either Party or the Joint Committee to consider any matter arising under this Chapter.

⁶ For greater certainty, nothing in paragraph 8 shall be construed to preclude the release of goods in accordance with Article 7.2 (Release of Goods).

Annex 4-B
FIBERS, YARNS, AND FABRICS NOT AVAILABLE IN COMMERCIAL QUANTITIES

1. Within 30 business days of the date it receives a request from an interested entity, an importing Party shall add a fiber, yarn, or fabric to its list in Appendix 4-B-1, if it determines, based on information supplied by interested entities, that the fiber, yarn, or fabric is not available in commercial quantities in a timely manner in its territory, or if no interested entity objects to the request.
2. If there is insufficient information to make the determination in paragraph 1, the importing Party may extend the period within which it must make that determination by no more than 30 business days, in order to meet with interested entities to substantiate the information.
3. The importing Party shall deny the request if it:
 - (a) determines that the fiber, yarn, or fabric is available in commercial quantities in a timely manner in its territory; or
 - (b) does not make the determination in paragraph 1 within 30 business days of the expiration of the period within which it must make that determination, as specified in paragraph 1 or 2.
4. Within 30 business days of the date it receives a request from an interested entity, an importing Party that has added a fiber, yarn, or fabric to its list in Appendix 4-B-1 pursuant to paragraph 1 may delete the fiber, yarn, or fabric from its list if it determines, based on information supplied by interested entities, that the fiber, yarn, or fabric is available in commercial quantities in a timely manner in its territory. The deletion shall not take effect until six months after the date the importing Party publishes its determination.
5.
 - (a) Subject to subparagraph (b), an importing Party shall accord preferential tariff treatment to a good provided for in HS Chapter 51, 52, 54, 55, 58, or 60 that satisfies the requirements of Rule 1 of Section XI of Annex 4-A.

 - (b) An importing Party shall apply the treatment provided for in subparagraph (a) to goods imported into its territory up to a quantity of 100 million square meter equivalents in each of the first five calendar years in which this Agreement is in force.
7. To determine the quantity of square meter equivalents that is charged against the

annual quantities set out in paragraph 5 or 6, the importing Party shall apply the conversion factors listed in, or utilize a methodology based on, the *Correlation: U.S. Textile and Apparel Category System with the Harmonized Tariff Schedule of the United States of America*, U.S. Department of Commerce, Office of Textiles and Apparel (2007), or successor publication.

8. If an importing Party determines that an exporter, producer, or other person in the exporting Party has engaged in conduct described in Article 4.3.5, the importing Party may deduct from the maximum quantities set out in paragraphs 5 and 6 a quantity of up to three times the quantity of goods involved in such conduct. The importing Party shall provide written notice to the exporting Party of its intent to invoke this paragraph, and shall set out its findings and conclusions on all pertinent issues of law and fact in its notice.

9. On the written request of the exporting Party, the importing Party shall require an importer claiming preferential tariff treatment for a good under this Annex to submit to the importing Party a certificate of eligibility, properly completed and signed by an authorized official of the exporting Party and presented at the time of importation of the good into the importing Party.

10. (a) On the request of a Party, the Parties shall consult on the implementation and operation of this Annex. The consultations shall commence within 30 days of delivery of the request.
- (b) During the fifth calendar year in which this Agreement is in force, the Parties shall consult on the implementation and operation of this Annex, and shall consider whether to extend the period specified in paragraph 13 for the application of this Annex.

11. Promptly after the date this Agreement enters into force, each Party shall publish the procedures it will follow in considering requests under paragraphs 1 and 4.

12. For purposes of this Annex, **interested entity** means a Party, a potential or actual purchaser of a textile or apparel good, or a potential or actual supplier of a textile or apparel good.

13. Unless the Parties otherwise agree, this Annex shall cease to apply beginning on January 1 of the sixth calendar year in which this Agreement is in force.

CHAPTER FIVE
PHARMACEUTICAL PRODUCTS AND MEDICAL DEVICES

ARTICLE 5.1: GENERAL PROVISIONS

The Parties recognize that while there are differences between each Party's health care system, the Parties share a commitment to promoting the development of and facilitating access to high-quality patented and generic pharmaceutical products and medical devices, as a means of continuing to improve the health of their nationals. In pursuing these objectives, the Parties affirm the importance of:

- (a) adequate access to pharmaceutical products and medical devices in providing high quality health care;
- (b) patented and generic pharmaceutical products and medical devices in reducing other more costly medical expenditures;
- (c) sound economic incentives and competitive markets for the efficient development of and access to patented and generic pharmaceutical products and medical devices;
- (d) appropriate government support of research and development in academic and commercial laboratories, intellectual property protections, and other incentives for innovation in the research and development of pharmaceutical products and medical devices;
- (e) promoting innovation and timely and affordable access to safe and effective pharmaceutical products and medical devices through transparent and accountable procedures, without impeding a Party's ability to apply appropriate standards of quality, safety, and efficacy;
- (f) ethical practices by pharmaceutical and medical device manufacturers and suppliers and by health care providers on a global basis in order to achieve open, transparent, accountable, and reasonable health care decision-making; and
- (g) cooperation between the Parties, including each Party's regulatory authorities, to improve the safety and efficacy of pharmaceutical products and medical devices.

ARTICLE 5.2: ACCESS TO INNOVATION

To the extent that health care authorities at a Party's central level of government operate or maintain procedures for listing pharmaceutical products, medical devices, or indications for reimbursement, or setting the amount of reimbursement for pharmaceutical products or medical devices, under health care programs operated by its

central level of government,¹ the Party shall:

- (a) ensure that the procedures, rules, criteria, and guidelines that apply to the listing of pharmaceutical products, medical devices, or indications for reimbursement, or setting the amount of reimbursement for pharmaceutical products or medical devices are fair, reasonable, and non-discriminatory;
- (b) ensure that the Party's determination, if any, of the reimbursement amount for a pharmaceutical product or medical device, once approved by the appropriate regulatory authority as safe and effective, is based on competitive market-derived prices; or if its determination is not based on competitive market-derived prices, then that Party shall:
 - (i) appropriately recognize the value of the patented pharmaceutical product or medical device in the amount of reimbursement it provides;

ARTICLE 9.4: JOINT COOPERATION

1. The Parties shall strengthen their cooperation in the field of standards, technical regulations, and conformity assessment procedures with a view to increasing the mutual understanding of their respective systems and facilitating access to their respective markets. In particular, the Parties shall seek to identify, develop, and promote trade facilitating initiatives regarding standards, technical regulations, and conformity assessment procedures that are appropriate for particular issues or sectors. These initiatives may include cooperation on regulatory issues, such as transparency, the promotion of good regulatory practices, alignment with international standards, and use of accreditation to qualify conformity assessment bodies.
2. On request, a Party shall give favorable consideration to a sector-specific proposal that the requesting Party makes for further cooperation under this Chapter.

ARTICLE 9.5: CONFORMITY ASSESSMENT PROCEDURES

1. The Parties recognize that a broad range of mechanisms exists to facilitate the acceptance of the results of conformity assessment procedures conducted in the other Party's territory. For example:
 - (a) a Party may agree with the other Party to accept the results of conformity assessment procedures that bodies located in the other Party's territory conduct with respect to specific technical regulations;
 - (b) a Party may adopt accreditation procedures for qualifying conformity assessment bodies located in the other Party's territory;
 - (c) a Party may designate conformity assessment bodies located in the other Party's territory;
 - (d) a Party may recognize the results of conformity assessment procedures conducted in the other Party's territory;
 - (e) conformity assessment bodies located in each of the Parties' territories may enter into voluntary arrangements to accept the results of each other's assessment procedures; and
 - (f) the importing Party may rely on a supplier's declaration of conformity.

The Parties shall intensify their exchange of information on these and similar mechanisms with a view to facilitating the acceptance of conformity assessment results.

2. Where a Party does not accept the results of a conformity assessment procedure conducted in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.
3. Each Party shall accredit, approve, license, or otherwise recognize conformity assessment bodies in the territory of the other Party on terms no less favorable than those

it accords to conformity assessment bodies in its territory. Where a Party accredits, approves, licenses, or otherwise recognizes a body assessing conformity with a specific technical regulation or standard in its territory and it refuses to accredit, approve, license, or otherwise recognize a body assessing conformity with that technical regulation or standard in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.

4. A Party that accredits, approves, licenses, or otherwise recognizes conformity assessment bodies shall do so on the basis of criteria published by the Party for determining whether a conformity assessment body is competent to receive accreditation, approval, licensing or other recognition.

5. Each Party shall take steps to implement Phase II of the *APEC Mutual Recognition Arrangement for Conformity Assessment of Telecommunications Equipment* (1998) with respect to the other Party as soon as possible. No later than one year after the date this Agreement enters into force, Korea will publish notice of the changes in its legislation that it proposes to make to implement Phase II.

ARTICLE 9.6: TRANSPARENCY

1. Each Party shall allow persons of the other Party to participate in the development of standards, technical regulations, and conformity assessment procedures.³ Each Party shall permit persons of the other Party to participate in the development of these measures on terms no less favorable than those it accords to its own persons.

2. Each Party shall recommend that non-governmental bodies in its territory observe paragraph 1 in developing standards and voluntary conformity assessment procedures.

3. In order to enhance the opportunity for persons and the other Party to be aware of, and to understand, proposed technical regulations and conformity assessment procedures, and to be able to provide meaningful comments on these regulations and procedures, a Party publishing a notice and filing a notification in accordance with Article 2.9, 3.2, 5.6, or 7.2 of the TBT Agreement shall:

- (a) include an explanation of the objectives the proposed technical regulation or conformity assessment procedure is meant to serve and how it addresses those objectives;
- (b) transmit the proposal electronically to the other Party through, in the case of a Korean proposal, the U.S. inquiry point established in accordance with Article 10 of the TBT Agreement or, in the case of a U.S. proposal, the Korean coordinator established in accordance with Annex 9-A, at the same time as it notifies WTO Members of the proposal in accordance with the TBT Agreement; and

³ For purposes of the first sentence of paragraph 1 and for greater certainty, a Party allows persons of the other Party to participate in the development of standards, technical regulations, and conformity assessment procedures if it maintains a process for participation that is open to the public, including persons of the other Party.

- (c) make available to the public, preferably by electronic means, comments it receives from persons or the other Party on the proposed technical regulation or conformity assessment procedure.

Each Party shall also publish and notify new technical regulations and amendments to existing technical regulations that are in accordance with the technical content of any relevant international standards. Each Party shall also take such reasonable measures as may be available to it to ensure that new technical regulations and amendments to existing technical regulations of local governments on the level directly below that of the central government that are in accordance with the technical content of any relevant international standards are published and notified through the inquiry point referenced in subparagraph (b).

Each Party should allow at least 60 days after it transmits a proposal under subparagraph (b) for persons and the other Party to provide comments in writing on the proposal. A Party shall give favorable consideration to reasonable requests from persons or the other Party for extending the comment period.

4. Where a Party makes a notification under Article 2.10, 3.2, 5.7, or 7.2 of the TBT Agreement, it shall at the same time transmit the notification and text of the proposal electronically to the other Party through the inquiry point referenced in paragraph 3(b). Each Party shall also notify new technical regulations and amendments to existing technical regulations that are in accordance with the technical content of any relevant international standards. Each Party shall also take such reasonable measures as may be available to it to ensure that new technical regulations and amendments to existing technical regulations of local governments on the level directly below that of the central government that are in accordance with the technical content of any relevant international standards are published and notified through the inquiry point referenced in paragraph 3(b).

5. Each Party shall publish, preferably by electronic means, notices of proposed and final technical regulations and conformity assessment procedures required under Articles 2.9, 2.11, 5.6, and 5.8 of the TBT Agreement in a single official journal and shall encourage the government bodies that issue them to disseminate them through additional channels. With respect to notices of proposed and final technical regulations and conformity assessment procedures notified under Articles 3.2 and 7.2 of the TBT Agreement, each Party shall ensure to the extent practicable, that all such notices are accessible through a single Internet site or other information source.

7. On request, each Party shall provide the other Party with additional available information regarding the objective of, and rationale for, a standard, technical regulation, or conformity assessment procedure that the Party has adopted or is proposing to adopt. Such requests may include requests for information regarding the matter the technical regulation or conformity assessment procedure is designed to address, alternative approaches the Party considered, and the merits of the particular approach the Party chose.

ARTICLE 9.7: AUTOMOTIVE STANDARDS AND TECHNICAL REGULATIONS

1. The Parties shall cooperate bilaterally, including in the World Forum for Harmonization of Vehicle Regulations of the United Nations Economic Commission for Europe (WP.29), to harmonize standards for motor vehicle environmental performance and safety.

2. Each Party shall ensure that technical regulations related to motor vehicles are not prepared, adopted, or applied with a view to or with the effect of creating unnecessary obstacles to international trade, to the extent provided in Article 2.2 of the TBT Agreement. For this purpose, technical regulations related to motor vehicles shall not be more trade-restrictive than necessary to fulfill a legitimate objective, taking account of the risks non-fulfillment would create. Such legitimate objectives are, *inter alia*: national security requirements; the prevention of deceptive practices; and protection of human health or safety, animal or plant life or health, or the environment. In assessing such risks, relevant elements of consideration are, *inter alia*: available scientific and technical information, related processing technology, or intended end-uses of products.

- (k) as it considers appropriate, reporting to the Joint Committee on the implementation of this Chapter.

3. Where the Parties have had recourse to consultations under paragraph 2(g), the consultations shall, if the Parties agree, constitute consultations under Article 22.7 (Consultations).

4. The Committee shall meet at least once a year unless the Parties otherwise agree.

5. The Committee may, as it considers appropriate, establish and determine the scope and mandate of working groups, including *ad hoc* working groups, comprising representatives of each Party. Subject to decisions of the Committee and as the Parties may agree, each working group, including an *ad hoc* working group, may:

- (a) as it considers necessary and appropriate, include or consult with non-governmental experts and stakeholders; and
- (b) determine its work program, taking into account relevant international activities.

6. Within 30 days after the date this Agreement enters into force, each Party shall notify the Committee of the criteria it uses to accredit, approve, license, or otherwise recognize conformity assessment bodies with respect to cosmetics, household electrical appliances, motor vehicles, and noise and emissions, and with respect to any other areas identified by a Party. Thereafter, each Party shall notify the Committee of the criteria it uses for this purpose with respect to other areas that the other Party requests. The Committee shall review this information in order to improve mutual understanding of

each Party's conformity assessment system and to discuss possible reforms to facilitate trade between the Parties.

The Honorable Susan C. Schwab
United States Trade Representative
Washington, D.C.

Dear Ambassador Schwab:

I have the honor to confirm the following understanding reached between the delegations of the Republic of Korea and the United States of America during the course of negotiations regarding Chapter Nine (Technical Barriers to Trade) of the Free Trade Agreement between our two Governments signed this day:

K-ULEV

Korea shall provide that:

- (1) a gasoline-powered motor vehicle produced by a manufacturer that sells no more than 4500 of these vehicles in the territory of Korea complies with the requirements contained in Attachment 20 of the Ministerial Regulation adopted pursuant to the Air Quality Conservation Act (K-ULEV) if the vehicle meets the Low Emission Vehicle Standard (LEV);
- (2) a gasoline-powered motor vehicle produced by a manufacturer that sells between 4501 and 10,000 of these vehicles in the territory of Korea complies with the requirements contained in K-ULEV if the fleet average non-methane organic gas (NMOG) value of the manufacturer's fleet sold in the territory of Korea meets the LEV/Ultra Low Emission Vehicle Standard (LEV/ULEV); and
- (3) a gasoline-powered motor vehicle produced by a manufacturer that sells over 10,000 of these vehicles in the territory of Korea complies with K-ULEV if the fleet average NMOG value of the manufacturer's fleet sold in the territory of Korea meets the Ultra Low Emission Vehicle Standard (ULEV).

Korea shall use the methodology applied by the State of California under California LEV II Regulations, Cal. Code Regs. tit. 13, § 1961, and any amendments thereto, to calculate the number of motor vehicles sold by a manufacturer in the territory of Korea and the fleet average NMOG value for these purposes.

In determining whether a gasoline-powered motor vehicle produced by a manufacturer complies with K-ULEV, Korea shall apply the following LEV, LEV/ULEV, and ULEV standards:

Model Year	Fleet Average NMOG Value (gram per mile of NMOG) 50,000 miles/five years		
	2009	2010	2011 and thereafter
LEV	0.075	0.075	NMOG value for motor vehicle type of relevant model year, specified in Cal. Code Regs. tit. 13, § 1961(b)(1)(C)
LEV/ULEV	0.060	0.060	NMOG value for motor vehicle type of relevant model year, specified in Cal. Code Regs. tit. 13, § 1961(b)(1)(D)
ULEV	0.040	≥0.038	NMOG value for motor vehicle type of relevant model year will not be more stringent than that specified in Cal. Code Regs. tit. 13, § 1961(b)(1)(A)

OBD-II:

Before December 31, 2008, Korea may not apply the requirements contained in the Ministerial Notice adopted pursuant to the Air Quality Conservation Act, and any amendments thereto, to motor vehicles produced by an automotive manufacturer that sells 10,000 or fewer vehicles per year in the territory of Korea.

Self-certification:

- (1) Korea may not apply new or amended regulations relating to self-certification for Korean Motor Vehicle Safety Standards (KMOVSS) to imported motor vehicles for at least two years after the date the regulations are issued; and
- (2) Korea shall provide that:

- (a) the regulations only apply to an imported motor vehicle model if it is subject to a recall that Korea has mandated;
- (b) a motor vehicle produced by a manufacturer that sold no more than 6500 vehicles in the territory of Korea during the previous calendar year complies with the regulations if it is in compliance with either the 42 items contained in KMVSS and identified in the attached Annex or the corresponding U.S. Federal Motor Vehicle Safety Standards; and
- (c) a motor vehicle produced by a manufacturer that sold more than 6500 vehicles in the territory of Korea during the previous calendar year complies with the regulations if it is in compliance with the 42 KMVSS items identified in the Annex.

I have the honor to propose that this letter and your letter in reply confirming that your Government shares this understanding shall constitute an integral part of the Free Trade Agreement.

Sincerely,

[SGN/]

Hyun Chong Kim

**CHAPTER TEN
TRADE REMEDIES**

Section A: Safeguard Measures

ARTICLE 10.1: APPLICATION OF A SAFEGUARD MEASURE

If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party may:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement;
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) the most-favored-nation (MFN) applied rate of duty on the good in effect at the time the action is taken; and
 - (ii) the MFN applied rate of duty on the good in effect on the day immediately preceding the date this Agreement enters into force; or
- (c) in the case of a customs duty applied to a good on a seasonal basis, increase the rate of duty to a level that, for each season, does not exceed the lesser of:
 - (i) the MFN applied rate of duty on the good in effect for the corresponding season immediately preceding the date of application of the safeguard measure; and
 - (ii) the MFN applied rate of duty on the good in effect for the corresponding season immediately preceding the date this Agreement enters into force.

ARTICLE 10.2: CONDITIONS AND LIMITATIONS

1. A Party shall notify the other Party in writing on initiation of an investigation described in paragraph 2 and shall consult with the other Party as far in advance of applying a safeguard measure as practicable, with a view to reviewing the information arising from the investigation and exchanging views on the measure.

2. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Article 4.2(a) of the Safeguards Agreement, and to this end, Article 4.2(a) of the Safeguards Agreement is incorporated into and made a part of this Agreement, *mutatis mutandis*.

4. Each Party shall ensure that its competent authorities complete any such investigation within one year of its date of initiation.

5. Neither Party may apply a safeguard measure:

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
- (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or
- (c) beyond the expiration of the transition period, except with the consent of the other Party.

6. Neither Party may apply a safeguard measure more than once against the same good.

7. Where the expected duration of the safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

8. When a Party terminates a safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex 2-B (Tariff Elimination), would have been in effect but for the measure.

ARTICLE 10.3: PROVISIONAL MEASURES

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

2. Before a Party's competent authorities may make a preliminary determination, the Party shall publish a public notice in its official journal setting forth how interested parties, including importers and exporters, may obtain a non-confidential copy of the application requesting a provisional safeguard measure, and shall provide interested

parties at least 20 days after the date it publishes the notice to submit evidence and views regarding the application of a provisional measure. A Party may not apply a provisional measure until at least 45 days after the date its competent authorities initiate an investigation.

3. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 10.2.2 and 10.2.3.

4. The Party shall promptly refund any tariff increases if the investigation described in Article 10.2.2 does not result in a finding that the requirements of Article 10.1 are met. The duration of any provisional measure shall be counted as part of the period described in Article 10.2.5(b).

ARTICLE 10.4: COMPENSATION

1. No later than 30 days after it applies a safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the safeguard measure.

3. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the safeguard measure terminates.

ARTICLE 10.5: GLOBAL SAFEGUARD ACTIONS

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994 and the Safeguards Agreement, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if such imports are not a substantial cause of serious injury or threat thereof.

2. Neither Party may apply, with respect to the same good, at the same time:

(a) a safeguard measure; and

(b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

ARTICLE 10.6: DEFINITIONS

For purposes of Section A:

domestic industry means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating in the territory of a Party, or those whose collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of that good;

safeguard measure means a measure described in Article 10.1;

serious injury means a significant overall impairment in the position of a domestic industry;

substantial cause means a cause that is important and not less than any other cause;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

transition period means the ten-year period following the date this Agreement enters into force, except that for any good for which the Schedule to Annex 2-B (Tariff Elimination) of the Party applying the safeguard measure provides for the Party to eliminate its tariffs on the good over a period of more than ten years, **transition period** means the tariff elimination period for the good set out in that Schedule.

Section B: Antidumping and Countervailing Duties

ARTICLE 10.7: ANTIDUMPING AND COUNTERVAILING DUTIES

1. Each Party retains its rights and obligations under the WTO Agreement with regard to the application of antidumping and countervailing duties.

2. Except for paragraphs 3 and 4, no provision of this Agreement shall be construed to impose any rights or obligations on a Party with respect to antidumping or countervailing duty measures. Neither Party may have recourse to dispute settlement under this Agreement for any matter arising under this Article.¹

Notification and Consultations

3. (a) Upon receipt by a Party's competent authorities of a properly documented antidumping application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting or other similar opportunities regarding the application, consistent with the Party's law.
- (b) Upon receipt by a Party's competent authorities of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford

¹ Although recourse to dispute settlement is not available with respect to paragraphs 3 and 4, the Parties reaffirm that those paragraphs create binding rights and obligations.

the other Party a meeting to consult with its competent authorities regarding the application.

Undertakings

4. (a) After a Party's competent authorities initiate an antidumping or countervailing duty investigation, the Party shall transmit to the other Party's embassy or competent authorities written information regarding the Party's procedures for requesting its authorities to consider an undertaking on price or, as appropriate, on quantity, including the time frames for offering and concluding any such undertaking.
- (b) In an antidumping investigation, where a Party's authorities have made a preliminary affirmative determination of dumping and injury caused by such dumping, the Party shall afford due consideration, and adequate opportunity for consultations, to exporters of the other Party regarding proposed price undertakings which, if accepted, may result in suspension of the investigation without imposition of antidumping duties, through the means provided for in the Party's laws and procedures.
- (c) In a countervailing duty investigation, where a Party's authorities have made a preliminary affirmative determination of subsidization and injury caused by such subsidization, the Party shall afford due consideration, and adequate opportunity for consultations, to the other Party and exporters of the other Party, regarding proposed undertakings on price or, as appropriate, on quantity, which, if accepted, may result in suspension of the investigation without imposition of countervailing duties, through the means provided for in the Party's laws and procedures.

Section C: Committee on Trade Remedies

ARTICLE 10.8: COMMITTEE ON TRADE REMEDIES

1. The Parties hereby establish a Committee on Trade Remedies, comprising representatives at an appropriate level from relevant agencies of each Party who have responsibility for trade remedies matters, including antidumping, subsidies and countervailing measures, and safeguards issues.
2. The functions of the Committee shall be to:
 - (a) enhance each Party's knowledge and understanding of the other Party's trade remedy laws, policies, and practices;
 - (b) oversee implementation of this Chapter, including compliance with paragraphs 3 and 4 of Article 10.7;

 - (e) establish and oversee, for officials of both Parties, development of educational programs related to the administration of trade remedy laws; and
 - (f) provide a forum for the Parties to discuss other relevant topics of mutual interest including:
 - (i) international issues related to trade remedies, including issues relating to the WTO Doha Round Rules negotiations;
 - (ii) practices by the Parties' competent authorities in antidumping and countervailing duty investigations, such as application of "facts available" and verification procedures; and
 - (iii) practices of a Party that may constitute industrial subsidies.
3. The Committee shall meet at least once a year and may meet more frequently as the Parties may agree.

**CHAPTER ELEVEN
INVESTMENT**

Section A: Investment

ARTICLE 11.1: SCOPE AND COVERAGE

1. This Chapter applies to measures adopted or maintained by a Party relating to:
 - (a) investors of the other Party;
 - (b) covered investments; and
 - (c) with respect to Articles 11.8 and 11.10, all investments in the territory of the Party.
2. For greater certainty, this Chapter does not bind either Party in relation to any act or fact that took place or any situation that ceased to exist before the date of entry into force of this Agreement.
3. For purposes of this Chapter, **measures adopted or maintained by a Party** means measures adopted or maintained by:
 - (a) central, regional, or local governments and authorities; and
 - (b) non-governmental bodies in the exercise of powers delegated by central, regional, or local governments or authorities.

ARTICLE 11.2: RELATION TO OTHER CHAPTERS

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.
2. A requirement by a Party that a service supplier of the other Party post a bond or other form of financial security as a condition of the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter applies to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that such bond or financial security is a covered investment.
3. This Chapter does not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter Thirteen (Financial Services).

ARTICLE 11.3: NATIONAL TREATMENT

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to its own investors with respect to the

establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

3. The treatment to be accorded by a Party under paragraphs 1 and 2 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to investors, and to investments of investors, of the Party of which it forms a part.

ARTICLE 11.4: MOST-FAVORED-NATION TREATMENT

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

ARTICLE 11.5: MINIMUM STANDARD OF TREATMENT¹

1. Each Party shall accord to covered investments treatment in accordance with customary international law, including fair and equitable treatment and full protection and security.

2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights. The obligation in paragraph 1 to provide:

- (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and
- (b) “full protection and security” requires each Party to provide the level of police protection required under customary international law.

¹ Article 11.5 shall be interpreted in accordance with Annex 11-A.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

4. Notwithstanding Article 11.12.5(b), each Party shall accord to investors of the other Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to war or other armed conflict, or revolt, insurrection, riot, or other civil strife.

5. Notwithstanding paragraph 4, if an investor of a Party, in the situations referred to in paragraph 4, suffers a loss in the territory of the other Party resulting from:

- (a) requisitioning of its covered investment or part thereof by the latter's forces or authorities; or
- (b) destruction of its covered investment or part thereof by the latter's forces or authorities, which was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss. Any compensation shall be prompt, adequate, and effective in accordance with paragraphs 2 through 4 of Article 11.6, *mutatis mutandis*.

6. Paragraph 4 does not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 11.3 but for Article 11.12.5(b).

ARTICLE 11.6: EXPROPRIATION AND COMPENSATION²

1. Neither Party may expropriate or nationalize a covered investment either directly or indirectly through measures equivalent to expropriation or nationalization (expropriation), except:

- (a) for a public purpose;
- (b) in a non-discriminatory manner;
- (c) on payment of prompt, adequate, and effective compensation; and
- (d) in accordance with due process of law and Article 11.5.1 through 11.5.3.

2. The compensation referred to in paragraph 1(c) shall:

- (a) be paid without delay;
- (b) be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place (the date of expropriation);
- (c) not reflect any change in value occurring because the intended expropriation had become known earlier; and

² Article 11.6 shall be interpreted in accordance with Annexes 11-A and 11-B.

(d) be fully realizable and freely transferable.

3. If the fair market value is denominated in a freely usable currency, the compensation referred to in paragraph 1(c) shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.

4. If the fair market value is denominated in a currency that is not freely usable, the compensation referred to in paragraph 1(c) – converted into the currency of payment at the market rate of exchange prevailing on the date of payment – shall be no less than:

- (a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date, plus
- (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.

5. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance, revocation, limitation, or creation is consistent with Chapter Eighteen (Intellectual Property Rights).

ARTICLE 11.7: TRANSFERS³

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers include:

- (a) contributions to capital, including the initial contribution;
- (b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;
- (c) interest, royalty payments, management fees, and technical assistance and other fees;
- (d) payments made under a contract, including a loan agreement;
- (e) payments made pursuant to Article 11.5.4 and 11.5.5 and Article 11.6; and
- (f) payments arising out of a dispute.

2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Each Party shall permit returns in kind relating to a covered investment to be made as authorized or specified in a written agreement between the Party and a covered investment or an investor of the other Party.

³ For greater certainty, Annex 11-G applies to this Article.

4. Notwithstanding paragraphs 1 through 3, a Party may prevent a transfer through the equitable, non-discriminatory, and good faith application of its laws relating to:

- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
- (c) criminal or penal offenses;
- (d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or
- (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

ARTICLE 11.8: PERFORMANCE REQUIREMENTS

1. Neither Party may, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, impose or enforce any requirement or enforce any commitment or undertaking:⁴

- (a) to export a given level or percentage of goods or services;
- (b) to achieve a given level or percentage of domestic content;
- (c) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
- (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
- (e) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;
- (f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory; or
- (g) to supply exclusively from the territory of the Party the goods that such investment produces or the services that it supplies to a specific regional market or to the world market.

2. Neither Party may condition the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct,

⁴ For greater certainty, a condition for the receipt or continued receipt of an advantage referred to in paragraph 2 does not constitute a “commitment or undertaking” for purposes of paragraph 1.

operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, on compliance with any requirement:

- (a) to achieve a given level or percentage of domestic content;
 - (b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
 - (c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment; or
 - (d) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings.
3. (a) Nothing in paragraph 2 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment in its territory of an investor of a Party or of a non-Party, on compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.⁵
- (b) Paragraph 1(f) does not apply:
- (i) when a Party authorizes use of an intellectual property right in accordance with Article 31 of the TRIPS Agreement, or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the TRIPS Agreement; or
 - (ii) when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal, or competition authority to remedy a practice determined after judicial or administrative process to be anticompetitive under the Party's competition laws.⁶
- (c) Provided that such measures are not applied in an arbitrary or unjustifiable manner, and provided that such measures do not constitute a disguised restriction on international trade or investment, paragraphs 1(b), (c), and (f), and 2(a) and (b), shall not be construed to prevent a Party from adopting or maintaining measures, including environmental measures:

⁵ For greater certainty, nothing in paragraph 1 shall be construed to prevent a Party, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, from imposing or enforcing a requirement or enforcing a commitment or undertaking to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory, provided that such activity is consistent with paragraph 1(f).

⁶ The Parties recognize that a patent does not necessarily confer market power.

- (i) necessary to secure compliance with laws and regulations that are not inconsistent with this Agreement;
 - (ii) necessary to protect human, animal, or plant life or health; or
 - (iii) related to the conservation of living or non-living exhaustible natural resources.
- (d) Paragraphs 1(a), (b), and (c), and 2(a) and (b), do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs.
 - (e) Paragraphs 1(b), (c), (f), and (g), and 2(a) and (b), do not apply to government procurement.
 - (f) Paragraphs 2(a) and (b) do not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

4. For greater certainty, paragraphs 1 and 2 do not apply to any commitment, undertaking, or requirement other than those set out in those paragraphs.

5. This Article does not preclude enforcement of any commitment, undertaking, or requirement between private parties, where a Party did not impose or require the commitment, undertaking, or requirement. For purposes of this Article, private parties include designated monopolies or state enterprises, where such entities are not exercising delegated governmental authority.

ARTICLE 11.9: SENIOR MANAGEMENT AND BOARDS OF DIRECTORS

1. Neither Party may require that an enterprise of that Party that is a covered investment appoint to senior management positions natural persons of any particular nationality.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

ARTICLE 11.10: INVESTMENT AND ENVIRONMENT

Nothing in this Chapter shall be construed to prevent a Party from adopting, maintaining, or enforcing any measure otherwise consistent with this Chapter that it considers appropriate to ensure that investment activity in its territory is undertaken in a manner sensitive to environmental concerns.

ARTICLE 11.11: DENIAL OF BENEFITS

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if persons of a non-Party own or control the enterprise and the denying Party:

- (a) does not maintain normal economic relations with the non-Party; or
- (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if the enterprise has no substantial business activities in the territory of the other Party and persons of a non-Party, or of the denying Party, own or control the enterprise. If, before denying the benefits of this Chapter, the denying Party knows that the enterprise has no substantial business activities in the territory of the other Party and that persons of a non-Party, or of the denying Party, own or control the enterprise, the denying Party shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party at the other Party's request.

ARTICLE 11.12: NON-CONFORMING MEASURES

1. Articles 11.3, 11.4, 11.8, and 11.9 do not apply to:

- (a) any existing non-conforming measure that is maintained by a Party at
 - (i) the central level of government, as set out by that Party in its Schedule to Annex I,
 - (ii) a regional level of government, as set out by that Party in its Schedule to Annex I,⁷ or
 - (iii) a local level of government;⁸
- (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
- (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 11.3, 11.4, 11.8, or 11.9.

2. Articles 11.3, 11.4, 11.8, and 11.9 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex II.

⁷ For greater certainty, Annex 12-C (Consultations Regarding Non-Conforming Measures Maintained by a Regional Level of Government) is incorporated into and made part of this Chapter.

⁸ For Korea, **local level of government** means a local government as defined in the *Local Autonomy Act*.

3. Neither Party may, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II, require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

4. Articles 11.3 and 11.4 do not apply to any measure that is an exception to, or derogation from, the obligations under Article 18.1.6 (General Provisions) as specifically provided in that Article.

5. Articles 11.3, 11.4, and 11.9 do not apply to:

- (a) government procurement; or
- (b) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.

ARTICLE 11.13: SPECIAL FORMALITIES AND INFORMATION REQUIREMENTS

1. Nothing in Article 11.3 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with covered investments, such as a requirement that covered investments be legally constituted under its laws or regulations, provided that such formalities do not materially impair the protections afforded by the Party to investors of the other Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 11.3 and 11.4, a Party may require an investor of the other Party or its covered investment to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

ARTICLE 11.14: SUBROGATION

1. If the Korea Export Insurance Corporation or the Overseas Private Investment Corporation makes a payment to an investor of the Party in which the respective Corporation is established under a guarantee or a contract of insurance it has entered into in respect of an investment, the Corporation shall be considered the subrogee of the investor and shall be entitled to the same rights that the investor would have possessed under this Chapter but for the subrogation, and the investor shall be precluded from pursuing such rights to the extent of the subrogation.

2. For greater certainty, nothing in this Article shall be construed to be incompatible with the rights and obligations of any Party under the *Investment Incentive Agreement Between the Government of the United States of America and the Government of the Republic of Korea* (July 30, 1998).

Section B: Investor-State Dispute Settlement

2. At least 90 days before submitting any claim to arbitration under this Section, a claimant shall deliver to the respondent a written notice of its intention to submit the claim to arbitration (notice of intent). The notice shall specify:

5. The arbitration rules applicable under paragraph 3, and in effect on the date the claim or claims were submitted to arbitration under this Section, shall govern the arbitration except to the extent modified by this Agreement.

6. The claimant shall provide with the notice of arbitration:

- (b) Article II of the New York Convention for an "agreement in writing."

ARTICLE 11.18: CONDITIONS AND LIMITATIONS ON CONSENT OF EACH PARTY

proceeding with respect to any measure alleged to constitute a breach referred to in Article 11.16.

3. Notwithstanding paragraph 2(b), the claimant (for claims brought under Article 11.16.1(a)) and the claimant or the enterprise (for claims brought under Article 11.16.1(b)) may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant's or the enterprise's rights and interests during the pendency of the arbitration.

ARTICLE 11.19: SELECTION OF ARBITRATORS

1. Unless the disputing parties otherwise agree, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.

2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.

3. If a tribunal has not been constituted within 75 days of the date a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed. The Secretary-General shall not appoint a national of either Party as the presiding arbitrator unless the disputing parties otherwise agree.

4. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

- (a) the respondent agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;
- (b) a claimant referred to in Article 11.16.1(a) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and
- (c) a claimant referred to in Article 11.16.1(b) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant and the enterprise agree in writing to the appointment of each individual member of the tribunal.

ARTICLE 11.20: CONDUCT OF THE ARBITRATION

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 11.16.3. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral

rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.

2. At the request of a disputing party, and unless the disputing parties otherwise agree, the tribunal may determine the place of meetings, including consultations and hearings, taking into consideration appropriate factors, including the convenience of the parties and the arbitrators, the location of the subject matter, and the proximity of evidence. The preceding sentence is without prejudice to any appropriate factors a tribunal may consider under paragraph 1.

3. Unless the disputing parties otherwise agree, English and Korean shall be the official languages to be used in the entire arbitration proceedings, including all hearings, submissions, decisions, and awards.

4. The non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement. On the request of a disputing party, the non-disputing Party should resubmit its oral submission in writing.

5. After consulting the disputing parties, the tribunal may allow a party or entity that is not a disputing party to file a written *amicus curiae* submission with the tribunal regarding a matter within the scope of the dispute. In determining whether to allow such a filing, the tribunal shall consider, among other things, the extent to which:

- (a) the *amicus curiae* submission would assist the tribunal in the determination of a factual or legal issue related to the proceeding by bringing a perspective, particular knowledge, or insight that is different from that of the disputing parties;
- (b) the *amicus curiae* submission would address a matter within the scope of the dispute; and
- (c) the *amicus curiae* has a significant interest in the proceeding.

The tribunal shall ensure that the *amicus curiae* submission does not disrupt the proceeding or unduly burden or unfairly prejudice either disputing party, and that the disputing parties are given an opportunity to present their observations on the *amicus curiae* submission.

6. Without prejudice to a tribunal's authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 11.26.

- (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment.
- (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the

objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.

- (c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.
- (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 7.

7. In the event that the respondent so requests within 45 days of the date the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 6 and any objection that the dispute is not within the tribunal's competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

8. When it decides a respondent's objection under paragraph 6 or 7, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

9. A respondent may not assert as a defense, counterclaim, or right of set-off, or for any other reason, that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract, except with respect to any subrogation as provided for in Article 11.14.

10. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. A tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 11.16. For purposes of this paragraph, an order includes a recommendation.

11. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and to the non-disputing Party. Within 60 days after the date the tribunal transmits its proposed decision or award, the disputing parties may submit written

comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award not later than 45 days after the date the 60-day comment period expires.

- (b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 12 or Annex 11-D.

12. If a separate, multilateral agreement enters into force between the Parties that establishes an appellate body for purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties shall strive to reach an agreement that would have such appellate body review awards rendered under Article 11.26 in arbitrations commenced after the multilateral agreement enters into force between the Parties.

ARTICLE 11.21: TRANSPARENCY OF ARBITRAL PROCEEDINGS

1. Subject to paragraphs 2, 3, and 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Party and make them available to the public:

- (a) the notice of intent;
- (b) the notice of arbitration;
- (c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 11.20.4 and 11.20.5 and Article 11.25;
- (d) minutes or transcripts of hearings of the tribunal, where available; and
- (e) orders, awards, and decisions of the tribunal.

2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.

3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 23.2 (Essential Security) or Article 23.4 (Disclosure of Information).

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

- (a) Subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to the non-disputing Party or to the public any protected

information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);

- (b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal;
- (c) A disputing party shall, at the time it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version shall be provided to the non-disputing Party and made public in accordance with paragraph 1;
- (d) The tribunal shall decide any objection by a disputing party regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may (i) withdraw all or part of its submission containing such information, or (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal's determination and subparagraph (c). In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under (i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under (ii) of the disputing party that first submitted the information; and
- (e) At the request of a disputing Party, the Joint Committee shall consider issuing a decision in writing regarding a determination by the tribunal that information claimed to be protected was not properly designated. If the Joint Committee issues a decision within 60 days of such a request, it shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Joint Committee does not issue a decision within 60 days, the tribunal's determination shall remain in effect only if the non-disputing Party submits a written statement to the Joint Committee within that period that it agrees with the tribunal's determination.

5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws.

ARTICLE 11.22: GOVERNING LAW

1. Subject to paragraph 3, when a claim is submitted under Article 11.16.1(a)(i)(A) or Article 11.16.1(b)(i)(A), the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.

2. Subject to paragraph 3 and the other terms of this Section, when a claim is submitted under Article 11.16.1(a)(i)(B) or (C), or Article 11.16.1(b)(i)(B) or (C), the tribunal shall apply:

- (a) the rules of law specified in the pertinent investment authorization or investment agreement, or as the disputing parties may otherwise agree; or
- (b) if the rules of law have not been specified or otherwise agreed,
 - (i) the law of the respondent, including its rules on the conflict of laws;⁹ and
 - (ii) such rules of international law as may be applicable.

3 A decision of the Joint Committee declaring its interpretation of a provision of this Agreement under Article 22.2.3(d) (Joint Committee) shall be binding on a tribunal, and any decision or award issued by a tribunal must be consistent with that decision.

ARTICLE 11.23: INTERPRETATION OF ANNEXES

1. Where a respondent asserts as a defense that the measure alleged to be a breach is within the scope of an entry set out in Annex I or Annex II, the tribunal shall, on request of the respondent, request the interpretation of the Joint Committee on the issue. The Joint Committee shall submit in writing any decision declaring its interpretation under Article 22.2.3(d) (Joint Committee) to the tribunal within 60 days of delivery of the request.

2. A decision issued by the Joint Committee under paragraph 1 shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Joint Committee fails to issue such a decision within 60 days, the tribunal shall decide the issue.

ARTICLE 11.24: EXPERT REPORTS

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

ARTICLE 11.25: CONSOLIDATION

1. Where two or more claims have been submitted separately to arbitration under Article 11.16.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

⁹ For purposes of clause (i), the **law of the respondent** means the law that a domestic court or tribunal of proper jurisdiction would apply in the same case.

- (a) the names and addresses of all the disputing parties sought to be covered by the order;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

3. Unless the Secretary-General finds within 30 days after receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order otherwise agree, a tribunal established under this Article shall comprise three arbitrators:

- (a) one arbitrator appointed by agreement of the claimants;
- (b) one arbitrator appointed by the respondent; and
- (c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of either Party.

5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on the request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of the disputing Party, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of the non-disputing Party.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 11.16.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

- (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
- (b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or
- (c) instruct a tribunal previously established under Article 11.19 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that:
 - (i) that tribunal, at the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its

original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a) and 5; and

- (ii) that tribunal shall decide whether any prior hearing shall be repeated.

7. Where a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration under Article 11.16.1 and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order made under paragraph 6, and shall specify in the request:

- (a) the name and address of the claimant;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the Secretary-General.

8. A tribunal established under this Article shall conduct its proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 11.19 shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On application of a disputing party, a tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 11.19 be stayed, unless the latter tribunal has already adjourned its proceedings.

ARTICLE 11.26: AWARDS

1. Where a tribunal makes a final award against a respondent, the tribunal may award, separately or in combination, only:

- (a) monetary damages and any applicable interest; and
- (b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and any applicable interest in lieu of restitution.

2. A tribunal may also award costs and attorney's fees in accordance with this Section and the applicable arbitration rules.

3. Subject to paragraph 1, where a claim is submitted to arbitration under Article 11.16.1(b):

- (a) an award of restitution of property shall provide that restitution be made to the enterprise;

- (b) an award of monetary damages and any applicable interest shall provide that the sum be paid to the enterprise; and
 - (c) the award shall provide that it is made without prejudice to any right that any person may have in the relief under applicable domestic law.
- 4. A tribunal may not award punitive damages.
- 5. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.
- 6. Subject to paragraph 7 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.
- 7. A disputing party may not seek enforcement of a final award until:
 - (a) in the case of a final award made under the ICSID Convention,
 - (i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or
 - (ii) revision or annulment proceedings have been completed; and
 - (b) in the case of a final award under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected pursuant to Article 11.16.3(d),
 - (i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award; or
 - (ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.
- 8. Each Party shall provide for the enforcement of an award in its territory.
- 9. If the respondent fails to abide by or comply with a final award, on delivery of a request by the non-disputing Party, a panel shall be established under Article 22.9 (Establishment of Panel). The requesting Party may seek in such proceedings:
 - (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and
 - (b) in accordance with Article 22.11 (Panel Report), a recommendation that the respondent abide by or comply with the final award.
- 10. A disputing party may seek enforcement of an arbitration award under the ICSID Convention or the New York Convention regardless of whether proceedings have been taken under paragraph 9.

11. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for purposes of Article I of the New York Convention.

ARTICLE 11.27: SERVICE OF DOCUMENTS

Delivery of notice and other documents on a Party shall be made to the place named for that Party in Annex 11-C.

Section C: Definitions

ARTICLE 11.28: DEFINITIONS

For purposes of this Chapter:

Centre means the International Centre for Settlement of Investment Disputes (ICSID) established by the ICSID Convention;

claimant means an investor of a Party that is a party to an investment dispute with the other Party;

disputing parties means the claimant and the respondent;

disputing party means either the claimant or the respondent;

enterprise means an enterprise as defined in Article 1.4 (Definitions), and a branch of an enterprise;

enterprise of a Party means an enterprise constituted or organized under the law of a Party, and a branch located in the territory of a Party and carrying out business activities there;

ICSID Additional Facility Rules means the *Rules Governing the Additional Facility for the Administration of Proceedings by the Secretariat of the International Centre for Settlement of Investment Disputes*;

ICSID Convention means the *Convention on the Settlement of Investment Disputes between States and Nationals of Other States*, done at Washington, March 18, 1965;

investment means every asset that an investor owns or controls, directly or indirectly, that has the characteristics of an investment, including such characteristics as the commitment of capital or other resources, the expectation of gain or profit, or the assumption of risk. Forms that an investment may take include:

- (a) an enterprise;
- (b) shares, stock, and other forms of equity participation in an enterprise;
- (c) bonds, debentures, other debt instruments, and loans;¹⁰

¹⁰ Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the

- (d) futures, options, and other derivatives;
- (e) turnkey, construction, management, production, concession, revenue-sharing, and other similar contracts;
- (f) intellectual property rights;
- (g) licenses, authorizations, permits, and similar rights conferred pursuant to domestic law;^{11 12} and
- (h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges.¹³

For purposes of this Agreement, a claim to payment that arises solely from the commercial sale of goods and services is not an investment, unless it is a loan that has the characteristics of an investment.

investment agreement means a written agreement¹⁴ between a national authority¹⁵ of a Party and a covered investment or an investor of the other Party, on which the covered investment or the investor relies in establishing or acquiring a covered investment other than the written agreement itself, that grants rights to the covered investment or investor:

- (a) with respect to natural resources that a national authority controls, such as for their exploration, extraction, refining, transportation, distribution, or sale;
- (b) to supply services to the public on behalf of the Party, such as power generation or distribution, water treatment or distribution, or

characteristics of an investment, while other forms of debt are less likely to have such characteristics.

¹¹ Whether a particular type of license, authorization, permit, or similar instrument (including a concession, to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the law of the Party. Among the licenses, authorizations, permits, and similar instruments that do not have the characteristics of an investment are those that do not create any rights protected under domestic law. For greater certainty, the foregoing is without prejudice to whether any asset associated with the license, authorization, permit, or similar instrument has the characteristics of an investment.

¹² The term “investment” does not include an order or judgment entered in a judicial or administrative action.

¹³ For greater certainty, market share, market access, expected gains, and opportunities for profit-making are not, by themselves, investments.

¹⁴ “Written agreement” refers to an agreement in writing, executed by both parties, whether in a single instrument or in multiple instruments, that creates an exchange of rights and obligations, binding on both parties under the law applicable under Article 11.22.2. For greater certainty, (a) a unilateral act of an administrative or judicial authority, such as a permit, license, or authorization issued by a Party solely in its regulatory capacity, or a decree, order, or judgment, standing alone; and (b) an administrative or judicial consent decree or order, shall not be considered a written agreement.

¹⁵ For purposes of this definition, **national authority** means an authority at the central level of government.

telecommunications; or

- (c) to undertake infrastructure projects, such as the construction of roads, bridges, canals, dams, or pipelines, that are not for the exclusive or predominant use and benefit of the government;

investment authorization means an authorization that the foreign investment authority of a Party grants to a covered investment or an investor of the other Party;^{16 17}

investor of a non-Party means, with respect to a Party, an investor that attempts to make, is making, or has made an investment in the territory of that Party, that is not an investor of either Party;

investor of a Party means a Party or state enterprise thereof, or a national or an enterprise of a Party, that attempts to make, is making, or has made an investment in the territory of the other Party; provided, however, that a natural person who is a dual national shall be deemed to be exclusively a national of the State of his or her dominant and effective nationality;

New York Convention means the *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards*, done at New York, June 10, 1958;

non-disputing Party means the Party that is not a party to an investment dispute;

protected information means confidential business information or information that is privileged or otherwise protected from disclosure under a Party's law;

respondent means the Party that is a party to an investment dispute;

Secretary-General means the Secretary-General of ICSID; and

UNCITRAL Arbitration Rules means the arbitration rules of the United Nations Commission on International Trade Law.

¹⁶ For greater certainty, actions taken by a Party to enforce laws of general application, such as competition laws, are not encompassed within this definition.

¹⁷ The Parties recognize that, as of the date of signature of this Agreement, neither Party has a foreign investment authority that grants investment authorizations.

ANNEX 11-A
CUSTOMARY INTERNATIONAL LAW

The Parties confirm their shared understanding that “customary international law” generally and as specifically referenced in Article 11.5 and Annex 11-B results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 11.5, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

ANNEX 11-B EXPROPRIATION

The Parties confirm their shared understanding that:

1. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right in an investment.
2. Article 11.6.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.
3. The second situation addressed by Article 11.6.1 is indirect expropriation, where an action or a series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.
 - (a) The determination of whether an action or a series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers all relevant factors relating to the investment, including:
 - (i) the economic impact of the government action, although the fact that an action or a series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations;¹⁸ and
 - (iii) the character of the government action, including its objectives and context. Relevant considerations could include whether the government action imposes a special sacrifice on the particular investor or investment that exceeds what the investor or investment should be expected to endure for the public interest.
 - (b) Except in rare circumstances, such as, for example, when an action or a series of actions is extremely severe or disproportionate in light of its purpose or effect, non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, the environment, and real estate price stabilization (through, for example, measures to improve the housing conditions for low-income households), do not constitute indirect expropriations.¹⁹

¹⁸ For greater certainty, whether an investor's investment-backed expectations are reasonable depends in part on the nature and extent of governmental regulation in the relevant sector. For example, an investor's expectations that regulations will not change are less likely to be reasonable in a heavily regulated sector than in a less heavily regulated sector.

¹⁹ For greater certainty, the list of "legitimate public welfare objectives" in subparagraph (b) is not exhaustive.

ANNEX 11-C
SERVICE OF DOCUMENTS ON A PARTY UNDER SECTION B

Korea

Notices and other documents in disputes under Section B shall be served on Korea by delivery to:

Office of International Legal Affairs
Ministry of Justice of the Republic of Korea
Government Complex, Gwacheon
Korea

United States

Notices and other documents in disputes under Section B shall be served on the United States by delivery to:

Executive Director (L/EX)
Office of the Legal Adviser
Department of State
Washington, D.C. 20520
United States of America

ANNEX 11-D
POSSIBILITY OF A BILATERAL APPELLATE MECHANISM

Within three years after the date this Agreement enters into force, the Parties shall consider whether to establish a bilateral appellate body or similar mechanism to review awards rendered under Article 11.26 in arbitrations commenced after they establish the appellate body or similar mechanism.

ANNEX 11-E
SUBMISSION OF A CLAIM TO ARBITRATION

Korea

1. Notwithstanding Article 11.18.2, an investor of the United States may not submit to arbitration under Section B a claim that Korea has breached an obligation under Section A either:

- (a) on its own behalf under Article 11.16.1(a); or
- (b) on behalf of an enterprise of Korea that is a juridical person that the investor owns or controls directly or indirectly under Article 11.16.1(b),

if the investor or the enterprise, respectively, has alleged that breach of an obligation under Section A in any proceedings before a court or administrative tribunal of Korea.

2. For greater certainty, where an investor of the United States or an enterprise of Korea that is a juridical person that the investor owns or controls directly or indirectly makes an allegation that Korea has breached an obligation under Section A before a court or administrative tribunal of Korea, that election shall be final, and the investor may not thereafter allege that breach, on its own behalf or on behalf of the enterprise, in an arbitration under Section B.

ANNEX 11-F
TAXATION AND EXPROPRIATION

The determination of whether a taxation measure, in a specific fact situation, constitutes an expropriation requires a case-by-case, fact-based inquiry that considers all relevant factors relating to the investment, including the factors listed in Annex 11-B and the following considerations:

- (a) The imposition of taxes does not generally constitute an expropriation. The mere introduction of a new taxation measure or the imposition of a taxation measure in more than one jurisdiction in respect of an investment generally does not in and of itself constitute an expropriation;
- (b) A taxation measure that is consistent with internationally recognized tax policies, principles, and practices should not constitute an expropriation. In particular, a taxation measure aimed at preventing the avoidance or evasion of taxation measures generally does not constitute an expropriation;
- (c) A taxation measure that is applied on a non-discriminatory basis, as opposed to a taxation measure that is targeted at investors of a particular nationality or at specific taxpayers, is less likely to constitute an expropriation; and
- (d) A taxation measure generally does not constitute an expropriation if it was already in force when the investment was made and information about the measure was publicly available.

- (b) Annex 12-B shall apply to measures adopted or maintained by a Party affecting the supply of express delivery services, including by a covered investment.²

4. Notwithstanding paragraph 1, this Chapter does not apply to:

¹ For greater certainty, the scope and coverage of application of Articles 12.4, 12.7, and 12.8 to measures adopted or maintained by a Party affecting the supply of a service in its territory by a covered investment is limited to the scope and coverage specified in Article 12.1 of this Chapter, subject to any applicable non-conforming measures and exceptions.

1. Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to its own service suppliers.

2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to service suppliers of the Party of which it forms a part.

³ For greater certainty, paragraph 7 does not limit the application of this Agreement to measures other than immigration measures that affect the supply of a service by a national of a Party in the territory of the other Party. The Parties shall consult regarding paragraph 7 within two years of the date this Agreement enters into force, and at two-year intervals afterward, unless the Parties otherwise agree.

ARTICLE 12.3: MOST-FAVORED-NATION TREATMENT⁴

ARTICLE 12.4: MARKET ACCESS

Neither Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:

 - (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

ARTICLE 12.5: LOCAL PRESENCE

Neither Party may require a service supplier of the other Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

ARTICLE 12.6: NON-CONFORMING MEASURES

1. Articles 12.2 through 12.5 do not apply to:

- (a) any existing non-conforming measure that is maintained by a Party at:

⁴ For greater certainty, nothing in Article 12.3 shall be interpreted as extending the scope and coverage of this Chapter.

 - (ii) a regional level of government, as set out by that Party in its Schedule to Annex I; or

2. Articles 12.2 through 12.5 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities as set out in its Schedule to Annex II.

ARTICLE 12.7: DOMESTIC REGULATION

1. Where a Party requires authorization for the supply of a service, the Party's competent authorities shall, within a reasonable time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the Party's competent authorities shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that a Party adopts or maintains with respect to sectors, sub-sectors, or activities as set out in its Schedule to Annex II.

2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, while recognizing the right to regulate and to introduce new regulations on the supply of services in order to meet national policy objectives, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service; and
- (b) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of the GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties

⁶ For Korea, **local level of government** means a local government as defined in the *Local Autonomy Act*.

participate) enter into effect, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement.⁷

ARTICLE 12.8: TRANSPARENCY IN DEVELOPING AND APPLYING REGULATIONS⁸

Further to Chapter Twenty-One (Transparency):

- (a) Each Party shall establish or maintain appropriate mechanisms for responding to inquiries from interested persons regarding its regulations relating to the subject matter of this Chapter.
- (b) If, consistent with paragraphs 2 and 3 of Article 21.1 (Publication), a Party does not provide advance notice of and opportunity for comment on regulations it proposes to adopt relating to the subject matter of this Chapter, it shall, to the extent possible, address in writing the reasons for not doing so.
- (c) To the extent possible, each Party shall allow reasonable time between publication of final regulations relating to the subject matter of this Chapter and their effective date.

ARTICLE 12.9: RECOGNITION

1. For purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 5, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.

2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 12.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. On request of the other Party, a Party shall promptly provide information, including appropriate descriptions, concerning any recognition agreement or arrangement that the Party or relevant bodies in its territory has concluded.

4. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition

⁸ For greater certainty, "regulations" includes regulations establishing or applying to licensing authorization or criteria at the central, regional, and local levels of government.

autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in the other Party's territory should be recognized.

5. Neither Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

6. Annex 12-A applies to measures adopted or maintained by a Party relating to the licensing or certification of professional service suppliers as set out in that Annex.

ARTICLE 12.10: PAYMENTS AND TRANSFERS⁹

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.

2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws relating to:

2. A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is an enterprise owned or controlled by persons of a non-Party or of the denying Party that has no substantial business activities in the territory of the other Party. If, before denying the benefits of this Chapter, the denying Party knows that the enterprise has no substantial business activities in the territory of the other Party and that persons of a non-Party, or of the denying Party, own or control the enterprise, the denying Party shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party at the other Party's request.

ARTICLE 12.12: SPECIFIC COMMITMENTS

ANNEX 12-A

1. On request of the other Party, a Party shall provide information concerning standards and criteria for the licensing and certification of professional services suppliers, including information concerning the appropriate regulatory or other body to consult regarding these standards and criteria. These standards and criteria include requirements regarding education, examinations, experience, conduct and ethics, professional development and re-certification, scope of practice, local knowledge, and consumer protection.
2. Where the Parties agree, each Party shall encourage the relevant bodies in its territory to develop mutually acceptable standards and criteria for licensing and certification, to provide recommendations to the Joint Committee on mutual recognition, and to develop procedures for the temporary licensing arrangements of professional service suppliers of the other Party with respect to professional services sectors or subsectors mutually agreed by the Parties.  - (d) other issues of mutual interest relating to the supply of professional services.
5. The Working Group shall consider, as appropriate, relevant bilateral, plurilateral, and multilateral agreements relating to professional services.

The other Party shall afford adequate opportunity for consultations and, to the extent possible, shall provide information in response to inquiries regarding the level of access and any related matter.

3. Each Party shall ensure that, where a Party's monopoly supplier of postal services competes, either directly or through an affiliated company, in the supply of express delivery services outside the scope of its monopoly rights, that supplier does not abuse its monopoly position to act in the territory of the Party in a manner inconsistent with the Party's obligations under Article 11.3 (National Treatment), Article 11.4 (Most-Favored-Nation Treatment), Article 12.2, 12.3, or 12.4, or Article 16.2 (Designated Monopolies). Further to Article 1.2 (Relation to Other Agreements), the Parties also reaffirm their rights and obligations under Article VIII of GATS with respect to express delivery services.¹²

ANNEX 12-C
CONSULTATIONS REGARDING NON-CONFORMING MEASURES
MAINTAINED BY A REGIONAL LEVEL OF GOVERNMENT

If a Party considers that an Annex I non-conforming measure applied by a regional level of government of the other Party creates a material impediment to a service supplier of the Party, an investor of the Party, or a covered investment, it may request consultations with regard to that measure. The Parties shall enter into consultations with a view to exchanging information on the operation of the measure and to considering whether further steps are necessary and appropriate.

⁶ For greater certainty, when a Party publishes regulations in advance as described in subparagraph (a), the Party shall provide an address, whether electronic or otherwise, to which interested persons and the other Party may send their comments.

⁷ Further to subparagraph (b), the FSS shall continue its current practice of providing a period for interested persons and the other Party to comment on its proposed measures of general application, including the *Detailed Enforcement Rules*, that is at least as long as the period for commenting on proposed regulations under Korea's *Administrative Procedures Act* and related regulations.

self-regulatory organization means any non-governmental body, including any securities or futures exchange or market, clearing agency, or other organization or association, that exercises regulatory or supervisory authority over financial service suppliers or financial institutions, by statute or delegation from central, regional, or local governments or authorities; for purposes of Chapter Sixteen (Competition-Related Matters), a self-regulatory organization shall not be considered a designated monopoly.

Korea will consult with the United States with respect to the liberalization of these services no later than two years after the date this Agreement enters into force.

SECTION B: TRANSFER OF INFORMATION

Each Party shall allow a financial institution of the other Party to transfer information in electronic or other form, into and out of its territory, for data processing where such processing is required in the institution's ordinary course of business. Korea shall give effect to this commitment no later than two years after the date this Agreement enters into force.

SECTION C: PERFORMANCE OF FUNCTIONS

1. The Parties recognize the benefits of allowing a financial institution in a Party's territory to perform certain functions at its head office or affiliates located inside or outside the Party's territory. To the extent practicable, each Party should allow such an office or affiliate to perform these functions.

These functions generally include, but are not limited to:

- (a) trade and transaction processing functions, including confirmation and statement production;

located in its territory to retain certain functions.

3. For greater certainty, a financial institution located in the territory of a Party retains ultimate responsibility for compliance with requirements applicable to those functions performed by its head office or affiliate.

SECTION D: TRANSPARENCY

The United States welcomes Korea's ongoing initiative to expand and enhance transparency, noting in particular the adoption by the FSS of the *Operational Rule on Administrative Guidance* and the introduction of the no-action letter mechanism. Korea shall, to the extent practicable, continue its existing practice of issuing in writing any administrative guidance to a financial institution or cross-border financial services supplier. At the request of an affected party, Korea shall put any oral administrative guidance provided into writing and post it on a public Internet site. During any review of previously issued administrative guidance, Korea shall provide interested parties an opportunity to comment on that guidance.

SECTION E: INSURANCE COMPLAINT METHODS AND PROCEDURES

Each Party should ensure that its system for public disclosure of data on complaints filed with regard to insurance suppliers fairly takes into account the relative size of such suppliers. Each Party shall ensure that aggregate complaint information is provided in a transparent manner, such as in a complaint index ratio format, grade format, or other reasonable format and include well documented definitions and explanations of calculation methodology. Any public disclosure of the number of complaints filed with respect to an insurance supplier should also disclose the number of such complaints that the authorities found to be valid.

SECTION F: SECTORAL COOPERATIVES SELLING INSURANCE

1. The regulation of insurance services supplied by a sectoral cooperative should not provide the cooperative a competitive advantage over private suppliers of like insurance services. To the extent practicable, a Party should apply the same rules to services supplied by such cooperatives that it applies to like services supplied by private insurers.

2. To this end, the FSC should exercise regulatory oversight over services supplied by sectoral cooperatives. At a minimum, Korea shall provide that no later than three years after the date this Agreement enters into force, solvency matters related to the sale of insurance by the National Agricultural Cooperative Federation, the National Federation of Fisheries Cooperatives, the Korea Federation of Community Credit Cooperatives, and the National Credit Union Federation of Korea shall be subject to regulation by the FSC.

3. The Insurance Working Group established in Annex 13-C shall address the need for additional steps to achieve the objectives set out in paragraphs 1 and 2.

SECTION G: SUPERVISORY COOPERATION

The Parties support the efforts of their respective financial regulators to provide assistance to the regulators of the other Party to enhance consumer protection and those

regulators' ability to prevent, detect, and prosecute unfair and deceptive practices. Each Party confirms that its financial regulators have the legal authority to exchange information in support of those efforts. The Parties encourage financial regulators to continue their ongoing efforts to strengthen this cooperation through bilateral consultations or bilateral or multilateral international cooperative mechanisms, such as memoranda of understanding or ad hoc undertakings.

SECTION H: GOVERNMENT PROCUREMENT

1. Notwithstanding Article 13.1.4, each Party shall apply Articles 13.2. and 13.3 with respect to the acquisition or procurement of the following services to the extent this Chapter applies to measures adopted or maintained by the Party relating to activities or services set out in subparagraphs (a) and (b) of Article 13.1.3:

 - (i) in the case of the United States, assets of federal government employees held by the Federal Retirement Thrift Investment Board as a fiduciary; and
 - (ii) in the case of Korea, assets of the Korea Investment Corporation.

2. Korea shall apply Article 13.5.1 with respect to the services described in subparagraph 1(c) (ii) to the extent that the Korea Investment Corporation chooses to acquire or procure those services on a cross-border basis.

SECTION I: EXPEDITED AVAILABILITY OF INSURANCE

The Parties recognize the importance of maintaining and developing regulatory procedures to expedite the offering of insurance services by licensed suppliers.

Korea

1. The United States welcomes Korea's plan to adopt policies and procedures based on a negative list approach¹⁷ to the product filing process no later than one year after the date this Agreement enters into force. Korea requires prior product filing before the introduction of a new insurance product except in cases where the product satisfies criteria¹⁸ set forth by the FSC in the *Regulation on Supervision of Insurance Business*.

¹⁷ For purposes of paragraph 1, adoption of a negative list approach in this context means developing a list of specific procedures or products that are subject to product filing. For greater certainty, procedures or products not on the list would not require prior product filing.

¹⁸ The criteria referred to in paragraph 1 include, among others: whether risk rates already reported are used or only minimal adjustments are made from assumed interest rate or cost; whether the premium rate has

Section 8 of this regulation establishes the review period for products filed with the FSS. Korea requires product filing for all Bancassurance products.

United States

2. Recognizing the principles of federalism under the U.S. Constitution, the history of state regulation of insurance in the United States, and the *McCarran-Ferguson Act*, the United States welcomes the efforts of the National Association of Insurance Commissioners (NAIC) relating to the availability of insurance services as expressed in the NAIC's "Statement of Intent: The Future of Insurance Regulation," including the initiatives on speed-to-market intentions and regulatory re-engineering provided under Part II of the Statement of Intent.

changed; whether reinsurers' premium rates are used due to a shortage in domestic statistics; whether insurance employs assumed interest rates and its reported risk rates are used without change or with only minimal change; and whether policy certificates or the policy application form is being amended with minimal change.

ANNEX 13-C

1. The authorities responsible for financial services are:
 - (a) for Korea, the Ministry of Finance and Economy; and
 - (b) for the United States, the Department of the Treasury for banking and other financial services and the Office of the United States Trade Representative, in coordination with the Department of Commerce and other agencies, for insurance.

Elaboration of the Agenda of the Financial Services Committee

2. The Parties anticipate discussing a range of issues in the Financial Services Committee, including measures adopted or maintained by central and regional levels of government that affect the supply of financial services by financial institutions or financial service suppliers of either Party. Before any meeting of the Committee, the authorities specified in paragraph 1 will provide their counterparts with a list of financial services issues for the Committee's consideration, including any concerns of financial institutions or financial service suppliers that a Party chooses to raise.

Insurance Working Group

3. The Parties recognize the importance of discussions between their respective insurance regulatory authorities to further cooperation, coordination, and mutual understanding of issues relating to the supply of insurance in their territories. To this end, the Parties hereby establish an Insurance Working Group comprising relevant officials of each Party's financial services regulatory structure. The Working Group shall address transparency; actions necessary to ensure competitive equality between Korea Post, sectoral cooperatives selling insurance, and private insurers; financial supervision, including regulations at the central and regional levels of government, the development, adoption, and review of changes in policy; the different regulatory structures of the Parties; and other issues of mutual interest. Unless the Parties otherwise agree, the Working Group shall meet once each year after the date this Agreement enters into force, and each Party shall select, the meeting location every other year. The Working Group shall inform the Joint Committee of the results of each meeting in accordance with Article 13.16, unless the Parties otherwise agree.

ANNEX 13-D
SUPPLY OF INSURANCE BY THE POSTAL SERVICES TO THE PUBLIC

2. To this end, Korea should, to the extent practicable, provide that the FSC exercise regulatory oversight over the insurance services supplied by Korea Post to the public and that those services be subject to the same rules applicable to private suppliers supplying like insurance services in its territory.
3. The letter exchange regarding these services sets out commitments with regard to insurance services supplied by Korea Post to the public.

June 30, 2007

The Honorable Hyun Chong Kim
Minister for Trade
Seoul, Republic of Korea

Sung Jin Kim
Deputy Minister
Ministry of Finance and Economy
Gwacheon, Republic of Korea

Dear Minister Kim and Deputy Minister Kim:

We have the honor to confirm the following understanding reached between the delegations of the United States of America and the Republic of Korea during the course of negotiations regarding Chapter Thirteen (Financial Services) of the Free Trade Agreement between our two Governments signed this day:

Cross-Border Trade

The Parties confirm that, with respect to cross-border trade in financial services, and without prejudice to other means of prudential regulation, a Party may require the registration or authorization of cross-border financial services suppliers of the other Party and of financial instruments.

The Parties further confirm that a Party may require a cross-border financial service supplier of the other Party to provide information, solely for informational or statistical purposes, on the financial services it has supplied within the territory of the Party. The Party shall protect such business information that is confidential from any disclosure that would prejudice the competitive position of the supplier.

New Financial Services

The Parties recognize the importance of accommodating new financial services in their markets consistent with prudential requirements. The Parties confirm that Article 13.6 (New Financial Services) does not apply to (1) cross-border trade in financial services or (2) any new financial service that the Party would not permit its own financial institutions, in like circumstances, to supply.

The Parties further confirm that a Party may apply prudential regulations to new financial services.

Transparency

The Parties discussed the application and licensing requirements set forth in Article 13.11.9 (Transparency) and agree that each Party's current practices are consistent with that Article. Korea has confirmed that the 120-day period in Article 13.11.9 does not include periods during which the applicants are engaged in efforts to meet regulatory requirements for the relevant license. In the case of insurance, Korea's current practice is to make a preliminary decision on an application within 90 days and to make a final decision no later than 60 days after it receives the completed application. Korea expressed its intention not to extend the existing 90-day limitation for making a preliminary decision on an application to supply insurance services.

Self-Regulatory Organizations

The Parties confirm that the Korea Insurance Development Institute is a self-regulatory organization as defined in Chapter Thirteen (Financial Services) and is subject to the disciplines of Article 13.12 (Self Regulatory Organizations). This confirmation is without prejudice to the status of any other organization in this or any other financial services subsector.

For greater certainty, if the FSC or the Financial Supervisory Service (FSS) delegates a function related to insurance to a self-regulatory organization or other non-governmental body, the FSC or FSS shall take reasonable steps to ensure compliance with Article 13.11.3 (Transparency) and Article 21.4 (Review and Appeal) with regard to any actions taken by the organization or other non-governmental body pursuant to the delegated function.

Certain Government Entities

The Parties confirm that the following entities, as currently structured, are covered by Chapter Thirteen, but shall not be considered financial institutions for purposes of that Chapter: Korea Deposit Insurance Corporation (KDIC), Resolution and Finance Corporation, Export-Import Bank of Korea, Korea Export Insurance Corporation, Korea Technology Credit Guarantee Fund, Credit Guarantee Fund, Korea Asset Management Corporation (KAMCO), and Korea Investment Corporation (KIC).

Chief Executive Officer

For greater certainty, nothing in Article 13.8 (Senior Management and Board of Directors) limits a Party's ability to require the chief executive officer of a financial institution established under its laws to reside within its territory.

Transfer of Information

The Parties recognize the importance of the cross-border transfer of information by financial institutions, and the United States welcomes Korea's commitment in paragraph 6(b) of Annex

13-A and Section B of Annex 13-B to undertake modifications to its regulatory regime that will permit those institutions to transfer such information. Korea has expressed its intent that these modifications will result in its adoption of approaches that are similar to those of the United States with respect to such areas as the protection of sensitive information of consumers, prohibitions on unauthorized reuse of the sensitive information, the ability of financial regulators to have access to records of financial institutions relating to the handling of such information, and requirements for the location of technology facilities.

Financial Services Initiatives

Recognizing the positive steps Korea is taking as a part of its strategy to establish itself as a regional financial hub in East Asia, the United States welcomes three key regulatory initiatives of Korea currently underway:

- (a) the movement to a negative regulatory approach in the financial services sector;
- (b) implementation of Phase II of the Bancassurance regulations; and
- (c) further liberalization of foreign currency reserve requirements in the supply of insurance services.

Recognizing the positive steps the United States has made in the product approval system, Korea welcomes efficiencies introduced in the area of electronic product approval filing procedures for insurance; in particular:

- (a) all regional governments of the United States use the National Association of Insurance Commissioners' System for Electronic Rate & Form Filing, which by the end of 2005 had logged approximately 185,000 electronic filings; and
- (b) twenty-nine states have adopted the Interstate Insurance Compact, which permits the Product Regulation Commission to be the sole authority for approval of products in the following areas: life, annuities, long-term care, and disability income.

Korea welcomes progress by the National Association of Insurance Commissioners on its review of collateral requirements for suppliers of reinsurance. The NAIC will consider adopting changes to its Model Law in 2007. The United States will provide updates to Korea on this process in the FSC.

Supply of Insurance by the Postal Services to the Public

1. The United States and Korea recognize that Korea Post is currently a government agency that is not regulated as a financial institution.

2. The FSC shall:
 - (a) nominate at least half of the members of the Postal Finance Risk Management Committee and the Reserve Operation Deliberation Committee responsible for oversight of Korea Post's supply of insurance services;
 - (b) review any financial statements, settlement documents, or other information submitted to it by Korea Post with regard to insurance services supplied by Korea Post and, to the extent this review reveals any deficiencies, issue an opinion to that effect to Korea Post; and
 - (c) review the basic documents submitted to it by Korea Post related to insurance products supplied by Korea Post, including business operation manuals, terms and conditions of insurance, insurance premium and policy reserves calculation guidelines, and, if it identifies any deficiencies, issue recommendations with regard to necessary improvements.
3. Korea Post shall:
 - (a) submit to the FSC any financial statements, settlement documents and basic documents regarding insurance services supplied by Korea Post;
 - (b) conform its supply of insurance services with any opinion issued by the FSC in accordance with paragraph 2(b);
 - (c) take action on any recommendations regarding basic documents issued by the FSC in accordance with paragraph 2(c);
 - (d) with respect to matters covered by Articles 61(4) and 67(1) of the Standards, obtain confirmation from KIDI or an actuarial firm registered with the FSC in accordance with Article 183 of the *Insurance Business Act*;
 - (e) in the event that the FSC issues an opinion or recommendation under paragraph 2(b) or 2(c), include the nature of the deficiency in a public notice as provided for in Article 64 of the Standards; and
 - (f) appoint the persons nominated by the FSC in accordance with paragraph 2(a) to be members of the committees for which the FSC nominates them.
4. In the event that Korea Post issues product-specific advertisements related to its insurance services, such advertisements shall be subject to the same approval requirements applicable to private suppliers of insurance services.

5. Korea Post shall not issue new products, including variable life insurance, non-life insurance, and retirement insurance. Korea Post may modify¹ existing products. In the event that it does so, the FSC shall issue its recommendation under paragraph 2(c) within the period provided under Section 8 of the *Regulation on Supervision of Insurance Business*. Before increasing the value limitation on the sale of an insurance product, Korea Post shall consult with the FSC, which shall provide public notice of the proposed increase and an opportunity for public comment. The FSC shall issue an opinion with regard to the proposed increase, which shall be favorable only if the increase is no more than the amount necessary to reflect inflation, and otherwise necessary and appropriate. Korea Post shall conform its actions to that opinion.
6. At the request of either Party, the Insurance Working Group established in Annex 13-C (Financial Services Committee) shall discuss issues related to insurance services supplied by Korea Post, including additional steps that may be necessary to achieve the objectives of Annex 13-D (Supply of Insurance by the Postal Services to the Public) and this letter.
7. For purposes of this letter:
 - (a) **FSC** means the Financial Supervisory Commission or any successor agency;
 - (b) **KIDI** means the Korea Insurance Development Institute or any successor institution; and
 - (c) **Standards** means Korea Post's Notification No. 2006-18, entitled "Standards for Sound Management of Postal Savings and Insurance."
8. Paragraphs 2, 3, and 4 shall become effective two years after the date this Agreement enters into force. If Korea Post ceases to supply insurance services to the public as a government agency, the Parties shall consult as to how to modify paragraphs 1 through 7.

We have the honor to propose that this letter and your letter in reply confirming that your Government shares this understanding shall constitute an integral part of the Free Trade Agreement.

Sincerely,

Susan C. Schwab
United States Trade Representative

Clay Lowery
Acting Under Secretary for International Affairs
U.S. Department of Treasure

¹ For purposes of paragraph 5, modify includes to change terms and conditions as necessary to conform to insurance industry best practices or to conform to opinions or recommendations of the FSC. Modify does not include adding supplemental coverage in a manner equivalent to the creation of a new product line. New product line means insurance products covering risks other than those currently covered. Modify also does not include changing terms and conditions in a manner equivalent to the creation of a new product.

The Honorable Susan C. Schwab
United States Trade Representative
Washington, D.C.

Clay Lowery
Acting Under Secretary for International Affairs
U.S. Department of Treasury
Washington, D.C.

Dear Ambassador Schwab and Mr. Lowery:

We have the honor to acknowledge the receipt of your letter of this date, which reads as follows:

We have the honor to confirm the following understanding reached between the delegations of the United States of America and the Republic of Korea during the course of negotiations regarding Chapter Thirteen (Financial Services) of the Free Trade Agreement between our two Governments signed this day:

Cross-Border Trade

The Parties confirm that, with respect to cross-border trade in financial services, and without prejudice to other means of prudential regulation, a Party may require the registration or authorization of cross-border financial services suppliers of the other Party and of financial instruments.

The Parties further confirm that a Party may require a cross-border financial service supplier of the other Party to provide information, solely for informational or statistical purposes, on the financial services it has supplied within the territory of the Party. The Party shall protect such business information that is confidential from any disclosure that would prejudice the competitive position of the supplier.

New Financial Services

The Parties recognize the importance of accommodating new financial services in their markets consistent with prudential requirements. The Parties confirm that Article 13.6 (New Financial Services) does not apply to (1) cross-border trade in financial services or (2) any new financial service that the Party would not permit its own financial institutions, in like circumstances, to supply.

The Parties further confirm that a Party may apply prudential regulations to new financial services.

Transparency

The Parties discussed the application and licensing requirements set forth in Article 13.11.9 (Transparency) and agree that each Party's current practices are consistent with that Article. Korea has confirmed that the 120-day period in Article 13.11.9 does not include periods during which the applicants are engaged in efforts to meet regulatory requirements for the relevant license. In the case of insurance, Korea's current practice is to make a preliminary decision on an application within 90 days and to make a final decision no later than 60 days after it receives the completed application. Korea expressed its intention not to extend the existing 90-day limitation for making a preliminary decision on an application to supply insurance services.

Self-Regulatory Organizations

The Parties confirm that the Korea Insurance Development Institute is a self-regulatory organization as defined in Chapter Thirteen (Financial Services) and is subject to the disciplines of Article 13.12 (Self Regulatory Organizations). This confirmation is without prejudice to the status of any other organization in this or any other financial services subsector.

For greater certainty, if the FSC or the Financial Supervisory Service (FSS) delegates a function related to insurance to a self-regulatory organization or other non-governmental body, the FSC or FSS shall take reasonable steps to ensure compliance with Article 13.11.3 (Transparency) and Article 21.4 (Review and Appeal) with regard to any actions taken by the organization or other non-governmental body pursuant to the delegated function.

Certain Government Entities

The Parties confirm that the following entities, as currently structured, are covered by Chapter Thirteen, but shall not be considered financial institutions for purposes of that Chapter: Korea Deposit Insurance Corporation (KDIC), Resolution and Finance Corporation, Export-Import Bank of Korea, Korea Export Insurance Corporation, Korea Technology Credit Guarantee Fund, Credit Guarantee Fund, Korea Asset Management Corporation (KAMCO), and Korea Investment Corporation (KIC).

Chief Executive Officer

For greater certainty, nothing in Article 13.8 (Senior Management and Board of Directors) limits a Party's ability to require the chief executive officer of a financial institution established under its laws to reside within its territory.

Transfer of Information

The Parties recognize the importance of the cross-border transfer of information by financial institutions, and the United States welcomes Korea's commitment in paragraph 6(b) of Annex 13-A and Section B of Annex 13-B to undertake modifications to its regulatory regime that will permit those institutions to transfer such information. Korea has expressed its intent that these modifications will result in its adoption of approaches that are similar to those of the United States with respect to such areas as the protection of sensitive information of consumers, prohibitions on unauthorized reuse of the sensitive information, the ability of financial regulators to have access to records of financial institutions relating to the handling of such information, and requirements for the location of technology facilities.

Financial Services Initiatives

Recognizing the positive steps Korea is taking as a part of its strategy to establish itself as a regional financial hub in East Asia, the United States welcomes three key regulatory initiatives of Korea currently underway:

- (a) the movement to a negative regulatory approach in the financial services sector;
- (b) implementation of Phase II of the Bancassurance regulations; and
- (c) further liberalization of foreign currency reserve requirements in the supply of insurance services.

Recognizing the positive steps the United States has made in the product approval system, Korea welcomes efficiencies introduced in the area of electronic product approval filing procedures for insurance; in particular,

- (a) all regional governments of the United States use the National Association of Insurance Commissioners' System for Electronic Rate & Form Filing, which by the end of 2005 had logged approximately 185,000 electronic filings; and

- (b) twenty-nine states have adopted the Interstate Insurance Compact, which permits the Product Regulation Commission to be the sole authority for approval of products in the following areas: life, annuities, long-term care, and disability income.

Korea welcomes progress by the National Association of Insurance Commissioners on its review of collateral requirements for suppliers of reinsurance. The NAIC will consider adopting changes to its Model Law in 2007. The United States will provide updates to Korea on this process in the FSC.

Supply of Insurance by the Postal Services to the Public

 5. Korea Post shall not issue new products, including variable life insurance, non-life insurance, and retirement insurance. Korea Post may modify¹ existing products. In the event that it does so, the FSC shall issue its recommendation under paragraph 2(c) within the period provided under Section 8 of the Regulation on Supervision of Insurance Business. Before increasing the value limitation on the sale of an insurance product, Korea Post shall consult with the FSC, which shall provide public notice of the proposed increase and an opportunity for public comment. The FSC shall issue an opinion with regard to the proposed increase, which shall be favorable only if the increase is no more than the amount necessary to reflect inflation, and otherwise necessary and appropriate. Korea Post shall conform its actions to that opinion.
 6. At the request of either Party, the Insurance Working Group established in Annex 13-C (Financial Services Committee) shall discuss issues related to insurance services supplied by Korea Post, including additional steps that may

Section A: Access to and Use of Public Telecommunications Networks and Services

ARTICLE 14.2: ACCESS AND USE

1. Each Party shall ensure that service suppliers of the other Party have access to and use of any public telecommunications network or service, including leased circuits, offered in its territory or across its borders, on reasonable and non-discriminatory terms and conditions, including as set out in paragraphs 2 through 6.

2. Each Party shall ensure that service suppliers of the other Party are permitted to:

 - (d) perform switching, signaling, processing, and conversion functions; and
 - (e) use operating protocols of their choice in the supply of any service.
3. Each Party shall ensure that service suppliers of the other Party may use public telecommunications services for the movement of information in its territory or across its borders, including for intra-corporate communications, and for access to information contained in databases or otherwise stored in machine-readable form in the territory of either Party.
4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to ensure the security and confidentiality of messages, provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.
5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications networks and services, other than as necessary to:
- (a) safeguard the public service responsibilities of suppliers of public telecommunications networks and services, in particular their ability to make their networks or services available to the public generally; or
 - (b) protect the technical integrity of public telecommunications networks or services.
6. Provided that conditions for access to and use of public telecommunications networks and services satisfy the criteria set out in paragraph 5, such conditions may include:
- (a) a requirement to use specified technical interfaces, including interface protocols, for interconnection with such networks or services;
 - (b) requirements, where necessary, for the inter-operability of such networks and services; and
 - (c) type approval of terminal or other equipment that interfaces with the network and technical requirements relating to the attachment of that equipment to such networks.

Section B: Suppliers of Public Telecommunications Services

¹ For greater certainty, subparagraph (b) shall not be construed to prohibit a Party from requiring a service supplier to obtain a license to supply specific services.

ARTICLE 14.3: OBLIGATIONS RELATING TO SUPPLIERS OF PUBLIC TELECOMMUNICATIONS SERVICES²

- (a) at any technically feasible point in the major supplier's network;
- (b) under non-discriminatory terms, conditions (including technical standards and specifications), and rates;

- (c) of a quality no less favorable than that provided by the major supplier for its own like services, for like services of non-affiliated service suppliers, or for its subsidiaries or other affiliates;
- (d) in a timely fashion, and on terms and conditions (including technical standards and specifications), and at cost-oriented rates, that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the suppliers need not pay for network components or facilities that they do not require for the service to be provided; and
- (e) on request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

Options for Interconnecting with Major Suppliers

2. Each Party shall ensure that a major supplier in its territory provides suppliers of public telecommunications services of the other Party the opportunity to interconnect their facilities and equipment with those of the major supplier through:

- (a) negotiation of a new interconnection agreement; and
- (b) one of the following options:
 - (i) a reference interconnection offer containing the rates, terms, and conditions that the major supplier offers generally to suppliers of public telecommunications services; or
 - (ii) the terms and conditions of an interconnection agreement in effect.

Public Availability of Interconnection Offers and Agreements

3. If a major supplier in the territory of a Party has a reference interconnection offer, the Party shall require the offer to be made publicly available.

4. Each Party shall make publicly available the applicable procedures for interconnection negotiations with a major supplier in its territory.

5. Each Party shall require a major supplier in its territory to file all interconnection agreements to which it is party with its telecommunications regulatory body.⁵

6. Each Party shall make publicly available interconnection agreements in effect between a major supplier in its territory and other suppliers of public telecommunications services in its territory.

⁵ The United States may comply with paragraph 5 by requiring filing with a state regulatory authority.

ARTICLE 14.9: PROVISIONING AND PRICING OF LEASED CIRCUITS SERVICES⁶

1. Each Party shall ensure that a major supplier in its territory provides service suppliers of the other Party leased circuits services that are public telecommunications services on terms and conditions, and at rates, that are reasonable and non-discriminatory.
2. In carrying out paragraph 1, each Party shall provide its telecommunications regulatory body the authority to require a major supplier in its territory to offer leased circuits services that are public telecommunications services to service suppliers of the other Party at capacity-based, cost-oriented prices.

ARTICLE 14.10: CO-LOCATION

1. Subject to paragraphs 2 and 3, each Party shall ensure that a major supplier in its territory provides to suppliers of public telecommunications services of the other Party in the Party's territory physical co-location of equipment necessary for interconnection or access to unbundled network elements on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory, and transparent.
2. Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that a major supplier in its territory provides an alternative solution⁷ on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory, and transparent.
3. Each Party may limit which premises are subject to paragraphs 1 and 2, provided the Party specifies any such limitation in its law or regulations.

ARTICLE 14.11: ACCESS TO POLES, DUCTS, CONDUITS, AND RIGHTS-OF-WAY

Each Party shall ensure that a major supplier in its territory affords access to poles, ducts, conduits, and rights-of-way owned or controlled by the major supplier to suppliers of public telecommunications services of the other Party in the Party's territory on terms and conditions, and at rates, that are reasonable, non-discriminatory, and transparent.

Section D: Other Measures

ARTICLE 14.12: SUBMARINE CABLE SYSTEMS

1. Where a supplier of telecommunications services in the territory of a Party operates a submarine cable system to provide public telecommunications services, that Party shall ensure that the supplier accords suppliers of public telecommunications services of the other Party reasonable and non-discriminatory treatment with respect to access⁸ to that submarine cable system, including landing facilities.

⁶ Article 14.9 shall not be construed to require a Party to ensure that the major supplier provides leased circuits as an unbundled network element.

⁷ The United States may comply with the obligation in Article 14.10.2 to ensure that a major supplier in its territory provides an alternative solution by ensuring that the supplier provides virtual co-location.

⁸ With respect to a supplier of the other Party that does not own facilities in the territory of the Party in

2. Where a major supplier of international public telecommunications services in the territory of a Party controls cable landing facilities and services for which there are no economically or technically feasible alternatives, the Party shall ensure that the major supplier:⁹

- (a) permits suppliers of public telecommunications services of the other Party to:
 - (i) use the major supplier's cross-connect links in the submarine cable landing station to connect their equipment to backhaul links and submarine cable capacity of any supplier of telecommunications; and
 - (ii) co-locate their transmission and routing equipment used for accessing submarine cable capacity and backhaul links of any supplier of telecommunications in the submarine cable landing station on terms and conditions, and at cost-oriented rates, that are reasonable, transparent, and non-discriminatory; and
- (b) provides suppliers of telecommunications of the other Party international leased circuits, backhaul links, and cross-connect links in the submarine cable landing station on terms and conditions, and at rates, that are reasonable, transparent, and non-discriminatory.¹⁰

ARTICLE 14.13: CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES

1. Neither Party may require an enterprise in its territory that it classifies as a supplier of value-added services and that supplies those services over facilities that the enterprise does not own to:

- (a) supply those services to the public generally;
- (b) cost-justify its rates for those services;
- (c) file a tariff for those services;
- (d) connect its networks with any particular customer for the supply of those services; or
- (e) conform with any particular standard or technical regulation of the telecommunications regulatory body for connecting to any other network,

which the cable landing system is located, that Party may comply with paragraph 1 by ensuring access to the submarine cable system through facilities that the supplier of the other Party leases from a licensed supplier of public telecommunications services in the territory of the Party.

⁹ Paragraph 2 is subject to Annex 14-B.

¹⁰ Notwithstanding paragraph 2, a Party may permit a major supplier in its territory to limit access to or use of its submarine cable landing station if capacity at the station is unavailable.

other than a public telecommunications network.

2. Notwithstanding paragraph 1, a Party may take the actions described in paragraph 1 to remedy a practice of a supplier of value-added services that the Party has found in a particular case to be anticompetitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

ARTICLE 14.14: INDEPENDENT REGULATORY BODIES

Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. With a view to ensuring the independence and impartiality of telecommunications regulatory bodies, each Party shall ensure that its telecommunications regulatory body does not own equity¹¹ or maintain an operating or management role in any such supplier. Each Party shall ensure that its regulatory decisions and procedures, including decisions and procedures relating to licensing, interconnection with public telecommunications networks and services, tariffs, and assignment or allocation of spectrum for non-government public telecommunications services, are impartial with respect to all market participants.

ARTICLE 14.15: UNIVERSAL SERVICE

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

Article 14.16: LICENSING PROCESS

1. When a Party requires a supplier of public telecommunications services to have a license, the Party shall make publicly available:
 - (a) all the licensing criteria and procedures it applies;
 - (b) the period it normally requires to reach a decision concerning an application for a license; and
 - (c) the terms and conditions of all licenses in effect.
2. Each Party shall ensure that, on request, an applicant receives the reasons for the denial of a license.

ARTICLE 14.17: ALLOCATION AND USE OF SCARCE RESOURCES

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an

¹¹ For greater certainty, Article 14.14 shall not be construed to prohibit a government entity of a Party other than the telecommunications regulatory body from owning equity in a supplier of public telecommunications services.

objective, timely, transparent, and non-discriminatory manner.

2. Each Party shall make publicly available the current state of allocated frequency bands, but retains the right not to provide detailed identification of frequencies allocated or assigned for specific government uses.

3. A Party's measures allocating and assigning spectrum and managing frequency are not measures that are *per se* inconsistent with Article 12.4 (Market Access) either as it applies to cross-border trade in services or through the operation of Article 12.1.3 (Scope and Coverage) to an investor or covered investment of the other Party. Accordingly, each Party retains the right to establish and apply spectrum and frequency management measures that may have the effect of limiting the number of suppliers of public telecommunications services, provided that it does so in a manner consistent with this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs and spectrum availability.

4. Each Party shall endeavor to allocate and assign spectrum for non-government telecommunications services in a manner that encourages economically efficient use of the spectrum and competition among suppliers of telecommunications services, recognizing that a Party may encourage this behavior through a variety of means, including through administrative incentive pricing, auctions, or unlicensed use.

ARTICLE 14.18: ENFORCEMENT

Each Party shall provide its competent authority the authority to enforce the Party's measures relating to the obligations set out in Articles 14.2 through 14.12. That authority shall include the ability to impose effective sanctions, which may include financial penalties, injunctive relief (on an interim or final basis), corrective orders, or the modification, suspension, or revocation of licenses.

ARTICLE 14.19: RESOLUTION OF TELECOMMUNICATIONS DISPUTES¹²

Further to Articles 21.3 (Administrative Proceedings) and 21.4 (Review and Appeal), each Party shall ensure that:

Recourse

- (a) (i) enterprises may have recourse to a telecommunications regulatory body or other relevant body of the Party to resolve disputes regarding the Party's measures relating to matters set out in Articles 14.2 through 14.12; and
- (ii) suppliers of public telecommunications services of the other Party that have requested interconnection with a major supplier in the Party's territory may seek review, within a reasonable and publicly specified period after the supplier requests interconnection, by its

¹² For Korea, for purposes of Article 14.19, **enterprise** means a natural person or a juridical person organized under the laws of Korea.

telecommunications regulatory body¹³ to resolve disputes regarding the terms, conditions, and rates for interconnection with that major supplier;

Reconsideration

- (b) any enterprise whose legally protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may petition the body to reconsider that determination or decision. Neither Party may permit such a petition to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless an appropriate authority stays the determination or decision;¹⁴ and

Judicial Review

- (c) any enterprise whose legally protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may obtain review of the determination or decision by an impartial and independent judicial authority of the Party. Neither Party may permit an application for judicial review to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless the relevant judicial body stays the determination or decision.

ARTICLE 14.20: TRANSPARENCY

Further to Article 21.1 (Publication), each Party shall ensure that:

- (a) rulemakings, including the basis for such rulemakings, of its telecommunications regulatory body and tariffs filed with its telecommunications regulatory body are promptly published or otherwise made publicly available;
- (b) interested persons are provided with adequate advance public notice of, and reasonable opportunity to comment on, any rulemaking that its telecommunications regulatory body proposes;
- (c) to the extent practicable, all comments filed with the telecommunications regulatory body in the rulemaking are made publicly available;
- (d) its telecommunications regulatory body responds in its rulemaking to all significant and relevant issues raised in comments filed with the telecommunications regulatory body; and

¹³ The United States may comply with subparagraph (a)(ii) by providing for review by a state regulatory authority.

¹⁴ For Korea, subparagraph (b) does not apply to a determination or decision of the telecommunications regulatory body with respect to disputes between service suppliers or between service suppliers and users.

- (e) its measures relating to public telecommunications services are made publicly available, including:
 - (i) measures relating to
 - (A) tariffs and other terms and conditions of service;
 - (B) specifications of technical interfaces;
 - (C) conditions for attaching terminal or other equipment to the public telecommunications network; and
 - (D) notification, permit, registration, or licensing requirements, if any; and
 - (ii) procedures relating to judicial and other adjudicatory proceedings.

ARTICLE 14.21: MEASURES CONCERNING TECHNOLOGIES AND STANDARDS¹⁵

1. The Parties recognize that measures concerning technologies and standards may contribute to legitimate public policy objectives, and that a regulatory approach that affords suppliers of public telecommunications and value-added services the flexibility to choose the technologies that they use to supply their services may contribute to innovation in and development of information and communications technologies.

2. A Party may apply a measure that limits the technologies or standards that a supplier of public telecommunications or value-added services may use to supply its services, provided that the measure is designed to achieve a legitimate public policy objective and is not prepared, adopted, or applied in a manner that creates unnecessary obstacles to trade. Except with respect to technical requirements referred to in paragraph 3, each Party retains the right to define its own legitimate public policy objectives, recognizing that affording protection to domestic suppliers of telecommunications or value-added services or equipment is not a legitimate public policy objective.

3. A Party may apply a technical requirement¹⁶ that limits the technologies or standards that a supplier of public telecommunications or value-added services may use to supply its services in a particular spectrum frequency band, provided that the requirement is designed to ensure effective or efficient use of the spectrum (including with respect to preventing harmful interference), safeguard consumers' continued access to domestic or international networks or services,¹⁷ facilitate law enforcement, or protect human health or

¹⁵ Except for paragraphs 1 and 5(b), Article 14.21 does not apply to measures adopted before the date this Agreement enters into force.

¹⁶ The Parties recognize that it may be appropriate to base technical requirements regarding the supply of public telecommunications or value-added services on international standards.

¹⁷ For greater certainty, "safeguard consumers' continued access to domestic or international networks or services" includes facilitating consumers' ability to access mobile networks globally.

safety.

4. To the extent possible, each Party shall endeavor to base its technical requirements relating to the supply of telecommunications or value-added services on performance rather than design or descriptive characteristics.

5. If a Party adopts a measure that mandates the use of a specific technology or standard, or otherwise limits a supplier's ability to choose the technology it uses, to supply a telecommunications or value-added service, it shall:

- (a) do so on the basis of a rulemaking
 - (i) in which the Party determines that market forces have not achieved, or could not reasonably be expected to achieve, its legitimate public policy objective; and
 - (ii) that affords suppliers of telecommunications or value-added services or equipment the opportunity to demonstrate that an alternative technology or standard could achieve the Party's legitimate public policy objective; and
- (b) after adopting the measure, provide suppliers of telecommunications or value-added services or equipment opportunities to request the Party to initiate a rulemaking to permit, in addition, the use of an alternative technology or standard that could effectively and reasonably achieve the Party's legitimate public policy objective. The Party shall respond to any such request in writing, stating the reasons for accepting or rejecting the request, including how amending or not applying the measure may affect consumers, and make the response and, to the extent practicable, the request publicly available.

ARTICLE 14.22: FORBEARANCE

1. The Parties recognize the importance of relying on competitive market forces to provide wide choice in the supply of telecommunications services. To this end, each Party may forbear, to the extent provided for in its law, from applying a regulation to a service that the Party classifies as a public telecommunications service, if its telecommunications regulatory body determines that:

- (a) enforcement of the regulation is not necessary to prevent unreasonable or discriminatory practices;
- (b) enforcement of the regulation is not necessary for the protection of consumers; and
- (c) forbearance is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications services.

2. For greater certainty, each Party shall subject its regulatory body's decision to forbear to judicial review in accordance with Article 14.19(c).

Such time-periods, including any extension of the time-periods, shall be common for all interested or participating suppliers.

Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4 and 5, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (b) the procuring entity, for procurements of a recurring nature, indicates in an initial notice of intended procurement that subsequent notices will provide time-periods for tendering based on this paragraph; or
- (c) a state of urgency duly substantiated by the procuring entity renders such time-period impracticable.

5. A procuring entity may reduce the time-period for tendering set out in paragraph 3 by five days for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;
- (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and

7. Notwithstanding any other time-period in this Article, where a procuring entity purchases commercial goods or services, it may reduce the time-period for tendering set out in paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. - (b) for any other proposed modification, information as to the likely consequences of the change for the mutually agreed coverage provided under this Chapter.

2. Where the other Party objects to the proposed modification, it shall notify the modifying Party of its objection within 30 days of the notification of the proposed modification and include the reasons for its objection.

3. The Parties shall seek to resolve any objection through consultations. In such consultations, the Parties shall consider the proposed modification and, in the case of a notification under paragraph 1(b), any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Chapter prior to such notification.

4. If a Party proposes a modification pursuant to paragraph 1(b), the modifying Party shall offer to the other Party appropriate compensatory adjustments, where such adjustments are necessary to maintain a level of coverage comparable to that which was

existing prior to the modification. Such modification shall become effective if the other Party does not notify the modifying Party of any objection to the proposed modification within 30 days of the notification. A Party need not provide compensatory adjustments where the Parties agree that the proposed modification covers a procuring entity over which a Party has effectively eliminated its control or influence over the entity's covered procurement.

5. The Joint Committee shall adopt any proposed modification only where the other Party:

- (a) does not object in writing to the proposed modification within 30 days of the notification provided under paragraph 1; or

2. Further to Article 1.2 (Relation to Other Agreements), the Parties affirm their existing rights and obligations with respect to each other under the TRIPS Agreement.

National Treatment

6. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals² of the other Party treatment no less favorable than it accords to its own nationals with regard to the protection³ and enjoyment of such intellectual property rights and any benefits derived from such rights. With respect to secondary uses of phonograms by means of analog communications, analog free over-the-air radio broadcasting, and analog free over-the-air television broadcasting, however, a Party may limit the rights of performers and producers of phonograms of the other Party to the rights its persons are accorded in the territory of the other Party.

7. A Party may derogate from paragraph 6 in relation to its judicial and administrative procedures, including requiring a national of the other Party to designate an address for service of process in its territory, or to appoint an agent in its territory, provided that such derogation is:

- (a) necessary to secure compliance with laws and regulations that are not inconsistent with this Chapter; and
- (b) not applied in a manner that would constitute a disguised restriction on trade.

8. Paragraph 6 does not apply to procedures provided in multilateral agreements to which either Party is a party concluded under the auspices of the WIPO in relation to the acquisition or maintenance of intellectual property rights.

² For purposes of paragraphs 6 and 7 and Articles 18.2.14(a), and 18.6.1, a “national” of a Party shall include, in respect of the relevant right, any person (as defined in Article 1.4 (Definitions)), of that Party that would meet the criteria for eligibility for protection of that right provided for in the agreements listed in paragraph 3 and the TRIPS Agreement.

³ For purposes of paragraph 6, “protection” includes: (1) matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights as well as matters affecting the use of intellectual property rights specifically covered by this Chapter; and (2) the prohibition on circumvention of effective technological measures set out in Article 18.4.7 and the rights and obligations concerning rights management information set out in Article 18.4.8.

Application of Agreement to Existing Subject Matter and Prior Acts

9. Except as it provides otherwise, including in Article 18.4.5, this Chapter gives rise to obligations in respect of all subject matter existing at the date this Agreement enters into force that is protected on that date in the territory of the Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.

10. Except as otherwise provided in this Chapter, including in Article 18.4.5, a Party shall not be required to restore protection to subject matter that on the date this Agreement enters into force has fallen into the public domain in the territory of the Party where the protection is claimed.

11. This Chapter does not give rise to obligations in respect of acts that occurred before the date this Agreement enters into force.

Transparency

12. Further to Article 21.1 (Publication), and with the object of making the protection and enforcement of intellectual property rights transparent, each Party shall ensure that all laws, regulations, and procedures concerning the protection or enforcement of intellectual property rights are in writing and are published,⁴ or where publication is not practicable made publicly available, in its national language in such a manner as to enable governments and right holders to become acquainted with them.

ARTICLE 18.2: TRADEMARKS INCLUDING GEOGRAPHICAL INDICATIONS

1. Neither Party may require, as a condition of registration, that signs be visually perceptible, nor may either Party deny registration of a trademark solely on the grounds that the sign of which it is composed is a sound or scent.

2. Each Party shall provide that trademarks shall include certification marks. Each Party shall also provide that geographical indications are eligible for protection as trademarks.⁵

3. Each Party shall ensure that its measures mandating the use of the term customary in common language as the common name for a good or service (common name), including, *inter alia*, requirements concerning the relative size, placement or style of use

⁴ For greater certainty, a Party may satisfy the requirement in paragraph 12 to publish a law, regulation, or procedure by making it available to the public on the Internet.

⁵ For purposes of this Chapter, **geographical indications** means indications that identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin. Any sign (such as words, including geographical and personal names, as well as letters, numerals, figurative elements, and colors, including single colors) or combination of signs, in any form whatsoever, shall be eligible to be a geographical indication. "Originating" in this Chapter does not have the meaning ascribed to that term in Article 1.4 (Definitions).

of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such good or service.

4. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner's consent from using in the course of trade identical or similar signs, including geographical indications, at least for goods or services that are identical or similar to those goods or services in respect of which the owner's trademark is registered, where such use would result in a likelihood of confusion. In the case of the use of an identical sign, including a geographical indication, for identical goods or services, a likelihood of confusion shall be presumed.

5. Each Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interests of the owner of the trademark and of third parties.

6. Neither Party may require, as a condition for determining that a mark is a well-known mark, that the mark has been registered in the territory of that Party or in another jurisdiction. Additionally, neither Party may deny remedies or relief with respect to well-known marks solely because of the lack of:

- (a) a registration;
- (b) inclusion on a list of well-known marks; or
- (c) prior recognition of the mark as well-known.

7. Article 6*bis* of the Paris Convention shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark,⁶ whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.

8. Each Party shall provide for appropriate measures to refuse or cancel the registration and prohibit the use of a trademark or geographical indication that is identical or similar to a well-known trademark, for related goods or services, if the use of that trademark or geographical indication is likely to cause confusion, or to cause mistake, or to deceive or risk associating the trademark or geographical indication with the owner of the well-known trademark, or constitutes unfair exploitation of the reputation of the well-known trademark.

9. Each Party shall provide a system for the registration of trademarks, which shall include:

⁶ For purposes of determining whether a mark is well-known, neither Party may require that the reputation of the trademark extend beyond the sector of the public that normally deals with the relevant goods or services.

- (a) a requirement to provide to the applicant a communication in writing, which may be provided electronically, of the reasons for a refusal to register a trademark;
 - (b) an opportunity for the applicant to respond to communications from the trademark authorities, to contest an initial refusal, and to appeal judicially a final refusal to register;
 - (c) an opportunity for interested parties to oppose a trademark application and to seek cancellation of a trademark after it has been registered; and
 - (d) a requirement that decisions in opposition and cancellation proceedings be reasoned and in writing. Written decisions may be provided electronically.
10. Each Party shall provide a:
- (a) system for the electronic application for, and electronic processing, registering, and maintenance of, trademarks; and
 - (b) publicly available electronic database, including an online database, of trademark applications and registrations.
11. Each Party shall provide that:
- (a) each registration and publication that concerns a trademark application or registration and that indicates goods or services shall indicate the goods or services by their names, grouped according to the classes of the classification established by the *Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks* (1979), as revised and amended (Nice Classification); and
 - (b) goods or services may not be considered as being similar to each other solely on the ground that, in any registration or publication, they appear in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other solely on the ground that, in any registration or publication, they appear in different classes of the Nice Classification.
12. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than ten years.
13. Neither Party may require recordation of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes.
14. If a Party provides the means to apply for protection or petition for recognition of geographical indications, through a system of protection of trademarks or otherwise, it shall, with respect to such applications and petitions (as relevant to the means chosen by the Party):

- (a) accept those applications and petitions without requiring intercession by a Party on behalf of its nationals;
 - (b) process those applications and petitions with a minimum of formalities;
 - (c) ensure that its regulations governing filing of those applications and petitions are readily available to the public and set out clearly the procedures for these actions;
 - (d) make available contact information sufficient to allow the general public to obtain guidance concerning the procedures for filing applications and petitions and the processing of those applications and petitions in general; and to allow applicants, petitioners, or their representatives to ascertain the status of, and to obtain procedural guidance concerning, specific applications and petitions; and
 - (e) ensure that applications and petitions for geographical indications are published for opposition, and provide procedures for opposing geographical indications that are the subject of applications or petitions. Each Party shall also provide procedures to cancel a registration resulting from an application or a petition.
15. (a) Each Party shall provide that each of the following shall be grounds for refusing protection or recognition of, and for opposition and cancellation of, a geographical indication:
- (i) the geographical indication is likely to cause confusion with a trademark that is the subject of a good faith pending application or registration in the Party's territory and that has a priority date that predates the protection or recognition of the geographical indication in that territory;
 - (ii) the geographical indication is likely to cause confusion with a trademark, the rights to which have been acquired in the Party's territory through use in good faith, that has a priority date that predates the protection or recognition of the geographical indication in that territory; and
 - (iii) the geographical indication is likely to cause confusion with a trademark that has become well known in the Party's territory and that has a priority date that predates the protection or recognition of the geographical indication in that territory.
- (b) For purposes of subparagraph (a), the date of protection of the geographical indication in a Party's territory shall be:
- (i) in the case of protection or recognition provided as a result of an application or petition, the date of the application or petition; and

- (ii) in the case of protection or recognition provided through other means, the date of protection or recognition under the Party's laws.

ARTICLE 18.3: DOMAIN NAMES ON THE INTERNET

1. In order to address the problem of trademark cyber-piracy, each Party shall require that the management of its country-code top-level domain (ccTLD) provide an appropriate procedure for the settlement of disputes, based on the principles established in the Uniform Domain-Name Dispute-Resolution Policy.

2. Each Party shall require that the management of its ccTLD provide online public access to a reliable and accurate database of contact information concerning domain-name registrants.

ARTICLE 18.4: COPYRIGHT AND RELATED RIGHTS

1. Each Party shall provide⁷ that authors, performers, and producers of phonograms⁸ have the right to authorize or prohibit⁹ all reproductions of their works, performances,¹⁰ and phonograms, in any manner or form, permanent or temporary (including temporary storage in electronic form).¹¹

2. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize or prohibit the making available to the public of the original and copies¹² of their works, performances, and phonograms through sale or other transfer of ownership.

3. In order to ensure that no hierarchy is established between rights of authors, on the one hand, and rights of performers and producers of phonograms, on the other hand, each Party shall provide that in cases where authorization is needed from both the author of a

⁷ The Parties reaffirm that it is a matter for each Party's law to prescribe that works and phonograms shall not be protected by copyright unless they have been fixed in some material form.

⁸ "Authors," "performers," and "producers of phonograms" in this Chapter refer also to any successors in title.

⁹ With respect to copyrights and related rights, the "right to authorize or prohibit" for purposes of this Chapter refers to exclusive rights.

¹⁰ With respect to copyright and related rights, a **performance** for purposes of this Chapter means a performance fixed in a phonogram unless otherwise specified.

¹¹ Each Party shall confine limitations or exceptions to the rights described in paragraph 1 to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder. For greater certainty, each Party may adopt or maintain limitations or exceptions to the rights described in paragraph 1 for fair use, as long as any such limitation or exception is confined as stated in the previous sentence.

¹² As used in paragraph 2, "copies" and "original and copies", being subject to the right of distribution in this paragraph, refer exclusively to fixed copies that can be put into circulation as tangible objects.

work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the author does not cease to exist because the authorization of the performer or producer is also required. Likewise, each Party shall provide that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the performer or producer does not cease to exist because the authorization of the author is also required.

4. Each Party shall provide that, where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:
 - (a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author's death; and
 - (b) on a basis other than the life of a natural person, the term shall be:
 - (i) not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram; or
 - (ii) failing such authorized publication within 25 years from the creation of the work, performance, or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.
5. Each Party shall apply Article 18 of the Berne Convention and Article 14.6 of the TRIPS Agreement, *mutatis mutandis*, to the subject matter, rights, and obligations in this Article and Articles 18.5 and 18.6.
6. Each Party shall provide that for copyright and related rights, any person acquiring or holding any economic right in a work, performance, or phonogram:
 - (a) may freely and separately transfer that right by contract; and
 - (b) by virtue of a contract, including contracts of employment underlying the creation of works, performances, and phonograms, shall be able to exercise that right in that person's own name and enjoy fully the benefits derived from that right.
7. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:
 - (i) knowingly, or having reasonable grounds to know, circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or

- (ii) manufactures, imports, distributes, offers to the public, provides, or otherwise traffics in devices, products, or components, or offers to the public or provides services, that:
 - (A) are promoted, advertised, or marketed by that person, or by another person acting in concert with, and with the knowledge of, that person, for the purpose of circumvention of any effective technological measure;
 - (B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure; or
 - (C) are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure,

shall be liable and subject to the remedies set out in Article 18.10.13.¹³ Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities. Such criminal procedures and penalties shall include the application to such activities of the remedies and authorities listed in subparagraphs (a), (b), and (e) of Article 18.10.27 as applicable to infringements, *mutatis mutandis*.

- (b) In implementing subparagraph (a), neither Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as the product does not otherwise violate any measures implementing subparagraph (a).
- (c) Each Party shall provide that a violation of a measure implementing this paragraph is a separate cause of action, independent of any infringement that might occur under the Party's law on copyright and related rights.

¹³ In addition, each Party shall provide that any person who, unknowingly and without reasonable grounds to know, circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter shall be liable and subject at least to the remedies set out in subparagraphs (a), (c), and (d) of Article 18.10.13.

- (d) Each Party shall confine exceptions and limitations to measures implementing subparagraph (a) to the following activities, which shall be applied to relevant measures in accordance with subparagraph (e).¹⁴
- (i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily available to the person engaged in those activities, for the sole purpose of achieving interoperability of an independently created computer program with other programs;
 - (ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, unfixed performance, or display of a work, performance, or phonogram and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of research consisting of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;
 - (iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate online content in a technology, product, service, or device that itself is not prohibited under the measures implementing subparagraph (a)(ii);
 - (iv) noninfringing good faith activities that are authorized by the owner of a computer, computer system, or computer network for the sole purpose of testing, investigating, or correcting the security of that computer, computer system, or computer network;
 - (v) noninfringing activities for the sole purpose of identifying and disabling a capability to carry out undisclosed collection or dissemination of personally identifying information reflecting the online activities of a natural person in a way that has no other effect on the ability of any person to gain access to any work;
 - (vi) lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, essential security, or similar governmental purposes;
 - (vii) access by a nonprofit library, archive, or educational institution to a work, performance, or phonogram not otherwise available to it, for the sole purpose of making acquisition decisions; and

¹⁴ Either Party may request consultations with the other Party to consider how to address, under subparagraph (d), activities of a similar nature that a Party identifies after the date this Agreement enters into force.

- (viii) noninfringing uses of a work, performance, or phonogram in a particular class of works, performances, or phonograms when an actual or likely adverse impact on those noninfringing uses is demonstrated in a legislative or administrative proceeding by substantial evidence, provided that any limitation or exception adopted in reliance on this clause shall have effect for a renewable period of not more than three years from the date the proceeding concludes.
- (e) The exceptions and limitations to measures implementing subparagraph (a) for the activities set forth in subparagraph (d) may only be applied as follows, and only to the extent that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:
 - (i) Measures implementing subparagraph (a)(i) may be subject to exceptions and limitations with respect to each activity set forth in subparagraph (d).
 - (ii) Measures implementing subparagraph (a)(ii), as they apply to effective technological measures that control access to a work, performance, or phonogram, may be subject to exceptions and limitations with respect to activities set forth in subparagraph (d)(i), (ii), (iii), (iv), and (vi).
 - (iii) Measures implementing subparagraph (a)(ii), as they apply to effective technological measures that protect any copyright or any rights related to copyright, may be subject to exceptions and limitations with respect to activities set forth in subparagraph (d)(i) and (vi).
- (f) **Effective technological measure** means any technology, device, or component that, in the normal course of its operation, controls access to a protected work, performance, phonogram, or other protected subject matter, or protects any copyright or any rights related to copyright.

8. In order to provide adequate and effective legal remedies to protect rights management information:

- (a) Each Party shall provide that any person who without authority, and knowing, or, with respect to civil remedies, having reasonable grounds to know, that it would induce, enable, facilitate, or conceal an infringement of any copyright or related right,
 - (i) knowingly removes or alters any rights management information;
 - (ii) distributes or imports for distribution rights management information knowing that the rights management information has been removed or altered without authority; or

- (iii) distributes, imports for distribution, broadcasts, communicates or makes available to the public copies of works, performances, or phonograms, knowing that rights management information has been removed or altered without authority,

shall be liable and subject to the remedies set out in Article 18.10.13. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities. These criminal procedures and penalties shall include the application to such activities of the remedies and authorities listed in subparagraphs (a), (b), and (e) of Article 18.10.27 as applicable to infringements, *mutatis mutandis*.

- (b) Each Party shall confine exceptions and limitations to measures implementing subparagraph (a) to lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, essential security, or similar governmental purposes.
- (c) **Rights management information** means:
 - (i) information that identifies a work, performance, or phonogram; the author of the work, the performer of the performance, or the producer of the phonogram; or the owner of any right in the work, performance, or phonogram;
 - (ii) information about the terms and conditions of the use of the work, performance, or phonogram; or
 - (iii) any numbers or codes that represent such information,when any of these items is attached to a copy of the work, performance, or phonogram or appears in connection with the communication or making available of a work, performance, or phonogram to the public.
- (d) For greater certainty, nothing in this paragraph shall be construed to obligate a Party to require the owner of any right in the work, performance, or phonogram to attach rights management information to copies of the work, performance, or phonogram, or to cause rights management information to appear in connection with a communication of the work, performance, or phonogram to the public.

9. Each Party shall provide appropriate laws, orders, regulations, government-issued guidelines, or administrative or executive decrees providing that its central government agencies not use infringing computer software and other materials protected by copyright or related rights and only use computer software and other materials protected by

copyright or related rights as authorized by the relevant license. These measures shall provide for the regulation of the acquisition and management of software and other materials for government use that are protected by copyright or related rights.

10. (a) With respect to this Article and Articles 18.5 and 18.6, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.
- (b) Notwithstanding subparagraph (a) and Article 18.6.3(b), neither Party may permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.¹⁵

ARTICLE 18.5: COPYRIGHT

Without prejudice to Articles 11(1)(ii), 11*bis*(1)(i) and (ii), 11*ter*(1)(ii), 14(1)(ii), and 14*bis* of the Berne Convention, each Party shall provide to authors the exclusive right to authorize or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

ARTICLE 18.6: RELATED RIGHTS

1. With respect to the rights accorded under this Chapter to performers and producers of phonograms, each Party shall:
 - (a) accord those rights to the performers and producers of phonograms who are nationals of the other Party; and
 - (b) accord those rights with respect to performances and phonograms that are first published or first fixed¹⁶ in the territory of the other Party.¹⁷
2. Each Party shall provide to performers the right to authorize or prohibit:
 - (a) the broadcasting and communication to the public of their unfixed performances, except where the performance is already a broadcast performance; and

¹⁵ For purposes of subparagraph (b) and for greater certainty, retransmission within a Party's territory over a closed, defined, subscriber network that is not accessible from outside the Party's territory does not constitute retransmission on the Internet.

¹⁶ For purposes of Article 18.6, "fixation" includes the finalization of the master tape or its equivalent.

¹⁷ With respect to the protection of phonograms, a Party may apply the criterion of fixation instead of the criterion of publication.

- (b) the fixation of their unfixed performances.
- 3.
 - (a) Each Party shall provide to performers and producers of phonograms the right to authorize or prohibit the broadcasting and any communication to the public of their performances or phonograms, by wire or wireless means, including the making available to the public of those performances and phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.
 - (b) Notwithstanding subparagraph (a) and Article 18.4.10, the application of this right to analog transmissions and free over-the-air broadcasts, and exceptions or limitations to this right for such activity, shall be a matter of each Party's law.
 - (c) Each Party may adopt limitations to this right in respect of other noninteractive transmissions in accordance with Article 18.4.10, provided that the limitations do not prejudice the right of the performer or producer of phonograms to obtain equitable remuneration.
- 4. Neither Party may subject the enjoyment and exercise of the rights of performers and producers of phonograms provided for in this Chapter to any formality.
- 5. For purposes of this Article and Article 18.4, the following definitions apply with respect to performers and producers of phonograms:
 - (a) **broadcasting** means the transmission to the public by wireless means or satellite of sounds or sounds and images, or representations thereof, including wireless transmission of encrypted signals where the means for decrypting are provided to the public by the broadcasting organization or with its consent; "broadcasting" does not include transmissions over computer networks or any transmissions where the time and place of reception may be individually chosen by members of the public;
 - (b) **communication to the public** of a performance or a phonogram means the transmission to the public by any medium, other than by broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram;
 - (c) **fixation** means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;
 - (d) **performers** means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;
 - (e) **phonogram** means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;

- (f) **producer of a phonogram** means the person who, or the legal entity which, takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds; and
- (g) **publication** of a performance or a phonogram means the offering of copies of the performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity.

ARTICLE 18.7: PROTECTION OF ENCRYPTED PROGRAM-CARRYING SATELLITE AND CABLE SIGNALS

1. Each Party shall make it a criminal offense:
 - (a) to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted program-carrying satellite or cable signal without the authorization of the lawful distributor of such signal; and
 - (b) willfully to receive and make use of,¹⁸ or further distribute, a program-carrying signal that originated as an encrypted satellite or cable signal knowing that it has been decoded without the authorization of the lawful distributor of the signal, or if the signal has been decoded with the authorization of the lawful distributor of the signal, willfully to further distribute the signal for purposes of commercial advantage knowing that the signal originated as an encrypted program-carrying signal and that such further distribution is without the authorization of the lawful signal distributor.
2. Each Party shall provide for civil remedies, including compensatory damages, for any person injured by any activity described in paragraph 1, including any person that holds an interest in the encrypted programming signal or its content.

ARTICLE 18.8: PATENTS

1. Each Party shall make patents available for any invention, whether a product or process, in all fields of technology, provided that the invention is new, involves an inventive step, and is capable of industrial application. In addition, each Party confirms that patents shall be available for any new uses or methods of using a known product.¹⁹
2. Each Party may only exclude from patentability:

¹⁸ For greater certainty, “make use of” includes viewing of the signal, whether private or commercial.

¹⁹ For purposes of Article 18.8, a Party may treat the terms “inventive step” and “capable of industrial application” as synonymous with the terms “non-obvious” and “useful” respectively.

- (a) inventions, the prevention within its territory of the commercial exploitation of which is necessary to protect *ordre public* or morality, including to protect human, animal, or plant life or health or to avoid serious prejudice to the environment, provided that such exclusion is not made merely because the exploitation is prohibited by its law; and
- (b) diagnostic, therapeutic, and surgical procedures for the treatment of humans or animals.

3. Each Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

4. Each Party shall provide that a patent may be revoked only on grounds that would have justified a refusal to grant the patent. A Party may also provide that fraud, misrepresentation, or inequitable conduct may be the basis for revoking a patent or holding a patent unenforceable. Where a Party provides proceedings that permit a third party to oppose the grant of a patent, the Party shall not make such proceedings available before the grant of the patent.

5. Consistent with paragraph 3, if a Party permits a third person to use the subject matter of a subsisting patent to generate information necessary to support an application for marketing approval of a pharmaceutical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in its territory other than for purposes related to generating such information to support an application for meeting marketing approval requirements of that Party, and if the Party permits exportation of such product, the Party shall provide that the product shall only be exported outside its territory for purposes of generating information to support an application for meeting marketing approval requirements of that Party.

- 6. (a) Each Party, at the request of the patent owner, shall adjust the term of a patent to compensate for unreasonable delays that occur in granting the patent. For purposes of this subparagraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than four years from the date of filing of the application in the territory of the Party, or three years after a request for examination of the application, whichever is later. Periods attributable to actions of the patent applicant need not be included in the determination of such delays.²⁰
- (b) With respect to patents covering a new pharmaceutical product²¹ that is approved for marketing in the territory of the Party and methods of making

²⁰ Notwithstanding Article 18.1.9, subparagraph (a) shall apply to all patent applications filed on or after January 1, 2008.

²¹ For greater certainty, **new pharmaceutical product** in subparagraph (b) means a product that at least contains a new chemical entity that has not been previously approved as a pharmaceutical product in the territory of the Party.

or using a new pharmaceutical product that is approved for marketing in the territory of the Party, each Party, at the request of the patent owner, shall make available an adjustment of the patent term or the term of the patent rights of a patent covering a new pharmaceutical product, its approved method of use, or a method of making the product to compensate the patent owner for unreasonable curtailment of the effective patent term as a result of the marketing approval process related to the first commercial use of that pharmaceutical product in the territory of that Party. Any adjustment under this subparagraph shall confer all of the exclusive rights, subject to the same limitations and exceptions, of the patent claims of the product, its method of use, or its method of manufacture in the originally issued patent as applicable to the product and the approved method of use of the product.²²

7. Each Party shall disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step if the public disclosure:

- (a) was made or authorized by, or derived from, the patent applicant, and
- (b) occurred within 12 months prior to the date of filing of the application in the territory of the Party.²³

8. Each Party shall provide patent applicants with at least one opportunity to make amendments, corrections, and observations in connection with their applications.

9. Each Party shall provide that a disclosure of a claimed invention shall be considered to be sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

10. Each Party shall provide that a claimed invention:

- (a) is sufficiently supported by its disclosure if the disclosure allows a person skilled in the art to extend the teaching therein to the entire scope of the claim, thereby showing that the applicant does not claim subject matter which the applicant had not recognized and described or possessed on the filing date; and
- (b) is industrially applicable if it has a specific, substantial, and credible utility.

11. The Parties shall endeavor to establish a framework for cooperation between their respective patent offices as a basis for progress towards the mutual exploitation of search and examination work.

²² For purposes of subparagraph (b), **effective patent term** means the period from the date of approval of the product until the original expiration date of the patent.

²³ Notwithstanding Article 18.1.9, paragraph 7 shall apply to all patent applications filed on or after January 1, 2008.

ARTICLE 18.9: MEASURES RELATED TO CERTAIN REGULATED PRODUCTS

1. (a) If a Party requires or permits, as a condition of granting marketing approval for a new pharmaceutical or new agricultural chemical product, the submission of information concerning safety or efficacy of the product, the origination of which involves a considerable effort, the Party shall not, without the consent of a person that previously submitted such safety or efficacy information to obtain marketing approval in the territory of the Party, authorize another to market a same or a similar product based on:
 - (i) the safety or efficacy information submitted in support of the marketing approval; or
 - (ii) evidence of the marketing approval,for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of marketing approval in the territory of the Party.
- (b) If a Party requires or permits, in connection with granting marketing approval for a new pharmaceutical or new agricultural chemical product, the submission of evidence concerning the safety or efficacy of a product that was previously approved in another territory, such as evidence of prior marketing approval in the other territory, the Party shall not, without the consent of a person that previously submitted the safety or efficacy information to obtain marketing approval in the other territory, authorize another to market a same or a similar product based on:
 - (i) the safety or efficacy information submitted in support of the prior marketing approval in the other territory; or
 - (ii) evidence of prior marketing approval in the other territory,for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of marketing approval of the new product in the territory of the Party.²⁴
- (c) For purposes of this Article, a **new pharmaceutical product** is one that does not contain a chemical entity that has been previously approved in the territory of the Party for use in a pharmaceutical product, and a **new agricultural chemical product** is one that contains a chemical entity that

²⁴ The Parties acknowledge that, as of the date of signature of this Agreement, neither Party permits a person, not having the consent of the person that previously submitted safety or efficacy information to obtain marketing approval in another territory, to market a same or similar product in the territory of the Party on the basis of such information or evidence of prior marketing approval in such other territory.

has not been previously approved in the territory of the Party for use in an agricultural chemical product.

2. (a) If a Party requires or permits, as a condition of granting marketing approval for a pharmaceutical product that includes a chemical entity that has been previously approved for marketing in another pharmaceutical product, the submission of new clinical information that is essential to the approval of the pharmaceutical product containing the previously approved chemical entity, other than information related to bioequivalency, the Party shall not, without the consent of a person that previously submitted such new clinical information to obtain marketing approval in the territory of the Party, authorize another to market a same or a similar product based on:

- (i) the new clinical information submitted in support of the marketing approval; or
- (ii) evidence of the marketing approval based on the new clinical information,

for at least three years from the date of marketing approval in the territory of the Party.

- (b) If a Party requires or permits, in connection with granting marketing approval for a pharmaceutical product of the type specified in subparagraph (a), the submission of evidence concerning new clinical information for a product that was previously approved based on that new clinical information in another territory, other than evidence of information related to bioequivalency, such as evidence of prior marketing approval based on the new clinical information, the Party shall not, without the consent of the person that previously submitted such new clinical information to obtain marketing approval in the other territory, authorize another to market a same or a similar product based on:

- (i) the new clinical information submitted in support of the prior marketing approval in the other territory; or
- (ii) evidence of prior marketing approval based on the new clinical information in the other territory,

for at least three years from the date of marketing approval based on the new clinical information in the territory of the Party.

- (c) If a Party requires or permits, as a condition of granting marketing approval for a new use, for an agricultural chemical product that has been previously approved in the territory of the Party, the submission of safety or efficacy information, the origination of which involves a considerable effort, the Party shall not, without the consent of a person that previously submitted such safety or efficacy information to obtain marketing approval

in the territory of the Party, authorize another to market a same or similar product for that use based on:

- (i) the submitted safety or efficacy information; or
- (ii) evidence of the marketing approval for that use,

for at least ten years from the date of the original marketing approval of the agricultural chemical product in the territory of the Party.

- (d) If a Party requires or permits, in connection with granting marketing approval for a new use, for an agricultural chemical product that has been previously approved in the territory of the Party, the submission of evidence concerning the safety or efficacy of a product that was previously approved in another territory for that new use, such as evidence of prior marketing approval for that new use, the Party shall not, without the consent of the person that previously submitted the safety or efficacy information to obtain marketing approval in the other territory, authorize another to market a same or a similar product based on:

- (i) the safety or efficacy information submitted in support of the prior marketing approval for that use in the other territory; or
- (ii) evidence of prior marketing approval in another territory for that new use,

for at least ten years from the date of the original marketing approval granted in the territory of the Party.

3. With respect to pharmaceutical products, notwithstanding paragraphs 1 and 2, a Party may take measures to protect public health in accordance with:

- (a) the *Declaration on the TRIPS Agreement and Public Health* (WT/MIN(01)/DEC/2) (the Declaration);
- (b) any waiver of any provision of the TRIPS Agreement granted by WTO Members in accordance with the WTO Agreement to implement the Declaration and in force between the Parties; and
- (c) any amendment of the TRIPS Agreement to implement the Declaration that enters into force with respect to the Parties.

4. Subject to paragraph 3, when a product is subject to a system of marketing approval in the territory of a Party in accordance with paragraph 1 or 2 and is also covered by a patent in that territory, the Party may not alter the term of protection that it provides in accordance with those paragraphs in the event that the patent protection terminates on a date earlier than the end of the term of protection specified in those paragraphs.

5. Where a Party permits, as a condition of approving the marketing of a pharmaceutical product, persons, other than the person originally submitting safety or efficacy information, to rely on that information or on evidence of safety or efficacy information of a product that was previously approved, such as evidence of prior marketing approval in the territory of the Party or in another territory, that Party shall:

- (a) provide that the patent owner shall be notified of the identity of any such other person that requests marketing approval to enter the market during the term of a patent notified to the approving authority as covering that product or its approved method of use; and
- (b) implement measures in its marketing approval process to prevent such other persons from marketing a product without the consent or acquiescence of the patent owner during the term of a patent notified to the approving authority as covering that product or its approved method of use.

ARTICLE 18.10: ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS

General Obligations

1. Each Party shall provide that final judicial decisions and administrative rulings of general application pertaining to the enforcement of intellectual property rights be in writing and state any relevant findings of fact and the reasoning or the legal basis on which the decisions and rulings are based. Each Party shall also provide that those decisions and rulings be published²⁵ or, where publication is not practicable, otherwise made available to the public, in its national language in such a manner as to enable governments and right holders to become acquainted with them.

2. Each Party shall publicize information on its efforts to provide effective enforcement of intellectual property rights in its civil, administrative, and criminal systems, including any statistical information that the Party may collect for such purposes.²⁶

3. In civil, administrative, and criminal proceedings involving copyright or related rights, each Party shall provide for a presumption that, in the absence of proof to the contrary, the person whose name is indicated as the author, producer, performer, or publisher of the work, performance, or phonogram in the usual manner is the designated right holder in such work, performance, or phonogram. Each Party shall also provide for a presumption that, in the absence of proof to the contrary, the copyright or related right subsists in such subject matter. In civil, administrative, and criminal proceedings involving trademarks, each Party shall provide for a rebuttable presumption that a registered trademark is valid. In civil and administrative proceedings involving patents, each Party shall provide for a rebuttable presumption that a patent is valid, and shall

²⁵ A Party may satisfy the publication requirement in paragraph 1 by making the decision or ruling available to the public on the Internet.

²⁶ For greater certainty, nothing in paragraph 2 is intended to prescribe the type, format, and method of publication of the information a Party must publicize.

provide that each claim of a patent is presumed valid independently of the validity of the other claims.

Civil and Administrative Procedures and Remedies

4. Each Party shall make available to right holders²⁷ civil judicial procedures concerning the enforcement of any intellectual property right.
5. Each Party shall provide that:
 - (a) in civil judicial proceedings, its judicial authorities shall have the authority to order the infringer to pay the right holder:
 - (i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement;²⁸ or
 - (ii) at least in the case of copyright or related rights infringement and trademark counterfeiting, the profits of the infringer that are attributable to the infringement, which may be presumed to be the amount of damages referred to in clause (i); and
 - (b) in determining damages for infringement of intellectual property rights, its judicial authorities shall consider, *inter alia*, the value of the infringed good or service, measured by the market price, the suggested retail price, or other legitimate measure of value submitted by the right holder.
6. In civil judicial proceedings, each Party shall, at least with respect to works, phonograms, and performances protected by copyright or related rights, and in cases of trademark counterfeiting, establish or maintain pre-established damages, which shall be available on the election of the right holder. Pre-established damages shall be in an amount sufficient to constitute a deterrent to future infringements and to compensate fully the right holder for the harm caused by the infringement.²⁹
7. Each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning copyright or related rights infringement, patent infringement, or trademark infringement, that the prevailing party shall be awarded payment by the losing party of court costs or fees and, at least in proceedings concerning copyright or related rights infringement or willful trademark counterfeiting, reasonable attorney's fees.

²⁷ For purposes of Article 18.10, "right holder" includes a federation or an association having the legal standing and authority to assert such rights, and also includes a person that exclusively has any one or more of the intellectual property rights encompassed in a given intellectual property.

²⁸ In the case of patent infringement, damages adequate to compensate for the infringement shall not be less than a reasonable royalty.

²⁹ Neither Party is required to apply paragraph 6 to actions for infringement against a Party or a third party acting with the authorization or consent of a Party.

Further, each Party shall provide that its judicial authorities, at least in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning patent infringement, that the prevailing party shall be awarded payment by the losing party of reasonable attorneys' fees.

8. In civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of allegedly infringing goods, materials, and implements relevant to the act of infringement, and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

9. Each Party shall provide that:

- (a) in civil judicial proceedings, at the right holder's request, goods that have been found to be pirated or counterfeit shall be destroyed, except in exceptional circumstances;
- (b) its judicial authorities shall have the authority to order that materials and implements that have been used in the manufacture or creation of such pirated or counterfeit goods be, without compensation of any sort, promptly destroyed or, in exceptional circumstances, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements; and
- (c) in regard to counterfeit trademarked goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of goods into the channels of commerce.

10. Each Party shall provide that in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to provide, for the purpose of collecting evidence, any information that the infringer possesses or controls regarding any person or persons involved in any aspect of the infringement and regarding the means of production or distribution channel of such goods or services, including the identification of third persons involved in the production and distribution of the infringing goods or services or in their channels of distribution, and to provide this information to the right holder or the judicial authorities.

11. Each Party shall provide that its judicial authorities have the authority to:

- (a) fine, detain, or imprison, in appropriate cases, a party to a civil judicial proceeding who fails to abide by valid orders issued by such authorities; and
- (b) impose sanctions on parties to a civil judicial proceeding, their counsel, experts, or other persons subject to the court's jurisdiction, for violation of judicial orders regarding the protection of confidential information produced or exchanged in a proceeding.

12. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those set out in this Chapter.

13. In civil judicial proceedings concerning the acts described in paragraphs 7 and 8 of Article 18.4, each Party shall provide that its judicial authorities shall, at the least, have the authority to:

- (a) impose provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;
- (b) provide an opportunity for the right holder to elect award of either actual damages it suffered or pre-established damages;
- (c) order payment to the prevailing right holder at the conclusion of civil judicial proceedings of court costs and fees, and reasonable attorney's fees, by the party engaged in the prohibited conduct; and
- (d) order the destruction of devices and products found to be involved in the prohibited activity.

Neither Party may make damages available under this paragraph against a nonprofit library, archives, educational institution, or public noncommercial broadcasting entity that sustains the burden of proving that it was not aware and had no reason to believe that its acts constituted a prohibited activity.

14. In civil judicial proceedings concerning the enforcement of intellectual property rights, each Party shall provide that its judicial authorities shall have the authority to order a party to desist from an infringement, in order, *inter alia*, to prevent infringing imports from entering the channels of commerce and to prevent their exportation.

15. In the event that a Party's judicial or other competent authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties to the litigation bear the costs of such experts, the Party should seek to ensure that such costs are closely related, *inter alia*, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

Alternative Dispute Resolution

16. Each Party may permit use of alternative dispute resolution procedures to resolve civil disputes concerning intellectual property rights.

Provisional Measures

17. Each Party shall act on requests for provisional measures *inaudita altera parte* expeditiously.

18. Each Party shall provide that its judicial authorities have the authority to require the plaintiff, with respect to provisional measures, to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff's right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.

Special Requirements Related to Border Measures

19. Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods³⁰ into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the laws of the country of importation, there is *prima facie* an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods reasonably recognizable by its competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures. Each Party shall provide that the application to suspend the release of goods shall apply to all points of entry to its territory and remain applicable for a period of not less than one year from the date of application, or the period that the good is protected by copyright or that the relevant trademark registration is valid, whichever is shorter.

20. Each Party shall provide that its competent authorities shall have the authority to require a right holder initiating procedures to suspend the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods, to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that the security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party may provide that the security may be in the form of a bond conditioned to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good. In no case shall an importer be permitted to post a bond or other security to obtain possession of suspected counterfeit or confusingly similar trademark goods, or of pirated copyright goods.

³⁰ For purposes of paragraphs 19 through 25:

(a) **counterfeit trademark goods** means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

(b) **pirated copyright goods** means any goods that are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and that are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

21. Where its competent authorities have seized goods that are counterfeit or pirated, a Party shall inform the right holder within 30 days of the seizure of the names and addresses of the consignor, importer, exporter, or consignee, and provide to the right holder a description of the merchandise, the quantity of the merchandise, and, if known, the country of origin of the merchandise.

22. Each Party shall provide that its competent authorities may initiate border measures *ex officio*³¹ with respect to imported, exported, or in-transit merchandise,³² or merchandise in free trade zones, that is suspected of being counterfeit or confusingly similar trademark goods, or pirated copyright goods.

23. Each Party shall provide that goods that have been suspended from release by its customs authorities, and that have been forfeited as pirated or counterfeit, shall be destroyed, except in exceptional circumstances. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized, except in exceptional circumstances, to permit the exportation of counterfeit or pirated goods or to permit such goods to be subject to other customs procedures.

24. Where an application fee or merchandise storage fee is assessed in connection with border measures to enforce an intellectual property right, each Party shall provide that the fee shall not be set at an amount that unreasonably deters recourse to these measures.

25. Each Party shall provide the other Party, on mutually agreed terms, with technical advice on the enforcement of border measures concerning intellectual property rights, and the Parties shall promote bilateral and regional cooperation on these matters.

Criminal Procedures and Remedies

26. Each Party shall provide for criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a commercial scale. Willful copyright or related rights piracy on a commercial scale includes:

- (a) significant willful copyright or related rights infringements that have no direct or indirect motivation of financial gain; and
- (b) willful infringements for purposes of commercial advantage or private financial gain.³³

³¹ For greater certainty, the Parties understand that *ex officio* action does not require a formal complaint from a private party or right holder.

³² For purposes of paragraph 22, **in-transit merchandise** means goods under “Customs transit” and goods “transshipped,” as defined in the *International Convention on the Simplification and Harmonization of Customs Procedures* (Kyoto Convention).

³³ For purposes of paragraph 26 and Articles 18.4.7(a), 18.4.8(a), and 18.10.27 and for greater certainty, “financial gain” includes the receipt or expectation of anything of value.

Each Party shall treat willful importation or exportation of counterfeit or pirated goods as unlawful activities subject to criminal penalties.³⁴

27. Further to paragraph 26, each Party shall provide:

- (a) penalties that include sentences of imprisonment as well as monetary fines sufficient to provide a deterrent to future infringements, consistent with a policy of removing the infringer's monetary incentive. Each Party shall further encourage judicial authorities to impose those penalties at levels sufficient to provide a deterrent to future infringements, including the imposition of actual terms of imprisonment when criminal infringement occurs for purposes of commercial advantage or private financial gain;
- (b) that its judicial authorities shall have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements used in the commission of the offense, any documentary evidence relevant to the offense, and any assets traceable to the infringing activity. Each Party shall provide that such orders need not individually identify the items that are subject to seizure, so long as they fall within general categories specified in the order;
- (c) that its judicial authorities shall have the authority to order, among other measures, the forfeiture of any assets traceable to the infringing activity;
- (d) that its judicial authorities shall, except in exceptional cases, order
 - (i) the forfeiture and destruction of all counterfeit or pirated goods, and any articles consisting of a counterfeit mark; and
 - (ii) the forfeiture and/or destruction of materials and implements that have been used in the creation of pirated or counterfeit goods.

Each Party shall further provide that forfeiture and destruction under this subparagraph and subparagraph (c) shall occur without compensation of any kind to the defendant;

- (e) that, in criminal cases, its judicial or other competent authorities shall keep an inventory of goods and other material proposed to be destroyed, and shall have the authority temporarily to exempt these materials from the destruction order to facilitate the preservation of evidence on notice by the right holder that it wishes to bring a civil or administrative case for damages; and

³⁴ A Party may comply with the obligation in paragraph 26 in relation to exportation of pirated goods through its measures concerning distribution.

- (f) that its authorities may initiate legal action *ex officio* with respect to the offenses described in this Chapter, without the need for a formal complaint by a private party or right holder.

28. Each Party shall also provide for criminal procedures and penalties to be applied, even absent willful trademark counterfeiting or copyright piracy, at least in cases of knowing trafficking in:

- (a) counterfeit labels or illicit labels affixed to, enclosing, or accompanying, or designed to be affixed to, enclose, or accompany: a phonogram, a copy of a computer program or other literary work, a copy of a motion picture or other audiovisual work, or documentation or packaging for such items; and
- (b) counterfeit documentation or packaging for items of the type described in subparagraph (a).

29. Each Party shall also provide for criminal procedures to be applied against any person who, without authorization of the holder of copyright or related rights in a motion picture or other audiovisual work, knowingly uses or attempts to use an audiovisual recording device to transmit or make a copy of the motion picture or other audiovisual work, or any part thereof, from a performance of the motion picture or other audiovisual work in a public motion picture exhibition facility.

Liability for Service Providers and Limitations

30. For the purpose of providing enforcement procedures that permit effective action against any act of copyright infringement covered by this Chapter, including expeditious remedies to prevent infringements and criminal and civil remedies that constitute a deterrent to further infringements, each Party shall provide, consistent with the framework set out in this Article:

- (a) legal incentives for service providers to cooperate with copyright³⁵ owners in deterring the unauthorized storage and transmission of copyrighted materials; and
- (b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate, or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set forth in this subparagraph (b).³⁶
 - (i) These limitations shall preclude monetary relief and provide reasonable restrictions on court-ordered relief to compel or restrain

³⁵ For purposes of paragraph 30, “copyright” includes related rights.

³⁶ Subparagraph (b) is without prejudice to the availability of defenses to copyright infringement that are of general applicability.

certain actions for the following functions, and shall be confined to those functions:³⁷

- (A) transmitting, routing, or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;
 - (B) caching carried out through an automatic process;
 - (C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and
 - (D) referring or linking users to an online location by using information location tools, including hyperlinks and directories.
- (ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material, and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).
 - (iii) Qualification by a service provider for the limitations as to each function in clauses (i)(A) through (D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in clauses (iv) through (vii).
 - (iv) With respect to functions referred to in clause (i)(B), the limitations shall be conditioned on the service provider:
 - (A) permitting access to cached material in significant part only to users of its system or network who have met conditions on user access to that material;
 - (B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making the material available online in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available;
 - (C) not interfering with technology consistent with industry standards accepted in the Party's territory used at the

originating site to obtain information about the use of the material, and not modifying its content in transmission to subsequent users; and

- (D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.
- (v) With respect to functions referred to in clauses (i)(C) and (D), the limitations shall be conditioned on the service provider:
- (A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;
 - (B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with clause (ix); and
 - (C) publicly designating a representative to receive such notifications.
- (vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:
- (A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and
 - (B) accommodating and not interfering with standard technical measures accepted in the Party's territory that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.
- (vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.
- (viii) If the service provider qualifies for the limitations with respect to the function referred to in clause (i)(A), court-ordered relief to

compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic online location. If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary, provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy and whether less burdensome, comparably effective enforcement methods are available. Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service provider's communications network, each Party shall provide that such relief shall be available only where the service provider has received notice of the court order proceedings referred to in this subparagraph and an opportunity to appear before the judicial authority.

- (ix) For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate procedures in its law or in regulations for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.
- (x) If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material online unless the person giving the original effective notification seeks judicial relief within a reasonable time.
- (xi) Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service

provider information in its possession identifying the alleged infringer.

- (xii) For purposes of the function referred to in clause (i)(A), **service provider** means a provider of transmission, routing, or connections for digital online communications without modification of their content between or among points specified by the user of material of the user's choosing, and for purposes of the functions referred to in clauses (i)(B) through (D) **service provider** means a provider or operator of facilities for online services or network access.

ARTICLE 18.11: UNDERSTANDINGS REGARDING CERTAIN PUBLIC HEALTH MEASURES

1. The Parties affirm their commitment to the *Declaration on the TRIPS Agreement and Public Health* (WT/MIN(01)/DEC/2).
2. The Parties have reached the following understandings regarding this Chapter:
 - (a) The obligations of this Chapter do not and should not prevent a Party from taking measures to protect public health by promoting access to medicines for all, in particular concerning cases such as HIV/AIDS, tuberculosis, malaria, and other epidemics as well as circumstances of extreme urgency or national emergency. Accordingly, while reiterating their commitment to this Chapter, the Parties affirm that this Chapter can and should be interpreted and implemented in a manner supportive of each Party's right to protect public health and, in particular, to promote access to medicines for all.
 - (b) In recognition of the commitment to access to medicines that are supplied in accordance with the Decision of the General Council of 30 August 2003 on the Implementation of Paragraph Six of the Doha Declaration on the TRIPS Agreement and Public Health (WT/L/540) and the WTO General Council Chairman's statement accompanying the Decision (JOB(03)/177, WT/GC/M/82) (collectively, the "TRIPS/health solution"), this Chapter does not and should not prevent the effective utilization of the TRIPS/health solution.
 - (c) With respect to the aforementioned matters, if an amendment of the TRIPS Agreement enters into force with respect to the Parties and a Party's application of a measure in conformity with that amendment violates this Chapter, the Parties shall immediately consult in order to adapt this Chapter as appropriate in the light of the amendment.

ARTICLE 18.12: TRANSITIONAL PROVISIONS

1. Each Party shall give effect to this Chapter on the date this Agreement enters into force.

2. Notwithstanding paragraph 1, Korea shall fully implement the obligations of Article 18.4.4 within two years after the date this Agreement enters into force.

 7. The signature of the person giving notification.⁶
- (b) Effective Written Counter-Notification by a Subscriber⁷ Whose Material was Removed or Disabled as a Result of Mistake or Misidentification of Material

13. A statement that the subscriber will accept service of process in any such suit; and
14. The signature of the subscriber.⁸

Dear Ambassador Schwab:

I have the honor to confirm the following understanding reached between the delegations of the Republic of Korea and the United States of America during the course of negotiations regarding Chapter Eighteen (Intellectual Property Rights) of the Free Trade Agreement between our two Governments signed this day:

The Parties recognize the importance of preventing illegal copying and distribution of copyrighted works on university campuses and providing effective enforcement against book piracy. Therefore, consistent with Korea's May 2004 Master Plan for Intellectual Property Rights, Korea agrees to continue to increase its efforts to improve awareness of copyright infringement activities and book piracy on university campuses and reduce illegal reproduction and distribution of copyrighted works. In furtherance thereof, Korea agrees to take the following actions as soon as possible, but no later than six months after the date this Agreement enters into force:

- 1) continue to implement policies that work to promote the use of legitimate materials by students, lecturers, bookstores, and photocopy shops on university campuses, and develop and implement further such policies, if necessary. Within this framework, seek cooperation and information from all universities, and consider the need for follow-up action;
- 2) enhance training activities in the territory of Korea on book-piracy enforcement, thereby raising awareness among enforcement personnel of illegal book printing activities as well as commercial scale operations of illegal reproductions of copyrighted works;
- 3) enhance enforcement activities with respect to underground book piracy operations; and
- 4) develop and pursue public education campaigns to raise general awareness in the public sector of illegal book printing activities as well as commercial scale operations of illegal reproductions of copyrighted works.

I have the honor to propose that this letter and your letter in reply confirming that your Government shares this understanding shall constitute an integral part of the Free Trade Agreement.

Sincerely,

Dear Ambassador Schwab:

I have the honor to confirm the following understanding reached between the delegations of the Republic of Korea and the United States of America during the course of negotiations regarding Chapter Eighteen (Intellectual Property Rights) of the Free Trade Agreement between our two Governments signed this day:

The Parties agree on the objective of shutting down Internet sites that permit the unauthorized reproduction, distribution, or transmission of copyright works, of regularly assessing and actively seeking to reduce the impact of new technological means for committing online copyright piracy, and of providing generally for more effective enforcement of intellectual property rights on the Internet. Korea agrees that internet piracy of works and other subject matter protected by copyright¹ (including unauthorized reproduction and distribution of such works and other subject matter on the Internet) is a matter of priority for law enforcement of intellectual property rights. Korea also agrees on the objective of shutting down Internet sites that permit the unauthorized downloading (and other forms of piracy) of copyright works, including so-called webhard services, and providing for more effective enforcement of intellectual property rights on the Internet, including in particular with regard to peer-to-peer (P2P) services. To this end, Korea will strengthen enforcement of intellectual property rights in Korea, and work to prevent, investigate, and prosecute Internet piracy. As part of this effort, Korea will work with the private sector and with the United States and other foreign authorities.

In furtherance thereof, Korea agrees to issue as soon as possible, but no later than six months after the date the Agreement enters into force, a policy directive establishing clear jurisdiction for a division or joint investigation team to engage in effective enforcement against online piracy. This team will investigate and initiate criminal actions to address online piracy, including with respect to U.S. and other foreign works, whether ex officio or at the request of a right holder. The team will take these actions in a manner that is transparent to right holders. In addition to prosecuting direct infringers, Korea agrees to prosecute individuals and companies that profit from developing and maintaining services that effectively induce infringement.

¹ For purposes of this letter, "copyright" also includes related rights.

I have the honor to propose that this letter and your letter in reply confirming that your Government shares this understanding shall constitute an integral part of the Free Trade Agreement.

Sincerely,

³ For greater certainty, a Party retains the right to exercise reasonable enforcement discretion and to make *bona fide* decisions regarding the allocation of enforcement resources with respect to labor laws other than those relating to fundamental rights enumerated in Article 19.2.1.

3. Each Party shall provide that parties to such proceedings may seek remedies to ensure the enforcement of their rights under its labor laws.
4. Each Party shall promote public awareness of its labor laws, including by:
 - (a) ensuring that information related to its labor laws and enforcement and compliance procedures is publicly available; and
 - (b) encouraging education of the public regarding its labor laws.

ARTICLE 19.5: INSTITUTIONAL ARRANGEMENTS

1. The Parties hereby establish a Labor Affairs Council. The Council shall comprise appropriate senior officials from the labor ministry and other appropriate agencies or ministries of each Party.
2. The Council shall meet within the first year after the date this Agreement enters into force, and thereafter as necessary, to oversee the implementation of this Chapter, including activities of the Labor Cooperation Mechanism established under Article 19.6. Unless the Parties otherwise agree, each meeting of the Council shall include a session in which members of the Council have an opportunity to meet with the public to discuss matters related to the implementation of this Chapter.
3. Each Party shall designate an office within its labor ministry that shall serve as a contact point with the other Party and with the public for purposes of implementing this Chapter. Each Party's contact point shall provide for the submission, receipt, and consideration of communications from persons of a Party on matters related to this Chapter and shall make such communications available to the other Party and the public. Each Party shall review such communications, as appropriate, in accordance with domestic procedures.

5. Formal decisions of the Council shall be made public, unless the Council decides otherwise.
6. The Council may prepare reports on matters related to the implementation of this Chapter and shall make such reports public.

common commitments regarding labor matters, the Parties hereby establish a Labor Cooperation Mechanism, as set out in Annex 19-A.

ARTICLE 19.7: LABOR CONSULTATIONS

1. A Party may request consultations with the other Party regarding any matter arising under this Chapter by delivering a written request to the contact point the other Party has designated under Article 19.5.3. The request shall contain information that is specific and sufficient to enable the Party receiving the request to respond. 2. The Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter and may seek advice or assistance from any person or body they consider appropriate.
3. If the consultations fail to resolve the matter, either Party may request that the Council be convened to consider the matter by delivering a written request to the contact point of the other Party. The Honorable Hyun Chong Kim
Minister for Trade
Seoul, Republic of Korea

Dear Minister Kim:

I have the honor to confirm the following understanding reached between the delegations of the United States of America and the Republic of Korea during the course of negotiations regarding Article 19.5.3 (Institutional Arrangements) of Chapter Nineteen (Labor) of the Free Trade Agreement between our two Governments signed this day:

For greater certainty:

Each Party may establish appropriate procedures, consistent with Article 19.5.3, for reviewing communications from persons of a Party on matters related to Chapter Nineteen. Article 19.5.3 does not require a Party to establish new procedures that duplicate existing channels for reviewing such communications. A Party may limit the scope of any new procedures it establishes to comply with Article 19.5.3 to communications on labor matters in the other Party's territory, provided that the Party has other procedures in place for reviewing communications on other matters related to Chapter Nineteen.

The Parties recognize that it is in their mutual interest not to pursue frivolous or meritless communications and for each Party to take into account when reviewing any communication whether: (1) the person submitting the communication or any other person has sought relief regarding the matter under pertinent domestic laws of the other Party; (2) the matter is pending before an international body; and (3) the communication is substantially similar to another recent communication regarding the matter.

I have the honor to propose that this letter and your letter in reply confirming that your Government shares this understanding shall constitute an integral part of the Free Trade Agreement.

Sincerely,

ARTICLE 20.2: ENVIRONMENTAL AGREEMENTS

A Party shall adopt, maintain, and implement laws, regulations, and all other measures to fulfill its obligations under the multilateral environmental agreements listed in Annex 20-A (“covered agreements”).^{1 2}

2. The Parties recognize that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in its environmental laws. Accordingly, neither Party shall waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces the protections afforded in those laws in a manner affecting trade or investment between the Parties.

3. Paragraph 2 shall not apply where a Party waives or derogates from an environmental law pursuant to a provision in its environmental law providing for waivers or derogations, provided that the waiver or derogation is not inconsistent with the Party's obligations under a covered agreement.

4. For greater certainty, nothing in this Chapter shall be construed to empower a Party's authorities to undertake environmental law enforcement activities in the territory of the other Party.

ARTICLE 20.4: PROCEDURAL MATTERS

1. Each Party shall ensure that interested persons may request the Party's competent authorities to investigate alleged violations of its environmental laws and shall give such requests due consideration, in accordance with its law.

2. Each Party shall ensure that judicial, quasi-judicial, or administrative proceedings are available under its law to provide sanctions or remedies for violations of its environmental laws and that persons with a recognized interest under its law in a particular matter have appropriate access to such proceedings.

- (a) Each Party shall ensure in accordance with its law that such proceedings:

4. Each Party shall provide appropriate and effective sanctions or remedies for violations of its environmental laws that:
- (a) take into consideration, as appropriate, the nature and gravity of the violation, any economic benefit the violator has derived from the violation, the economic condition of the violator, and other relevant factors; and

ARTICLE 20.5: MECHANISMS TO ENHANCE ENVIRONMENTAL PERFORMANCE

1. The Parties recognize that flexible, voluntary, and incentive-based mechanisms can contribute to the achievement and maintenance of high levels of environmental protection, complementing the procedures set out in Article 20.4. As appropriate and in accordance with its law, each Party shall encourage the development and use of such mechanisms, which may include:

- (a) mechanisms that facilitate voluntary action to protect or enhance the environment, such as:
 - (i) partnerships involving businesses, local communities, non-governmental organizations, government agencies, or scientific organizations;
 - (ii) voluntary guidelines for environmental performance; or

Unless the Parties otherwise agree, the contingent list shall include at least six nationals of each Party and at least eight individuals who are not nationals of either Party. An individual on the contingent list shall be appointed by agreement of the Parties for a minimum term of three years, and shall remain on the list until the individual is replaced or is unable to serve. The Parties shall review the contingent list every three years and may replace individuals on the list as appropriate. The Parties may also appoint a replacement where a member of the contingent list is no longer available to serve.

4. Individuals appointed to a panel pursuant to paragraph 2 or to the contingent list pursuant to paragraph 3 shall:

- (a) be chosen strictly on the basis of objectivity, reliability, and sound judgment;
- (b) have expertise or experience in law, international trade, or the resolution of disputes arising under international trade agreements;
- (c) be independent of, and not be affiliated with or take instructions from, either Party; and
- (d) comply with a code of conduct to be established by the Joint Committee.

In addition, in any dispute arising under Chapter Nineteen (Labor) or Twenty

⁴ If a panelist selected by lot under subparagraph (b) or (e) is unable to serve on the panel, the Parties shall meet within seven days of learning that the panelist is unavailable to select another panelist by lot from among the remaining members of the contingent list who are nationals of the relevant Party (in the case of subparagraph (b)) or not nationals of either Party (in the case of subparagraph (e)). If a panelist becomes unable to serve during the course of the proceeding or when the panel is reconvened pursuant to Article 22.13 or 22.14, then within seven days of learning that the panelist is unavailable, the relevant Party shall select a replacement panelist from the contingent list or, in the case of the chair, the Parties shall meet to select a replacement chair by lot from among the members of the contingent list who are not nationals of either Party.

(Environment), panelists other than those chosen by lot from the contingent list shall have expertise or experience relevant to the subject matter under dispute. Paragraph 2(c) shall not apply to disputes arising under Chapter Nineteen or Twenty.

ARTICLE 22.10: RULES OF PROCEDURE

1. By the date this Agreement enters into force, the Parties shall establish model rules of procedure, which shall ensure:

- (a) a right to at least one hearing before the panel;
- (b) that, subject to subparagraph (f), any hearing before the panel shall be open to the public;
- (c) an opportunity for each Party to provide initial and rebuttal submissions;
- (d) that each Party's written submissions, written versions of its oral statements, and written responses to a request or questions from the panel shall be made available to the public within seven days after they are submitted, subject to subparagraph (f);
- (e) that the panel shall consider requests from non-governmental entities located in the Parties' territories to provide written views regarding the dispute that may assist the panel in evaluating the submissions and arguments of the Parties; and
- (f) the protection of confidential information.

2. Unless the Parties otherwise agree, the panel shall follow the model rules of procedure and may, after consulting with the Parties, adopt additional rules of procedure not inconsistent with the model rules.

3. Unless the Parties otherwise agree within 20 days from the date of the delivery of the request for the establishment of the panel, the panel's terms of reference shall be:

“To examine, in the light of the relevant provisions of this Agreement, the matter referenced in the request for the establishment of the panel, to make findings, determinations, and recommendations as provided in paragraphs 1 and 2 of Article 22.11, and to present the written reports referred to in paragraphs 1 and 4 of Article 22.11.”

4. On request of a Party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate, provided that the Parties so agree and subject to such terms and conditions as the Parties may agree.

ARTICLE 22.11: PANEL REPORT

1. Unless the Parties otherwise agree, the panel shall, within 180 days after the chair is appointed, present to the Parties an initial report containing findings of fact and its determination as to:

- (a) (i) whether the measure at issue is inconsistent with the obligations of this Agreement;
- (ii) whether a Party has otherwise failed to carry out its obligations under this Agreement; or
- (iii) whether the measure at issue is causing nullification or impairment in the sense of Article 22.4(c); and
- (b) any other matter that the Parties have jointly requested that the Panel address,

as well as the reasons for its findings and determinations.

2. The panel shall base its report on the relevant provisions of this Agreement and the submissions and arguments of the Parties. The panel shall consider this Agreement in accordance with customary rules of interpretation of public international law, which are reflected in Articles 31 through 33 of the *Vienna Convention on the Law of Treaties* (1969). The panel may, at the request of the Parties, make recommendations for the resolution of the dispute.

3. Each Party may submit written comments to the panel on its initial report within 14 days of the presentation of the report. After considering any written comments by the Parties on the initial report, the panel may modify its report and make any further examination it considers appropriate.

4. The panel shall present a final report to the Parties within 45 days of presentation of the initial report, unless the Parties otherwise agree. The Parties shall make the final report available to the public within 15 days thereafter, subject to the protection of confidential information.

ARTICLE 22.12: IMPLEMENTATION OF THE FINAL REPORT

1. On receipt of the final report of a panel, the Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.

2. If, in its final report, the panel determines that a Party has not conformed with its obligations under this Agreement or that a Party's measure is causing nullification or impairment in the sense of Article 22.4(c), the resolution, whenever possible, shall be to eliminate the non-conformity or the nullification or impairment.

ARTICLE 22.13: NON-IMPLEMENTATION

1. If a panel has made a determination of the type described in Article 22.12.2, and the Parties are unable to reach agreement on a resolution pursuant to Article 22.12.1 within 45 days of receiving the final report, or such other period as the Parties agree, the Party complained against shall enter into negotiations with the complaining Party with a view to developing mutually acceptable compensation.

2. If the Parties:
 - (a) are unable to agree on compensation within 30 days after the period for developing such compensation has begun; or
 - (b) have agreed on compensation or on a resolution pursuant to Article 22.12.1 and the complaining Party considers that the Party complained against has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of benefits of equivalent effect. The notice shall specify the level of benefits that the complaining Party proposes to suspend. Subject to paragraph 5, the complaining Party may begin suspending benefits 30 days after the later of the date on which it provides notice to the other Party under this paragraph or the panel issues its determination under paragraph 3, as the case may be.

3. If the Party complained against considers that:
 - (a) the level of benefits that the complaining Party has proposed to be suspended is manifestly excessive; or
 - (b) it has eliminated the non-conformity or the nullification or impairment that the panel has found,

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The Party complained against shall deliver its request in writing to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the Parties within 90 days after it reconvenes to review a request under either subparagraph (a) or (b), or within 120 days for a request under both subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

4. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 3 or, if the panel has not determined the level, the level the Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

5. The complaining Party may not suspend benefits if, within 30 days after it provides written notice of intent to suspend benefits or, if the panel is reconvened under paragraph 3, within 20 days after the panel provides its determination, the Party complained against provides written notice to the other Party that it will pay an annual monetary assessment. The Parties shall consult, beginning no later than ten days after the Party complained against provides notice, with a view to reaching agreement on the amount of the assessment. If the Parties are unable to reach an agreement within 30 days after consultations begin, the amount of the assessment shall be set at a level, in U.S.

dollars, equal to 50 percent of the level of the benefits the panel has determined under paragraph 3 to be of equivalent effect or, if the panel has not determined the level, 50 percent of the level that the complaining Party has proposed to suspend under paragraph 2.

6. Unless the Joint Committee decides otherwise, a monetary assessment shall be paid to the complaining Party in U.S. currency, or in an equivalent amount of Korean currency, in equal, quarterly installments beginning 60 days after the Party complained against gives notice that it intends to pay an assessment. Where the circumstances warrant, the Joint Committee may decide that an assessment shall be paid into a fund established by the Joint Committee and expended at the direction of the Joint Committee for appropriate initiatives to facilitate trade between the Parties, including by further reducing unreasonable trade barriers or by assisting a Party in carrying out its obligations under this Agreement.

7. If the Party complained against fails to pay a monetary assessment, the complaining Party may suspend the application to the Party complained against of benefits in accordance with paragraph 4.

ARTICLE 22.14: COMPLIANCE REVIEW

1. Without prejudice to the procedures set out in Article 22.13.3, if the Party complained against considers that it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may refer the matter to the panel by providing written notice to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall issue its report on the matter within 90 days after the Party complained against provides notice.

2. If the panel decides that the Party complained against has eliminated the non-conformity or the nullification or impairment, the complaining Party shall promptly reinstate any benefits it has suspended under Article 22.13, and the Party complained against shall no longer be required to pay any monetary assessment it has agreed to pay under Article 22.13.5.

ARTICLE 22.15: FIVE-YEAR REVIEW

The Joint Committee shall review the operation and effectiveness of Article 22.13 not later than five years after the date this Agreement enters into force, or within six months after benefits have been suspended or monetary assessments have been paid in five proceedings initiated under this Chapter, whichever occurs first.

Section C: Domestic Proceedings and Private Commercial Dispute Settlement

ARTICLE 22.16: PRIVATE RIGHTS

Neither Party may provide for a right of action under its law against the other Party on the ground that a measure of the other Party is inconsistent with this Agreement.

ARTICLE 22.17: ALTERNATIVE DISPUTE RESOLUTION

1. Each Party shall, to the maximum extent possible, encourage and facilitate the use of arbitration and other means of alternative dispute resolution for the settlement of international commercial disputes between private parties in the free trade area established under Article 1.1 (Establishment of a Free Trade Area).
2. To this end, each Party shall provide appropriate procedures to ensure observance of agreements to arbitrate and for the recognition and enforcement of arbitral awards in such disputes.
3. A Party shall be deemed to be in compliance with paragraph 2 if it is a party to and is in compliance with the *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards*, done at New York, June 10, 1958.

ANNEX 22-A
ALTERNATIVE PROCEDURES FOR DISPUTES CONCERNING MOTOR VEHICLES

With respect to any matter described in Article 22.4 that relates to motor vehicles, a Party may initiate the dispute settlement procedures set out in this Annex in lieu of the procedures provided for in Articles 22.7 through 22.13.

Unless the Parties otherwise agree:

1. The complaining Party may refer the matter to the Joint Committee by delivering written notification to the Party complained against. The Joint Committee shall promptly meet and endeavor to resolve the matter.
2. If the Joint Committee has not resolved the matter within 30 days after delivery of the notification described in paragraph 1, the complaining Party may notify the Party complained against in writing that it is referring the matter to a dispute settlement panel.
3. Within seven days after the complaining Party delivers written notice under paragraph 2, the Parties shall meet and select by lot from the contingent list established in Article 22.9.3 one national of each Party to serve as panelists and one person who is not a national of either Party to serve as chair of the panel. If an individual selected by lot is unable to serve on the panel, the Parties shall promptly meet to select a replacement by lot. The panel shall be deemed to be established once panel selection is complete.
4. The procedures provided for in Articles 22.10 and 22.11 shall apply to panel proceedings under this Annex, except that:
 - (a) the panel shall also make a determination as to whether the non-conformity or the nullification or impairment, if any, has materially affected the sale, offering for sale, purchase, transportation, distribution, or use of originating goods of the complaining Party;
 - (b) the panel shall present an initial report on the matter to the Parties within 120 days after the panel is established;
 - (c) each Party may submit written comments to the panel on its initial report within seven days of the presentation of the report; and
 - (d) the panel shall present its final report within 21 days after it presents its initial report.
5. If, in its final report, the panel determines that:
 - (a) the Party complained against has not conformed with its obligations under this Agreement or that its measure is causing nullification or impairment in the sense of Article 22.4(c); and

- (b) the non-conformity or the nullification or impairment that the panel has found has materially affected the sale, offering for sale, purchase, transportation, distribution, or use of originating goods of the complaining Party,⁵

the complaining Party may increase the rate of customs duty on originating goods under tariff heading 8703 to a level not to exceed its prevailing most-favored-nation applied rate of duty on those goods.

6. If the complaining Party has increased duties pursuant to paragraph 5, it shall rescind the increased duties when the Party complained against has eliminated the non-conformity or the nullification or impairment.
7. The Party complained against may deliver a request in writing to the complaining Party to reconvene the panel if it considers that the complaining Party has failed to rescind the increased duties in conformity with paragraph 6. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the Parties within 90 days after it reconvenes. If the panel decides that the Party complained against has eliminated the non-conformity or the nullification or impairment, the complaining Party shall promptly rescind the increased duties.
8. The procedures set forth in this Annex shall terminate ten years after the date this Agreement enters into force, provided that no panel established under this Annex during that period has determined that a Party has failed to conform with its obligations under this Agreement or that a Party's measure has caused nullification or impairment in the sense of Article 22.4(c).

⁵ If the panel determines that the non-conformity or the nullification or impairment that the panel has found has not materially affected the sale, offering for sale, purchase, transportation, distribution, or use of originating goods of the complaining Party, the procedures provided for in Articles 22.12 and 22.13 shall apply.

ANNEX 22-B
COMMITTEE ON OUTWARD PROCESSING ZONES ON THE KOREAN PENINSULA

1. Recognizing the Republic of Korea's constitutional mandate and security interests, and the corresponding interests of the United States, the Parties shall establish a Committee on Outward Processing Zones on the Korean Peninsula. The Committee shall review whether conditions on the Korean Peninsula are appropriate for further economic development through the establishment and development of outward processing zones.
2. The Committee shall be comprised of officials of each Party. The Committee shall meet on the first anniversary of the entry into force of the Agreement and at least once annually thereafter, or at any time as mutually agreed.
3. The Committee shall identify geographic areas that may be designated outward processing zones. The Committee shall establish criteria that must be met before goods from any outward processing zone may be considered originating goods for the purposes of this Agreement, including but not limited to: progress toward the denuclearization of the Korean Peninsula; the impact of the outward processing zones on intra-Korean relations; and the environmental standards, labor standards and practices, wage practices and business and management practices prevailing in the outward processing zone, with due reference to the situation prevailing elsewhere in the local economy and the relevant international norms.
4. The Committee shall determine whether any such outward processing zone has met the criteria established by the Committee. The Committee shall also establish a maximum threshold for the value of the total input of the originating final good that may be added within the geographic area of the outward processing zone.
5. Decisions reached by the unified consent of the Committee shall be recommended to the Parties, which shall be responsible for seeking legislative approval for any amendments to the Agreement with respect to outward processing zones.

ANNEX 22-C
FISHERIES COMMITTEE

1. The Parties hereby establish a Fisheries Committee, comprising representatives of each Party, to promote cooperation between the Parties regarding fisheries matters.
2. The Committee shall discuss:
 - (a) each Party's policies on commercial activities within its Exclusive Economic Zones;
 - (b) cooperation on scientific research on fisheries matters of mutual concern;
and
 - (c) global fisheries issues of mutual concern.
3. The Committee shall meet within one year after the date this Agreement enters into force and annually thereafter unless the Parties otherwise agree. The Committee shall inform the Joint Committee of the results of each meeting.

CHAPTER TWENTY-THREE EXCEPTIONS

ARTICLE 23.1: GENERAL EXCEPTIONS

1. For purposes of Chapters Two through Four (National Treatment and Market Access for Goods, Agriculture, and Textiles and Apparel) and Six through Nine (Rules of Origin and Origin Procedures, Customs Administration and Trade Facilitation, Sanitary and Phytosanitary Measures, and Technical Barriers to Trade), Article XX of GATT 1994 and its interpretive notes are incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XX(b) of GATT 1994 include environmental measures necessary to protect human, animal, or plant life or health, and that Article XX(g) of GATT 1994 applies to measures relating to the conservation of living and non-living exhaustible natural resources.

2. For purposes of Chapters Twelve (Cross-Border Trade in Services), Fourteen (Telecommunications), and Fifteen (Electronic Commerce),¹ Article XIV of GATS (including its footnotes) is incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XIV(b) of GATS include environmental measures necessary to protect human, animal, or plant life or health.

ARTICLE 23.2: ESSENTIAL SECURITY

Nothing in this Agreement shall be construed:

- (a) to require a Party to furnish or allow access to any information the disclosure of which it determines to be contrary to its essential security interests; or
- (b) to preclude a Party from applying measures that it considers necessary for the fulfillment of its obligations with respect to the maintenance or restoration of international peace or security or the protection of its own essential security interests.²

ARTICLE 23.3: TAXATION

1. Except as set out in this Article, nothing in this Agreement shall apply to taxation measures.
2. (a) Nothing in this Agreement shall affect the rights and obligations of either Party under any tax convention. In the event of any inconsistency between this Agreement and any such convention, that convention shall prevail to

¹ Article 23.1 is without prejudice to whether digital products should be classified as goods or services.

² For greater certainty, if a Party invokes Article 23.2 in an arbitral proceeding initiated under Chapter Eleven (Investment) or Chapter Twenty-Two (Institutional Provisions and Dispute Settlement), the tribunal or panel hearing the matter shall find that the exception applies.

the extent of the inconsistency.

- (b) In the case of a tax convention between the Parties, the competent authorities under that convention shall have sole responsibility for determining whether any inconsistency exists between this Agreement and that convention.

3. Notwithstanding paragraph 2:

- (a) Article 2.2 (National Treatment) and such other provisions of this Agreement as are necessary to give effect to that Article shall apply to taxation measures to the same extent as does Article III of GATT 1994; and
- (b) Articles 2.11 (Export Duties, Taxes, or Other Charges) and 2.12 (Engine Displacement Taxes) shall apply to taxation measures.

4. Subject to paragraph 2:

- (a) Articles 12.2 (National Treatment), 13.2 (National Treatment), and 13.5.1 (Cross-Border Trade) shall apply to taxation measures on income, on capital gains, or on the taxable capital of corporations that relate to the purchase or consumption of particular services, except that nothing in this subparagraph shall prevent a Party from conditioning the receipt or continued receipt of an advantage relating to the purchase or consumption of particular services on requirements to provide the service in its territory; and
- (b) Articles 11.3 (National Treatment) and 11.4 (Most-Favored-Nation Treatment), Articles 12.2 (National Treatment) and 12.3 (Most-Favored-Nation Treatment), and Articles 13.2 (National Treatment) and 13.3 (Most-Favored-Nation Treatment) shall apply to all taxation measures, other than those on income, on capital gains, or on the taxable capital of corporations, or taxes on estates, inheritances, gifts, and generation-skipping transfers;

except that nothing in the Articles referred to in subparagraphs (a) and (b) shall apply:

- (c) any most-favored-nation obligation with respect to an advantage accorded by a Party pursuant to a tax convention;
- (d) to a non-conforming provision of any existing taxation measure;
- (e) to the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;
- (f) to an amendment to a non-conforming provision of any existing taxation measure to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of those Articles;

- (g) to the adoption or enforcement of any taxation measure aimed at ensuring the equitable or effective imposition or collection of taxes (as permitted by Article XIV(d) of GATS); or
 - (h) to a provision that conditions the receipt, or continued receipt, of an advantage relating to the contributions to, or income of, a pension trust or pension plan on a requirement that the Party maintain continuous jurisdiction over the pension trust or pension plan.
5. Subject to paragraph 2 and without prejudice to the rights and obligations of the Parties under paragraph 3, paragraphs 2, 3, and 4 of Article 11.8 (Performance Requirements) shall apply to taxation measures.
6. (a) Article 11.16 (Submission of a Claim to Arbitration) shall apply to a taxation measure alleged to be an expropriation or a breach of an investment agreement or an investment authorization.
- (b) Article 11.6 (Expropriation and Compensation) shall apply to taxation measures. However, no investor may invoke Article 11.6 as the basis for a claim where it has been determined pursuant to this subparagraph that the measure is not an expropriation. An investor that seeks to invoke Article 11.6 with respect to a taxation measure must first refer to the competent authorities, at the time that it gives its notice of intent under Article 11.16.2 (Submission of a Claim to Arbitration), the issue of whether that taxation measure is not an expropriation. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of 180 days of such referral, the investor may submit its claim to arbitration under Article 11.16.3.
- (c) For purposes of this paragraph, **competent authorities** means:
- (i) in the case of Korea, the Deputy Minister for Tax and Customs, Ministry of Finance and Economy; and
 - (ii) in the case of the United States, the Assistant Secretary of the Treasury (Tax Policy).
7. For purposes of this Article, “taxes” and “taxation measures” do not include:
- (a) a customs duty as defined in Article 1.4 (Definitions); or
 - (b) the measures listed in exceptions (b) and (c) of that definition.

ARTICLE 23.4: DISCLOSURE OF INFORMATION

Nothing in this Agreement shall be construed to require a Party to furnish or allow access to confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or which would prejudice the legitimate commercial interests of particular enterprises, public or private.

The Annexes, Appendices, and footnotes to this Agreement constitute an integral part of this Agreement.

ARTICLE 24.3: AMENDMENT OF THE WTO AGREEMENT

If any provision of the WTO Agreement that the Parties have incorporated into this Agreement is amended, the Parties shall consult to consider amending the relevant provision of this Agreement, as appropriate, in accordance with Article 24.2.

ARTICLE 24.4: ACCESSION

1. Any country or group of countries may accede to this Agreement subject to such terms and conditions as may be agreed between the country or group of countries and the Parties and following approval in accordance with the applicable legal requirements and procedures of each Party and acceding country.
2. This Agreement shall not apply as between any Party and any acceding country or group of countries if, at the time of the agreement described in paragraph 1, one of them does not consent to such application.

ARTICLE 24.5: ENTRY INTO FORCE AND TERMINATION

1. This Agreement shall enter into force 60 days after the date the Parties exchange written notifications certifying that they have completed their respective applicable legal requirements and procedures or on such other date as the Parties may agree.
2. This Agreement shall terminate 180 days after the date either Party notifies the other Party in writing that it wishes to terminate the Agreement.
3. THE UNITED STATES OF AMERICA:

ANNEX I
EXPLANATORY NOTES

1. The Schedule of a Party to this Annex sets out, pursuant to Articles 11.12 (Non-Conforming Measures) and 12.6 (Non-Conforming Measures), the Party's existing measures that are not subject to some or all of the obligations imposed by:
 - (a) Article 11.3 (National Treatment) or 12.2 (National Treatment);
 - (b) Article 11.4 (Most-Favored-Nation Treatment) or 12.3 (Most-Favored-Nation Treatment);
 - (c) Article 12.5 (Local Presence);
 - (d) Article 11.8 (Performance Requirements);
 - (e) Article 11.9 (Senior Management and Boards of Directors); or
 - (f) Article 12.4 (Market Access).

2. Each Schedule entry sets out the following elements:
 - (a) **Sector** refers to the sector for which the entry is made;
 - (b) **Obligations Concerned** specifies the article(s) referred to in paragraph 1 that, pursuant to Articles 11.12.1(a) and 12.6.1(a), do not apply to the non-conforming aspects of the law, regulation, or other measure, as set out in paragraph 3;
 - (c) **Level of Government**¹ indicates the level of government maintaining the scheduled measure(s);
 - (d) **Measures**² identifies the laws, regulations, or other measures for which the entry is made. A measure cited in the **Measures** element:
 - (i) means the measure as amended, continued, or renewed as of the date of entry into force of this Agreement; and
 - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
 - (e) **Description** sets out commitments, if any, for liberalization on the date of entry into force of the Agreement, and the remaining non-conforming aspects of the measure for which the entry is made.

¹ If none is specified, the measure is maintained at the central level of government.

² For greater certainty, in the case of Korea, a change in the level of government at which a measure is administered or enforced does not, by itself, decrease the conformity of the measure with the obligations referred to in Article 11.12.1 and Article 12.6.1.

3. In the interpretation of a Schedule entry, all elements of the entry shall be considered. An entry shall be interpreted in light of the relevant articles of the Chapters against which the entry is made. To the extent that:

- (a) the **Measures** element is qualified by a liberalization commitment from the **Description** element, the **Measures** element as so qualified shall prevail over all other elements; and
- (b) the **Measures** element is not so qualified, the **Measures** element shall prevail over all other elements, unless any discrepancy between the **Measures** element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the **Measures** element should prevail, in which case the other elements shall prevail to the extent of that discrepancy.

4. In accordance with Articles 11.12.1(a) and 12.6.1(a), and subject to Articles 11.12.1(c) and 12.6.1(c), the articles of this Agreement specified in the **Obligations Concerned** element of an entry do not apply to the non-conforming aspects of the law, regulation, or other measure identified in the **Measures** element of that entry.

5. Where a Party maintains a measure that requires that a service provider be a citizen, permanent resident, or resident of its territory as a condition to the provision of a service in its territory, a Schedule entry for that measure taken with respect to Article 12.2 (National Treatment), 12.3 (Most-Favored-Nation Treatment), or 12.5 (Local Presence) shall operate as a Schedule entry with respect to Article 11.3 (National Treatment), 11.4 (Most-Favored-Nation Treatment), or 11.8 (Performance Requirements) to the extent of that measure.

6. For Korea, a **foreign person** means a foreign national or an enterprise organized under the laws of another country.

7. For greater certainty, Local Presence (Article 12.5) and National Treatment (Article 12.2) are separate disciplines and a measure that is only inconsistent with Local Presence (Article 12.5) need not be reserved against National Treatment (Article 12.2).

However, no award may be made in favor of the claimant, if Korea establishes to the satisfaction of the tribunal that the measure satisfies all the conditions listed in subparagraphs (a) through (e) of paragraph 1.

Description: Cross-Border Services and Investment

The United States reserves the right to adopt or maintain any measure that accords differential treatment to persons of other countries due to application of reciprocity measures* or through international agreements involving sharing of the radio spectrum, guaranteeing market access, or national treatment with respect to the one-way satellite transmission of direct-to-home (DTH) and direct broadcasting satellite (DBS) television services and digital audio services.

* In applying such a reciprocity measure, the FCC determines whether another country accords effective competitive opportunities to U.S. service suppliers. In making that determination the FCC considers whether that country accords no less favorable treatment to U.S. service suppliers than domestic service suppliers and does not limit the number of service suppliers in its market, among other factors.

APPENDIX III-A
CERTAIN MEASURES NOT INCONSISTENT WITH ARTICLE 13.4 OR SUBJECT TO 13.10.1

The following measures are not inconsistent with Article 13.4 (Market Access for Financial Institutions):

- (5) The overall net open position of foreign exchange banks, measured by the sum of the net short position or the sum of the net long positions, whichever is greater (short-hand method), is limited to 50 percent of the total equity capital at the end of the previous month; the overbought (long won) position of NDFs (Non-Deliverable Forwards) held by onshore banks may not exceed 110 percent of the position as registered on January 14, 2004. (Article 11-2 of the *Foreign Exchange Transaction Act* (Law No. 8050, October 4, 2006); and Article 2-9 of the *Foreign Exchange Transaction Regulation* (Notification of the Ministry of Finance and Economy No. 2006-26, August 3, 2006));

- (7) The value of lending to an individual credit card holder may be capped. (Article 24 of the *Specialized Credit Financing Business Act* (Law No. 7929, April 28, 2006));
- (8) A bank, securities company or other financial institution constituted in Korea may only engage in activities permitted by the relevant laws. (Articles 27 and 28 of the *Banking Act* (Law No. 7428, March 31, 2005); and Article 51 of the *Securities and Exchange Act* (Law No. 7762, December 29, 2005) and Articles 36-2 and 36-3 of the *Enforcement Decree of Securities and Exchange Act* (Presidential Decree No. 19806, December 29, 2006));
- (9) A financial institution is prohibited from acquiring real estate for non-business purpose. (Article 38 of the *Banking Act* (Law No. 7428, March 31, 2005); Article 105 of the *Insurance Business Act* (Law No. 7971, August 29, 2006));

The following measures fall within Article 13.10.1 (Exceptions) and that, therefore, Article 13.2 (National Treatment) does not prevent Korea from maintaining them:

- (1) The operating fund of a branch of a foreign insurance company will be considered as capital and the head office's capital will not be taken into consideration for purposes of determining the amount of funds to be raised or loans to be extended by such local branch (Article 9-3 of the *Insurance Business Act* (Law No. 7971, August 29, 2006));
- (2) A branch in Korea of a foreign insurance company must maintain in the territory of Korea assets equal to the aggregate of the reserve for performance of liability and the reserve for emergency relating to the insurance contracts executed in Korea (Article 75 of the *Insurance Business Act* (Law No. 7971, August 29, 2006)).

Headnotes

1. Commitments in these subsectors under the Agreement are undertaken subject to the limitations and conditions set forth in these headnotes and in the Schedules below.
2. To clarify the commitment of Korea with respect to Article 13.4 (Market Access for Financial Institutions), juridical persons supplying financial services and constituted under the laws of Korea are subject to non-discriminatory limitations on juridical form.¹
3. The commitments of Korea under Articles 13.2 (National Treatment) and 13.4 (Market Access for Financial Institutions) are subject to the limitation that in order to establish or acquire a controlling interest in a financial institution in Korea, a foreign investor must own or control a financial institution that engages in supplying financial services within the same financial services subsector in its home country.
4. Korea limits its commitments under Article 13.9.1(c) (Non-Conforming Measures) with respect to Article 13.4 (Market Access for Financial Institutions) in the following manner: Article 13.9.1(c) shall apply only to non-conforming measures relating to 13.4(a) and not to those non-conforming measures relating to Article 13.4(b).

¹ For example, partnerships and sole proprietorship are generally not acceptable juridical forms for depository financial institutions in Korea. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

 - (f) **Description** provides a general, non-binding description of the measure for which the entry is made.
- 3. Each entry in Section B sets out the following elements:
 - (a) **Sector** refers to the general sector for which the entry is made;
 - (b) **Subsector** refers to the specific sector for which the entry is made;
 - (c) **Obligations Concerned** specifies the article(s) referred to in paragraph 1(c) that, pursuant to Article 13.9.2, do not apply to the sectors, subsectors, or activities scheduled in the entry;

- 6. Where the United States maintains a measure that requires that a service supplier be a citizen, permanent resident, or resident of its territory as a condition to the supply of a service in its territory, a Schedule entry for that measure taken with respect to Article 13.2, 13.3, 13.4, or 13.5 shall operate as a Schedule entry with respect to Article 11.3 (National Treatment), 11.4 (Most-Favored-Nation Treatment), or 11.8 (Performance Requirements) to the extent of that measure.
- 7. An entry in Annex I or Annex II specifying that Article 12.2 (National Treatment) does not apply to the non-conforming aspects of a law, regulation, or other measure, shall not be construed as limiting a Party's obligation under Article 13.5.1 to accord national treatment with respect to the supply of services specified in Annex 13-A to cross-border financial service suppliers of the other Party.

Headnotes

1. Commitments in these subsectors under the Agreement are undertaken subject to the limitations and conditions set forth in these headnotes and in the Schedule below.
2. National treatment commitments in these subsectors are subject to the following limitations:
 - (a) National treatment with respect to banking will be provided based upon the foreign bank's "home state" in the United States, as that term is defined under the *International Banking Act*, where that Act is applicable. A domestic bank subsidiary of a foreign firm will have its own "home state," and national treatment will be provided based upon the subsidiary's home state, as determined under applicable law.¹
 - (b) National treatment with respect to insurance financial institutions will be provided according to a non-U.S. insurance financial institution's state of domicile, where applicable, in the United States. State of domicile is defined by individual states, and is generally the state in which an insurer either is incorporated, is organized, or maintains its principal office in the United States.
3. To clarify the U.S. commitment with respect to Article 13.4 (Market Access for Financial Institutions), juridical persons supplying banking or other financial services (excluding insurance) and constituted under the laws of the United States are subject to non-discriminatory limitations on juridical form.²
4. The United States limits its commitments under Article 13.9.1(c) (Non-Conforming Measures) with respect to Article 13.4 (Market Access for Financial Institutions) in the following manner: with respect to banking and other financial services (excluding insurance), Article 13.9.1(c) shall apply only to non-conforming measures relating to 13.4(a) and not to those non-conforming measures relating to Article 13.4(b).

¹ Foreign banking organizations are generally subject to geographic and other limitations in the United States on a national treatment basis. Where such limitations do not conform to national treatment, they have been listed as non-conforming measures. For purposes of illustration, under this approach, the following situation does not accord national treatment and would therefore be listed as a non-conforming measure: a foreign bank from a particular home state is accorded less favorable treatment than that accorded to a domestic bank from that state with respect to expansion by branching.

² For example, partnerships and sole proprietorships are generally not acceptable juridical forms for depository financial institutions in the United States. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

Mr. Kim Young-Hak
Director General for
Major Manufacturing Industries Office
Ministry of Commerce, Industry, and Energy
Gwacheon, Republic of Korea

Dear Director General Kim:

During the course of negotiations regarding Chapter Four (Textiles and Apparel) of the Free Trade Agreement between our two Governments signed this day, Korea expressed its strong interest in adding certain cotton sheeting fabrics, man-made fiber knit fabrics, polyester and other synthetic filament fabrics, and wool fabrics to the list of the United States in Appendix 4-B-1 (Fibers, Yarns, and Fabrics Not Available in Commercial Quantities) of the Agreement, in order to provide greater flexibility to Korean producers in satisfying the Agreement's rules of origin for textile and apparel goods.

I am pleased to confirm that upon receipt of a request from your Government or another interested entity after the date of entry into force of the Agreement that describes the fabrics in detail, the United States will consider the request in accordance with the procedures set out in Annex 4-B (Fibers, Yarns, and Fabrics Not Available in Commercial Quantities) of the Agreement. Under those procedures, the United States will make its decision on the request within 30 business days of receiving the request unless it has insufficient information, in which case it will make its decision within an additional 30 business days.

I look forward to working closely with you and your Government in connection with the implementation of the Free Trade Agreement.

Sincerely,

Scott Quesenberry
Special Textile Negotiator

United States Trade Representative
Washington, D.C.

Dear Ambassador Schwab:

In the course of negotiations regarding Chapter Twelve (Cross-Border Trade in Services) of the Free Trade Agreement between our two Governments signed this day, the delegations of the Republic of Korea and the United States of America discussed the regulatory reform processes that their respective governments are contemplating or currently undertaking with regard to postal services and how those processes might affect competitive express delivery services.

In the context of those discussions, Korea indicated the following aspects, among others, of its postal reform plan:

Korea intends to expand gradually the exceptions to the Korean Postal Authority's monopoly to increase the scope of private delivery services that are permitted and to establish a scheme ensuring the independence of Korea's postal regulatory system. This will be done through amendments to the *Postal Service Act*, related laws, or their subordinate regulations.

- (a) After these amendments are enacted, the items that private delivery service suppliers may handle will be classified based on objective standards such as weight, price, or a combination thereof. In determining the nature and extent of such amendments, Korea will consider various factors, including domestic market conditions, experiences of other countries with postal liberalization, and the need to ensure universal service. Korea plans to implement these amendments within the next five years.
- (b) Over time, Korea also will address the issue of independence of its regulatory system for postal and express delivery services. The regulator of express delivery services will be separate from, and not accountable to, any supplier of postal or other delivery services after such reform. The decisions of, and the procedures used by, regulators should be impartial and transparent with respect to all market participants.

In applying these reformed criteria and regulatory system, Korea will provide non-discriminatory opportunities to all postal and express delivery service suppliers in Korea.

Sincerely,

[*SGN*]

Seoul, Republic of Korea

Dear Ambassador Kim:

During the course of negotiations regarding Chapter Fifteen (Electronic Commerce) of the Free Trade Agreement between our two Governments signed on this day, the delegations of the Republic of Korea and the United States of America discussed a range of issues relating to electronic commerce and the importance of open access to the Internet for electronic commerce-related activities.

Both delegations recognized that the principles on access to and use of the Internet contained in Article 15.7 (Principles on Access to and Use of the Internet for Electronic Commerce) support the Parties' shared goal of maintaining an open and competitive environment for electronic commerce-related activities. The delegations also recognized that lawful contractual arrangements between network providers, application and service providers, content providers, and Internet users may be consistent with these principles, provided that the Party's relevant authorities do not determine that the arrangements are exclusionary.

The delegations further recognized the ongoing debate in the United States and Korea concerning reasonable and appropriate cost distribution between network providers, application and service providers, content providers, and Internet users, and that this debate's outcome may affect both access to and use of the Internet and the incentives for network investment. The Parties recognized that, consistent with a report of the Organization for Economic Cooperation and Development (OECD) in 2005,¹ commercial arrangements between competitive suppliers have effectively addressed the international aspect of the cost distribution issue.

Finally, the delegation of Korea noted that, services suppliers identified in Korea as "Internet Access Providers" are "network providers" within the meaning of Article 15.7(d).

I would be grateful if you could confirm that your Government shares these views regarding the discussions relating to electronic commerce and principles on access to and use of networks.

Sincerely,

Wendy Cutler
Chief Negotiator for the KORUS FTA
