2. This Agreement shall in no way prejudice the right of any person to use, in the course of trade, that person’s name or the name of that person’s predecessor in business, except where such name is used in such a manner as to mislead consumers.

3. If geographical indications of the Parties are homonymous, protection shall be granted to each indication provided that it has been used in good faith. The Working Group on Geographical Indications shall decide the practical conditions of use under which the homonymous geographical indications will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled. ARTICLE 10.29: PROTECTION CONFERRED TO UNREGISTERED APPEARANCE

The European Union and Korea shall provide the legal means to prevent the use of the unregistered appearance of a product, only if the contested use results from copying the unregistered appearance of such product.¹² Such use shall at least cover presenting,¹³ importing or exporting goods.

¹¹ Korea considers designs not to be new if an identical or similar design has been publicly known or publicly worked before the application for design registration is filed. Korea considers designs not to be original if they could have been easily created from the combinations of designs that have been publicly known or publicly worked before the application for design registration is filed. The European Union considers designs not to be new if an identical design has been made available to the public before the filing date of a registered design or before the date of disclosure of an unregistered design. The European Union considers design not to have individual character if the overall impression it produces on the informed users does not differ from the overall impression produced on such a user by any design which has been made available to the public.

¹² For the purposes of this Article, the European Union and Korea consider that "unregistered design" and "unregistered appearance" have a similar meaning. The conditions for protection of "unregistered design" or "unregistered appearance" are provided for:

- (a) by Korea in the *Unfair Competition Prevention and Trade Secret Protection Act* (Act No. 8767, Dec. 21, 2007); and

2. The duration of protection available in the European Union and Korea for unregistered appearance shall amount to at least three years.

ARTICLE 10.31: EXCEPTIONS

2. Design protection shall not extend to designs dictated essentially by technical or functional considerations.
3. A design right shall not subsist in a design which is contrary to public policy or to accepted principles of morality.

ARTICLE 10.32: RELATIONSHIP WITH COPYRIGHT

2. Each Party shall contribute to the implementation of and shall respect the *Decision of the WTO General Council of 30 August 2003* on paragraph 6 of the Doha Declaration, as well as *the Protocol amending the TRIPS Agreement*, done at Geneva on 6 December 2005.

1. The Parties recognise that pharmaceutical products¹⁵ and plant protection products¹⁶ protected by a patent in their respective territories are subject to an administrative authorisation or registration procedure before being put on their markets.

2. The Parties shall provide, at the request of the patent owner, for the extension of the duration of the rights conferred by the patent protection to compensate the patent owner for the reduction in the effective patent life as a result of the first authorisation to place the product on their respective markets. The extension of the duration of the rights conferred by the patent protection may not exceed five years¹⁷.

ARTICLE 10.36: PROTECTION OF DATA SUBMITTED TO OBTAIN A MARKETING AUTHORISATION FOR PHARMACEUTICAL¹⁸ PRODUCTS

1. The Parties shall guarantee the confidentiality, non-disclosure of and non-reliance on data submitted for the purpose of obtaining an authorisation to put a pharmaceutical product on the market.

2. For that purpose, the Parties shall ensure in their respective legislation that data, as referred to in Article 39 of the TRIPS Agreement, concerning safety and efficacy, submitted for the first time by an applicant to obtain a marketing authorisation for a new pharmaceutical product in the territory of the respective Parties, is not used for granting another marketing authorisation for a pharmaceutical product, unless proof of the explicit consent of the marketing authorisation holder to use these data is provided.

- (c) preserving plant products, in so far as such substances or products are not subject to the European Union's special provisions on preservatives;
- (d) destroying undesired plants or parts of plants, except algae unless the products are applied on soil or water to protect plants; or
- (e) checking or preventing undesired growth of plants, except algae unless the products are applied on soil or water to protect plants.

¹⁷ This is without prejudice to a possible extension for paediatric use, if provided for by the Parties.

¹⁸ As defined in Annex 2-D (Pharmaceutical Products and Medical Devices).

ARTICLE 10.37: PROTECTION OF DATA SUBMITTED TO OBTAIN A MARKETING AUTHORISATION FOR PLANT PROTECTION PRODUCTS

1. The Parties shall determine safety and efficacy requirements before authorising the placing on their respective markets of plant protection products.
2. The Parties shall ensure that tests, study reports or information submitted for the first time by an applicant to obtain a marketing authorisation for a plant protection product are not used by third parties or relevant authorities for the benefit of any other person aiming at achieving a marketing authorisation for a plant protection product, unless proof of the explicit consent of the first applicant to use these data is provided. This protection will be hereinafter referred to as data protection.

SUB-SECTION A
CIVIL MEASURES, PROCEDURES AND REMEDIES

ARTICLE 10.43: EVIDENCE

Each Party shall take such measures as necessary, in the case of an infringement of an intellectual property right committed on a commercial scale, to enable the competent judicial authorities to order, where appropriate and following a party's application, the submission of banking, financial or commercial documents under the control of the opposing party, subject to the protection of confidential information.

ARTICLE 10.44: PROVISIONAL MEASURES FOR PRESERVING EVIDENCE

1. Each Party shall ensure that, even before the commencement of proceedings on the merits of the case, the competent judicial authorities may, on application by a party who has presented reasonably available evidence to support its claims that its intellectual property right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information.

2. Each Party may provide that such measures include the detailed description, with or without the taking of samples, or the physical seizure of the infringing goods, and in appropriate cases, the materials and implements used in the production or distribution of these goods and the documents relating thereto. Those measures shall be taken, if necessary without the other party being heard, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed.

ARTICLE 10.45: RIGHT OF INFORMATION

1. Each Party shall ensure that, during civil proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the claimant, the competent judicial authorities may order the infringer and/or any other person which is party to a litigation or a witness therein to provide information on the origin and distribution networks of the goods or services which infringe an intellectual property right.

- (a) “Any other person” in this paragraph means a person who:
 - (i) was found in possession of the infringing goods on a commercial scale;
 - (ii) was found to be using the infringing services on a commercial scale;
 - (iii) was found to be providing on a commercial scale services used in infringing activities; or
 - (iv) was indicated by the person referred to in this subparagraph as being involved in the production, manufacture or distribution of the goods or the provision of the services.
- (b) Information shall, as appropriate, comprise:
 - (i) the names and addresses of the producers, manufacturers, distributors, suppliers and other previous holders of the goods or services, as well as the intended wholesalers and retailers; or
 - (ii) information on the quantities produced, manufactured, delivered, received or ordered, as well as the price obtained for the goods or services in question.

2. This Article shall apply without prejudice to other statutory provisions which:

- (a) grant the right holder rights to receive fuller information;
- (b) govern the use in civil or criminal proceedings of the information communicated pursuant to this Article;
- (c) govern responsibility for misuse of the right of information;
- (d) afford an opportunity for refusing to provide information which would force the person referred to in paragraph 1 to admit his own participation or that of his close relatives in an infringement of an intellectual property right; or
- (e) govern the protection of confidentiality of information sources or the processing of personal data.

ARTICLE 10.46: PROVISIONAL AND PRECAUTIONARY MEASURES

1. Each Party shall ensure that the judicial authorities may, at the request of the applicant, issue an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, to forbid, on a provisional basis and subject, where appropriate, to a recurring penalty payment where provided for by its legislation, the continuation of the alleged infringements of that right, or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder. An

interlocutory injunction may also be issued against an intermediary²⁰ whose services are being used by a third party to infringe copyright, related rights, trademarks or geographical indications.

2. An interlocutory injunction may also be issued to order the seizure of the goods suspected of infringing an intellectual property right so as to prevent their entry into or movement within the channels of commerce.

3. In the case of an infringement committed on a commercial scale, each Party shall ensure that, if the applicant demonstrates circumstances likely to endanger the recovery of damages, the judicial authorities may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of bank accounts and other assets.

ARTICLE 10.47: CORRECTIVE MEASURES

1. Each Party shall ensure that the competent judicial authorities may order, at the request of the applicant and without prejudice to any damages to the right holder by reason of the infringement, and without compensation of any sort, destruction of goods that they have found to be infringing an intellectual property right or any other measures to definitively remove those goods from the channels of commerce. If appropriate, the competent judicial authorities may also order destruction of materials and implements principally used in the creation or manufacture of those goods.

2. The judicial authorities shall order that those measures be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

3. In considering a request for corrective measures, the need for proportionality between the seriousness of the infringement and the remedies ordered as well as the interests of third parties shall be taken into account.

ARTICLE 10.48: INJUNCTIONS

1. Each Party shall ensure that, where a judicial decision is taken finding an infringement of an intellectual property right, the judicial authorities may issue against the infringer an injunction aimed at prohibiting the continuation of the infringement.

2. Where provided for by law, non-compliance with an injunction shall, where appropriate, be subject to a recurring penalty payment, with a view to ensuring compliance. Each Party shall also ensure that right holders are in a position to apply for an injunction against intermediaries²¹ whose services are being used by a third party to infringe copyright, related rights, trademarks or geographical indications.

²⁰ For the purposes of this paragraph, the scope of “intermediary” is determined in each Party’s legislation, but shall include those who deliver or distribute infringing goods, and also where appropriate, include online service providers.

Each Party may provide that, in appropriate cases and at the request of the person liable to be subject to the measures provided for in Article 10.47 or 10.48, the competent judicial authorities may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in Article 10.47 or 10.48 if that person acted unintentionally and without negligence, if execution of the measures in question would cause him or her disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

ARTICLE 10.50: DAMAGES

1. Each Party shall ensure that when the judicial authorities set damages:
 - (a) they shall take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the right holder by the infringement; or
 - (b) as an alternative to subparagraph (a), they may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.
2. Where the infringer did not knowingly, or with reasonable grounds to know, engage in infringing activity, the Parties may provide that the judicial authorities may order the recovery of profits or the payment of damages which may be pre-established.
3. In civil judicial proceedings, each Party, at least with respect to works, phonograms, and performances protected by copyright or related rights, and in cases of trademark counterfeiting, may establish or maintain pre-established damages, which shall be available on the election of the right holder.

ARTICLE 10.51: LEGAL COSTS

Each Party shall ensure that reasonable and proportionate legal costs and other expenses incurred by the successful party shall as a general rule be borne by the unsuccessful party, unless equity does not allow as such.

ARTICLE 10.52: PUBLICATION OF JUDICIAL DECISIONS

In cases of infringement of an intellectual property right, each Party shall ensure that the judicial authorities may order, where appropriate, at the request of the applicant and at the expense of the infringer, appropriate measures for the dissemination of the information concerning the decision, including displaying the decision and publishing it in full or in part. Each Party may provide for other additional publicity measures which are appropriate to the

particular circumstances, including prominent advertising.

ARTICLE 10.53: PRESUMPTION OF AUTHORSHIP OR OWNERSHIP

In civil proceedings involving copyright or related rights, each Party shall provide for a presumption that, in the absence of proof to the contrary, the person or entity whose name is indicated as the author or related right holder of the work or subject matter in the usual manner is the designated right holder in such work or subject matter.

SUB-SECTION B CRIMINAL ENFORCEMENT

ARTICLE 10.54: SCOPE OF CRIMINAL ENFORCEMENT

Each Party shall provide for criminal procedures and penalties to be applied at least in cases of wilful trademark counterfeiting and copyright and related rights²² piracy on a commercial scale.
